Reliance Communications Limited

Letter to Shareowners

My dear fellow Shareowners,

Under the leadership of Hon'ble Prime Minister, Shri Narendra Modi, the Indian economy has continued its high growth momentum. The recent measures by the government including demonetization and nationwide roll-out of GST, inter-alia, will improve the ease of doing business in India and would instill greater confidence among investors to enhance their participation in the Indian growth story

Last financial year 2016-17 was a financially challenging year for the entire telecom sector. The hyper competition in the sector brought significant disruption and impacted the sector's operational and financial health. All operators' financial performance in the sector has been adversely impacted. Your Company has also seen the impact on its revenues and profitability.

Your Company is implementing a well-planned 4G strategy that will provide world class services to its valued customers. We expect to see significant growth in our data business with the proliferation of our 4G LTE services, and this will be the driver of growth for the wireless business in the future, together with the proposed demerger with Aircel.

Operating Segments

RCOM is India's foremost integrated communications service provider in the private sector with nearly 95 million individual, enterprise, and carrier customers. Our business is organized into two strategic segments – India Operations and Global Operations.

• India Operations

In India, RCOM mainly provides wireless telecom services to the consumer segment. We also provide voice, long distance services and broadband access to enterprise customers. In addition, our business includes managed internet data centers and direct to home business as well. We provide 2G, 3G and 4G services.

• Global Operations

The Global Business Unit offers a comprehensive portfolio of solutions customized for carriers, enterprises and new media companies. The business segments comprise Carrier, Enterprise and Consumer business units. Our undersea cable system, spanning ~67,000 kms and seamlessly integrated with ~190,000 kms of domestic optic fiber backbone, provides a robust Global Service Delivery Platform. We are well equipped to support global businesses through the deployment of next generation Enterprise solutions across our Cloud Delivery ecosystem.

• Performance review

The key financial highlights for the year under review on a consolidated basis are:

- Total revenue of ₹ 19,949 crore (US\$ 3,076 million)
- Total EBITDA of ₹ 5,392 crore (US\$ 832 million)
- Net Loss after tax ₹ 1,283 crore (US\$ 198 million)
- Total assets of ₹ 99,731 crore (US\$ 15,379 million)

Shareholders' equity was ₹ 28,569 crore (US\$ 4,405 million), while net debt (excluding cash and cash equivalents) was ₹ 44,345 crore (US\$ 6,838 million), giving a net debt to equity ratio of 1.55 times.

Strategic Initiatives

Your Company is actively pursuing an asset light strategy with focused execution of various consolidation and asset monetization initiatives. During the year and in the last few months your Company has made progress in execution of these transactions.

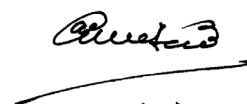

1. Sale of Tower Business: Your Company signed the Definitive Agreements with Brookfield, a leading global infrastructure asset manager with over \$250 billion of assets under management, in December 2016 in relation to the proposed sale of RCOM's nationwide tower assets and related infrastructure. The Shareholders' approvals have been received in the National Company Law Tribunal (NCLT) convened meeting. The Transaction has received the Competition Commission of India's (CCI) approval. The Scheme Petition has been filed with the NCLT.
2. Combination of Wireless Business: The combination of RCOM's wireless business with Aircel will create a strong telecom operator. As part of this transaction your Company's overall debt will reduce by nearly 40% of its total debt. The Definitive Agreements were signed in September, 2016. We have received Stock Exchanges', Securities and Exchange Board of India's (SEBI) and CCI approvals. Shareholders' approvals have also been received in the NCLT convened meeting. The Scheme Petition has been filed with the NCLT.

Letter to Shareowners

3. Merger of wireless business of SSTL : The Merger of SSTL's wireless operations with RCOM marks the 1st consolidation in the Indian Telecom Industry. We are in the final stage of approvals for acquiring SSTL's wireless operations, with Department of Telecommunications' (DoT) approval expected shortly. We will shortly begin the process to integrate SSTL's operations with RCOM with migration of the customers to Reliance 4G services.

Our Commitment

We are confident about the growth outlook of the Indian telecom sector and the opportunities for your Company, despite the high levels of competitive intensity presently being observed in the industry. Our founder, the legendary Shri Dhirubhai H. Ambani, gave us a simple mantra - "to aspire to the highest global standards of quality, efficiency, operational performance and customer care". We remain committed to upholding that vision and creating greater value in the long term for all our stakeholders.

Anil Dhirubhai Ambani

(hereinafter collectively referred to as the "Loans") in terms of the agreements or other documents entered into between the Company and the Lenders in respect of the said Loans, in such manner and on such other terms and conditions, as the Board may, in its absolute discretion, deem appropriate.

RESOLVED FURTHER THAT the authority, and liberty be and is hereby specifically conferred on the Board without being required to seek any further consent or approval of the members or otherwise to the end and intent that they shall be deemed to have given their approval thereto expressly by the authority of this resolution, to finalise and decide, from time to time, the exact number of equity shares that may be issued and allotted to Lenders in full / part conversion of their Loans, in consultation with the Lenders and/or Joint Lenders Forum (hereinafter referred to as the "JLF") as the case may be, in accordance with the SDR Scheme. In the event, any Lender does not convert its outstanding overdue to equity in accordance with the RBI Circulars, the other Lenders shall have the option to increase their conversion amount, subject to maximum of such non-converted amount.

RESOLVED FURTHER THAT the aforesaid shares be issued to the Lenders at a price of ₹ 24.71 per share or such other price as is computed in accordance with the SDR Scheme, with June 2, 2017 being the Reference Date.

RESOLVED FURTHER THAT the new Equity Shares arising out of the proposed issue shall be listed on the Stock Exchanges where the existing Equity Shares of the Company are listed and shall rank pari-passu in all respects with the existing Equity Shares in the Company save and except to dividend that may be declared and paid in relation to the financial year in which the new Equity Shares are issued, which shall rank pro-rata from the respective date(s) of the allotment.

RESOLVED FURTHER THAT for the purpose of giving effect to the above, the Board be and is hereby authorized on behalf of the Company to take all actions including pursuing/implementing the full resolution plan finalized with the Lenders including the JLF and to do all such acts, deeds, matters and things as it may, in its absolute discretion, deem necessary, desirable, incidental or expedient and that the Board be and is hereby authorized to agree, make, accept all such term(s), condition(s), modification(s) and alteration(s) as it may deem fit including condition(s), modification(s) and alteration(s) stipulated in the above resolution or required by any relevant authority or under applicable laws, rules, regulations or guidelines and give such directions and instructions as may be necessary to resolve and settle all questions and difficulties that may arise in relation thereto including issuing clarifications to the concerned statutory, regulatory and other appropriate authorities (including but not limited to Lenders, SEBI, RBI, JLF etc.), and to do all acts, deeds and things in connection therewith and incidental thereto as the Board in its absolute discretion may deem fit, including without limitation, to execute necessary documents and enter into contracts, arrangements, and to authorize all such persons at the absolute discretion of the Board, as may be necessary, in connection therewith and incidental thereto without being required to seek any further consent or approval of the

members or otherwise to the end and intent that they shall be deemed to have given their approval thereto expressly by the authority of this resolution.

RESOLVED FURTHER THAT for the purpose of giving effect to this resolution, and without prejudice to the generality of the foregoing resolutions, the Board be and is hereby authorised to finalise disclosure documents to be filed with the Registrar of Companies in the form and manner as prescribed under the Form PAS - 4 as set out in Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014, as prescribed under Section 42 of Act and the relevant stock exchanges on which the Equity Shares are to be listed and to do all such acts, deeds, matters and things, as it may in its absolute discretion deem necessary, proper or desirable in that regard.

RESOLVED FURTHER THAT the Board be and is hereby authorized to delegate all or any of the powers herein conferred to any Director(s) or Officer(s) or authorized representatives of the Company respectively and to do all such acts, deeds and things as may be required in connection with the aforesaid resolution, including execution of any documents on behalf of the Company and to represent the Company before any governmental, regulatory and other appropriate authorities and to appoint any advisors, consultants for the purpose of implementation of the aforesaid Resolution."

Statement pursuant to Section 102(1) of the Companies Act, 2013 to the accompanying Notice dated August 12, 2017

Item No. 4 Private Placement of Non-Convertible Debentures and/or other Debt Securities.

As per the provisions of Section 42 of the Companies Act, 2013 (the "Act") and its Rules made thereunder, a Company offering or making an invitation to subscribe to redeemable secured / unsecured non-convertible debentures (NCDs) and/or other debt securities on a private placement basis is required to obtain prior approval of the Members by way of a Special Resolution. Such approval can be obtained once a year for all the offers and invitations for such NCDs to be made during the year.

NCDs including subordinated debentures, bonds, and/or other debt securities, etc. issued on a private placement basis constitute a significant source of borrowings for the Company. It is proposed to offer or invite subscriptions for NCDs including subordinated debentures, bonds, and/or other debt securities, etc. on private placement basis, in one or more tranches, within the overall borrowing limits of the Company as approved by the Members with authority to the Board to determine the terms and conditions, including the issue price of the NCDs, interest, repayment, security or otherwise, as it may deem expedient and to do all such acts, deeds, matters and things in connection therewith and incidental thereto as the Board in its absolute discretion deems fit, without being required to seek any further consent or approval of the Members or otherwise to the end and intent that they shall be deemed to have given their approval thereto expressly by the authority of the Resolution. Accordingly, the approval of the members is being sought by way of an enabling Special Resolution under Section 42 and other applicable provisions, if any, of the Act and its rules made thereunder as set out in Item No. 4 appended to this notice.

None of the Directors, Key Managerial Personnel and their relatives are concerned or interested, financially or otherwise, in this resolution, except to the extent of their shareholding in the Company, if any.

The Board accordingly recommends the Special Resolution set out at Item No. 4 of the accompanying Notice for approval of the Members.

Item No. 5 Payment of remuneration to Cost Auditors for the financial year ending March 31, 2018.

The Board of Directors on the recommendation of the Audit Committee has approved the appointment and remuneration of M/s. V. J. Talati & Co., Cost Accountants (Firm Registration No.00213), as the Cost Auditor for audit of the cost accounting records of the Company for the financial year ending March 31, 2018, at a remuneration of ₹ 2.50 lac (Rupees two lac and fifty thousand only) excluding tax and out of pocket expenses, if any. In terms of the provisions of Section 148(3) of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to Cost Auditor needs to be ratified by the Members of the Company.

None of the Directors, Key Managerial Personnel and their relatives are concerned or interested, financially or otherwise, in this resolution, except to the extent of their shareholding in the Company, if any.

The Board accordingly recommends the Ordinary Resolution set out at Item No. 5 of the accompanying Notice for approval of the Members.

Statement pursuant to Section 102(1) of the Companies Act, 2013 to the accompanying Notice dated August 12, 2017

Item No. 6 Increase in Authorised Share Capital and Alteration of Memorandum of Association.

The Company may be required to issue and allot equity shares by converting its outstanding debt, in part or full, to lenders of the Company as per the SDR Scheme in accordance with the guidelines issued by the Reserve Bank of India (RBI). It is therefore deemed appropriate to increase the existing Authorised Share Capital of the Company from ₹ 2,500 crore to ₹ 5,000 crore and for that purpose, the Memorandum of Association of the Company are proposed to be suitably altered by passing Ordinary resolution as set out at Item No. 6, of the accompanying Notice.

The provisions of the Companies Act, 2013 require the Company to seek approval of the Members for increase in the authorised share capital and for alteration of capital clause of the Memorandum of Association of the Company.

A copy of the Memorandum of Association together with the proposed alterations is available for inspection by members on any working days, except Saturdays between 11.00 A.M. and 1.00 P.M. up to the date of the meeting at the registered office of the Company.

None of the Directors, Key Managerial Personnel and their relatives are concerned or interested, financially or otherwise, in this resolution, except to the extent of their shareholding in the Company, if any.

The Board of Directors accordingly recommends the Ordinary Resolution set out at Item No. 6 of the accompanying Notice for approval of the Members.

Item No.7 Adoption of new Articles of Association of the Company.

The Articles of Association (AoA) of the Company as presently in force are based on the Companies Act, 1956 and several Articles in the existing AoA contain references to specific sections of the Companies Act, 1956 and some Articles in the existing AoA are no longer in conformity with the Companies Act, 2013 (Act) and needs alignment with the Act.

Accordingly, it is deemed appropriate that the existing AoA be replaced in its entirety by new set of AoA to give effect to the above.

In terms of provisions of Section 14 and all other applicable provisions of the Act read with the Rules made there under, adoption of new "AoA" requires approval of the Members by way of Special Resolution.

The proposed new set of AoA is being uploaded on the Company's website, www.rcom.co.in for perusal by the shareholders. A copy of the same shall be given to the shareholders upon receipt of a request for the same, in writing, during the notice period and shall also be available for inspection at the Registered Office of the Company during business hours on all working days, excluding Saturdays between 11:00 A.M. and 1:00 P.M. upto the date of the Meeting and copy will be made available for inspection in physical and electronic form at the Registered Office of the Company.

None of the Directors, Key Managerial Personnel and their relatives are concerned or interested, financially or otherwise, in this resolution, except to the extent of their shareholding in the Company, if any.

The Board of Directors accordingly recommends the Special Resolution set out at Item No. 7 of the accompanying Notice for the approval of the Members.

Item No. 8 Approval for issue and allotment of equity shares to lenders by way of conversion of loans in terms of Strategic Debt Restructuring Scheme.

The Company has availed Loans from the Lenders, in terms of the respective financing documents entered into between, inter alia, the Company and the respective Lenders. The aggregate amount of outstanding Loans of the Company (standalone) as on June 1, 2017 was ₹ 34,844 crore.

The Telecom Sector in India has attractive long term potential, with India having the second largest number of mobile cellular subscriptions in the world. The growth phase is expected to be sustained in future, especially with new opportunities in data and broadband services, and initiatives of the Government of India like 'Digital India' and setting up of 'Smart Cities.' Unfortunately, in the short and medium term, the telecom sector continues to face challenges, owing to the very high degree of competition; the significantly increased cost of acquiring spectrum through auctions; the higher costs of network expansion in rural areas; regulatory uncertainties etc. The intense competition has led to declining ARPU (Average Revenue Per User), and ARPM (Average Revenue Per Minute), resulting in very muted growth in overall revenues, stagnant margins and inadequate free cash flows of the Company which lead to default on some of debt servicing obligations of the Company.

The Company is in process of expeditiously closing the already announced Strategic Transactions for demerger of Company's wireless business to Aircel Limited and demerger of tower business of the Reliance Infratel Limited, a subsidiary of the Company, to Brookfield Infrastructure Group, which will drastically reduce the debt of the Company up to ₹ 25,000 crore. The Company is committed to use entire proceeds up to ₹ 25,000 crore to be received from both these monetization projects only for reduction of the existing debt and make substantial prepayments to Lenders ahead of the normal scheduled repayment dates of the existing loans to the mutual benefit. The Board of Directors of the Company on June 1, 2017, has approved in principle conversion of Debt into equity share capital pursuant to the Strategic Debt Restructuring Scheme ("SDR Scheme").

The lenders at their meeting held on June 2, 2017 constituted Joint Lenders Forum ("JLF") with State Bank of India as lead bank and invoked the SDR Scheme in accordance with the guidelines issued by the RBI.

In accordance with the provisions of SDR Scheme, the Lenders have a right to convert whole or part of their debt into equity share of the Company so as to collectively acquire 51% (i.e; 2,590,570,755 Equity Shares) or more of the equity share capital of the Company.

The successful implementation of SDR Scheme is considered to be beneficial to the Company, its lenders and minority shareholders and will enable the Company to meet its debt servicing obligations towards the Lenders. Accordingly, In terms of the SDR Scheme, it is proposed to issue and allot Equity Shares of face value of ₹ 5/- representing 51% or such other or higher number of the fully diluted equity share capital of the Company, to the Lenders by conversion of outstanding Loans (including all amounts of overdue and outstanding principal amounts,

Reliance Communications Limited

Statement pursuant to Section 102(1) of the Companies Act, 2013 to the accompanying Notice dated August 12, 2017

overdue and current interests of all nature, and all other fees, charges, expenses and all other dues and amounts payable by the Company to the Lenders. The resolution set out at Item No. 8 is an enabling resolution with flexibility and power to the Board to issue and allot such other or higher number of equity shares by conversion of Loans if and as may be determined by Lenders and/or JLF in accordance with the SDR Scheme.

In terms of the SDR Scheme, the price of the equity shares to be allotted to the Lenders on conversion of their Loan is required to be calculated on the basis of a fair value which will not exceed the lowest of the following, subject to floor price of the face value of shares:

- (i) Market value: Average of the closing prices of the equity shares on National Stock Exchange of India Limited and BSE Limited during the ten trading days preceding the Reference Date (being June 2, 2017), which works out to ₹ 24.71 and ₹ 24.73 per Equity Share respectively;
- (ii) Break-up value: Book value per share to be calculated from the Company's latest audited balance sheet (without considering 'revaluation reserves', if any) adjusted for cash flows and financials post the earlier restructuring, which works out to ₹ 97 per Equity Share as per the audited Balance Sheet of the Company as at March 31, 2017.

In terms of the SDR Scheme the 'Reference Date' fixed by JLF is June 2, 2017. The price of equity shares to be issued to Lenders upon conversion of Loans thus works out to be ₹ 24.71. The said price has been certified by two independent qualified valuers. The said price shall be subject to any change as may be required in compliance with the SDR Scheme and/or other provisions of law.

The equity shares allotted to Lenders by conversion of Loans as envisaged in terms of the Resolution set out at Item No. 8 shall be subject to lock-in for a period of one year from the date of receipt of trading approval.

In terms of SEBI Notification No. SEBI - NRO/OIAE/GN/2015-16/003 dated May 5, 2015, the provisions of Chapter VII of SEBI ICDR Regulations are not applicable to any allotments to be made to banks and financial institutions pursuant to SDR Scheme, subject to the fulfilment of following conditions:

- a) The conversion price shall be determined in accordance with the guidelines issued by the RBI for SDR Scheme, which shall not be less than the face value of the equity shares;
- b) The conversion price shall be certified by two independent qualified valuers;
- c) Equity shares so allotted shall be locked-in for a period of one year from the date of trading approval, only if, and to the extent, mandatory as per the provisions of applicable laws as on the date of issue and allotment of the Equity shares;
- d) Applicable provisions of the Companies Act, 2013 are complied with.

The preferential issue of shares as envisaged by special resolution set out at Item No. 8 shall conform to the above conditions and accordingly the provisions of Chapter VII of SEBI ICDR Regulations are not applicable. Further, in terms of SEBI (Substantial Acquisition of Shares and Takeovers) Regulations,

2011, acquisition of shares by the Lenders pursuant to conversion of their debt as part of the SDR Scheme is exempted from the obligation of making an open offer. The Equity Shares allotted or arising out of issuance and allotment of Equity Shares on conversion of loan would be listed on the National Stock Exchange of India Limited and BSE Limited. The issue and allotment would be subject to the availability of such approvals including any other regulatory approvals, if any. As and when the Board / Committee does take a decision on matters on which it has the discretion, necessary disclosures will be made to the Stock Exchanges as may be required under the provisions of the LODR Regulations.

The proposed issue/allotment of shares by conversion of Loan shall be made to all or any of the following Lenders of the Company:

Reliance Communications Limited

Statement pursuant to Section 102(1) of the Companies Act, 2013 to the accompanying Notice dated August 12, 2017

In terms of SDR Scheme, any other Lender of the Company may also join JLF and opt for SDR Scheme. In such case equity shares of the Company may also be issued/allotted to additional Lenders in compliance with the SDR Scheme. The shareholding pattern of the Company before the preferential issue is provided below:

S. No.	Category	Shareholding Pattern prior to the preferential issue	
		Number of shares held	% of shareholding
A.	Promoters' holding:		
1.	Indian:		
	Individual	98,45,709	0.40

Please note that the post-issue shareholding pattern of the Company cannot be currently ascertained due to the non finalisation of the quantum of the Equity Shares to be issued in favour of the Lenders under the SDR Scheme.

In terms of SDR Scheme and pursuant to the provisions of Sections 42 and 62 of the Act read with Rules made thereunder, conversion of Debt into Equity pursuant to SDR needs to be approved by the Shareholders.

None of the Directors, Key Managerial Personnel and their relatives are concerned or interested, financially or otherwise, in this resolution, except to the extent of their shareholding in the Company, if any.

The Board of Directors accordingly recommends the Special Resolution set out at Item No. 8 of the Notice for the approval of the members.

Dividend Distribution Policy

1. Introduction

The Board of Directors (the "Board") of Reliance Communications Limited (the "Company") at its meeting held on May 27, 2017, has adopted this Dividend Distribution Policy (the "Policy") in accordance with the Companies Act, 2013 (the Act") and Regulation 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the "Listing Regulations").

2. Objective

The Objective of this Policy is to establish the parameters to be considered by the Board of Directors of the Company before declaring or recommending dividend.

3. Circumstances under which the shareholders may or may not expect dividend

The shareholders of the Company may not expect dividend in the below mentioned circumstances:

- i. In the event of a growth opportunity where the Company may be required to allocate a significant amount of capital.
- ii. In the event of higher working capital requirement for business operations or otherwise.
- iii. In the event of inadequacy of cashflow available for distribution.
- iv. In the event of inadequacy or absence of profits.
- v. In the event of any regulation or contractual restriction.

The Board may consider not declaring dividend or may recommend a lower payout for a given financial year, after analysing the prospective opportunities and threats or in the event of challenging circumstances such as regulatory and financial environment.

4. Parameters to be considered before recommending dividend

Dividends will generally be recommended by the Board once a year, after the announcement of the full year results and before the Annual General Meeting (AGM) of the shareholders, as may be permitted under the Companies Act, 2013. The Board may also declare interim dividends as may be permitted under the Companies Act, 2013. The Company has had a consistent dividend policy that balances the objective of appropriately rewarding shareholders through dividends and to support the future growth of the Company.

The decision regarding dividend pay-out is a crucial decision as it determines the amount of profit to be distributed among shareholders and amount of profit to be retained in business. The Dividend pay-out decision of any company depends upon certain external and internal factors:

4.1 External Factors

State of Economy: In case of uncertain or recessionary economic and business conditions, Board will endeavor to retain larger part of profits to build up reserves to absorb future shocks.

4.2 Internal Factors

Apart from the various external factors aforementioned, the Board will take into account various internal factors while declaring Dividend, which, inter alia will include:

- Income / Profits earned during the year;
- Present & future capital requirements of the existing businesses;
- Brand/ Business Acquisitions;
- Expansion/ Modernization of existing businesses;
- Additional investments in subsidiaries/ Joint Ventures/ associates of the Company;
- Fresh investments into external businesses;
- Repayment of Loans

Any other factor as deemed fit by the Board.

5. Utilisation of retained earnings

The Company shall endeavour to utilise the retained earnings in following manner:

- For expansion and growth of business;
- Additional investments in existing businesses;
- Declaration of Dividend;
- General Corporate purpose; and
- Any other specific purpose as may be approved by the Board.

6. Parameters that shall be adopted with regard to various classes of shares

The Company has issued only one class of shares viz. Equity shares. Parameters for dividend payments in respect of any other class of shares will be as per the respective terms of issue and in accordance with the applicable regulations and will be determined, if and when the Company decides to issue other classes of share.

7. Review

This Policy will be reviewed periodically by the Board.

8. Limitation and amendment

In the event of any conflict between the Act or the Listing Regulations and the provisions of the policy, the Listing Regulations shall prevail over this policy. Any subsequent amendment / modification in the Listing Regulations, in this regard, shall automatically apply to this policy.

Macroeconomic Overview

Indian Economic Environment

As per the Central Statistics Organization (CSO) second advance estimates, the Indian economy grew by 7.1 per cent in 2016-17. After two consecutive years of poor monsoon, 2016-17 was the first year when the country witnessed normal monsoon which provided much needed support to the rural economy. India's macro fundamentals continued to improve in 2016-17 led by strong pace of reforms such as passage of GST Bill, corporate insolvency resolution via Bankruptcy Code, financial inclusion via Aadhaar card and various measures to curb black money. Inflation continued with its downtrend, with CPI averaging 4.5 per cent in 2016-17 versus 4.9 per cent in 2015-16. Central government fiscal deficit too improved from 3.9 per cent of Gross Domestic Product (GDP) in 2015-16 to 3.5 per cent of GDP in 2016-17. The revenue deficit also declined from 2.5 per cent in 2015-16 to 2 per cent in 2016-17. Benign inflationary pressures meant that the RBI was able to deliver another 25 basis points of repo rate cut in 2016-17 after a cumulative 125 basis points rate cut in 2015-16. Further, in order to facilitate transmission of policy rate cuts, the RBI decided to progressively

migrate the banking system liquidity target from a deficit of 1 per cent of NDTL to a position closer to neutrality. Government's policy reforms continued to improve the business environment in the economy with India jumping 16 ranks to settle at the 39th spot (out of 138 countries) on the global competitiveness index prepared by the World Economic Forum in 2016. This was the second year in a row that India jumped 16 spots. In the year 2015-16, India was ranked at the 55th place.

GDP Growth

As per second advance estimates, India's GDP growth slowed down slightly in 2016-17 to 7.1 per cent from 7.9 per cent in 2015-16. This slowdown was primarily due to the impact of demonetisation which led to temporary disruption in cash transactions. On the back of a normal monsoon, the agriculture sector registered a strong growth of 4.4 per cent in 2016-17 versus 0.8 per cent in 2015-16. Mining grew by 1.3 per cent, down from 12 per cent in the previous year while manufacturing grew by 7.7 per cent (down from 10.5 per cent in the previous year) and electricity grew by 6.6 per cent (up from 5.1 per cent in the previous year). The construction sector showed some improvement, growing by 3.1 per cent in 2016-17 versus 2.7 per cent in 2015-16. However, the biggest drag came from the service sector where growth rate fell to 7.9 per cent in 2016-17 from 9.8 per cent in the previous year. The drag was primarily due to the note ban as large sections of the service sector are unorganized and highly dependent on cash transactions. Going forward, a normal monsoon, normalization of short-term disruption caused from demonetisation as well as a pick-up in exports should be supportive of growth in 2017-18.

Industrial Production

During April-February 2017, the Index of Industrial Production (IIP) grew by 0.45 per cent compared with a growth of 2.6 per cent in the same period last year. Manufacturing declined by 0.3 per cent, mining rose by 1.6 per cent and electricity rose by 0.4 per cent. The deceleration in manufacturing can be primarily attributed to two main reasons viz. weakness in capital goods index which tends to be volatile and, temporary disruption due to demonetisation. The government has been focused on increasing public capital spending both through the budget and by off-budget means (SOE-led capex). However, the trend in private capex has been subdued and has been a key drag on the overall growth trajectory. On the positive side, FDI has remained quite strong with India receiving US\$35.8 billion of net FDI inflows in 2016-17.

Inflation and Interest Rate

The Consumer Price Index (CPI) inflation averaged 4.5 per cent in 2016-17 from 4.9 per cent in 2015-16. Decline in food inflation on the back of a good monsoon helped to ease inflationary pressures in the economy. The Wholesale Price Index (WPI) inflation came out of deflation territory to average 3.7 per cent in 2016-17 versus -2.5 per cent in 2015-16. The year 2016 marked an inflexion point in global commodities with prices of many commodities rebounding due to a combination of Chinese fiscal stimulus, supply cuts as well as some recovery in global growth. However, overall inflationary pressures in the economy continued to remain benign. As a result, the RBI was able to cut its policy rate by another 25 basis points in 2016-17 versus 125 basis points in 2015-16.

Management Discussion and Analysis

Current Account Deficit (CAD)

India's current account deficit (CAD) fell to \$11 billion (0.7 per cent of GDP) in April–December, 2016, compared with \$21 billion (1.4 per cent of GDP) a year ago on substantial decline in merchandise trade deficit even as services trade surplus shrank. Healthy foreign direct investments into the financial account were adequate to cover CAD which helped in the accrual of foreign exchange reserves. India's export growth has turned positive since September 2016 after declining between December 2014 and August 2016, making this the longest period of contraction since the global credit crisis. However, with expectation of global growth to accelerate in 2017, the ongoing export recovery should be well supported.

Global Telecom Trends

There are a few significant trends in the global telecom industry which provide a good perspective for the emerging direction of the Indian telecom industry. (Source: GSMA – The Mobile Economy 2017)

On a global basis, the telecommunications industry is witnessing a fundamental shift from being voice dominant services to innovative data services through accelerated penetration of smartphones. This mobile traffic is driven by –

1. Rollout and availability of high speed 4G networks;
2. The proliferation of affordable smartphones; and
3. Consumers' adoption of cloud based services.

LTE now reaches 60% of the population as operators continue to invest in network rollouts

As of end-2016, 580 LTE networks had been deployed in 188 countries. The developing world accounted for three quarters of the new network launches in 2016 and now represents just under half of total LTE networks, up from one quarter in 2012. 4G networks reached almost 60% of the world's population in 2016, up from 50% in 2015 and 11% in 2012.

In the developing world, half of the population is covered by 4G; this is expected to increase to almost 70% by 2020. In contrast, 4G coverage levels in the developed world, at 93% of the population, are only expected to improve by two percentage points to 95% by 2020.

4G uptake driving surge in mobile broadband adoption; 5G launch closer to reality

The generational shift to mobile broadband networks and smartphones continues to gain momentum. Mobile broadband connections (3G and 4G technologies) accounted for 55% of total connections in 2016 – a figure that will be close to three quarters of the connections base by 2020. The proportion of 4G connections alone is forecasted to almost double from 23% to 41% by the end of the decade.

5G will see a major shift in how cellular networks are designed. 5G capabilities will usher the world into a highly connected environment with Internet of Things ("IoT") connectivity to billions of devices and equipment. 5G networks are forecast to cover around a third of the global population by 2025, with adoption reaching 1.1 billion connections.

Subscriber growth pivoting to Asia

By the end of 2016, two thirds of the world's population had a mobile subscription – a total of 4.8 billion unique subscribers. There is a clear geographic shift underway, with Asia Pacific set to account for two thirds of the 860 million new subscribers expected globally by the end of the decade. India, already the world's second largest mobile market, will be the primary driver of this growth, with 310 million new unique subscribers. By 2020, almost three quarters of the world's population – or 5.7 billion people – will subscribe to mobile services. Regional penetration rates are forecast to range from 50% in Sub-Saharan Africa to 87% in Europe.

Smartphone growth led by Asian markets as affordability improves

There were 3.8 billion smartphone connections at the end of 2016. Adoption rates have reached 65% of the connected base in developed markets. As with subscriber growth, developing markets and particularly Asia are driving the current phase of smartphone growth. In developing markets smartphone connections reached 47% of the total base at the end of 2016 and are forecast to reach 62% by 2020.

Overall, Asia Pacific will account for half of the 1.9 billion new smartphone connections forecast globally by 2020. India overtook the US to become the second largest smartphone market in 2016, with 347 million smartphone connections. India will account for just under one fifth of new smartphone connections globally in the four years to 2020 and its smartphone base will double to 686 million over the period. Affordability is becoming less of a barrier to smartphone adoption as incomes rise and there is continued growth in sub-\$100 devices.

Mobile driving innovation and growth

The shift of consumer engagement to mobile is now manifesting itself in the rapid growth of messaging platforms. WhatsApp was the first messaging platform to reach 1 billion users, subsequently followed by Facebook Messenger.

However, the use of digital platforms now extends beyond mobile messaging to embrace a broad range of consumer sectors where companies are reinventing their business models to offer new and innovative services. The growth of the sharing economy is now seeing a global impact, with prominent successes including Uber and Airbnb. India also has its homegrown versions viz. Ola and Oyo. All of these companies gain enormous power and revenues through network effects i.e. more users the platform attracts, the more is the potential for customers, which in turn attracts a greater number of merchants and partners. High levels of smartphone ownership, have enabled the emergence of scalable, on-demand services that are affordable and accessible anywhere.

Platforms are now spreading further with the growing adoption of cloud computing; a range of industrial companies are putting analytics and automation into cloud-based services. These services and real-time analytics would be key components in realising the potential of the industrial Internet of Things.

The near ubiquity of smartphones, high-speed connectivity and the on-demand accessibility of cloud computing are driving new areas of innovation, particularly in the field of artificial intelligence (AI). The growing utility of AI and in particular natural language

Reliance Communications Limited

Management Discussion and Analysis

processing allowing technology to understand humans is opening the door to a paradigm shift in the user interface. One use case for AI has been with virtual agents (such as Apple's Siri) and chatbots. Chatbots can respond to people in their native language, either verbally or in text, and can interact with both humans and other machines. The AI component allows chatbots to respond to more complex situations and continuously 'learn' so as to improve their effectiveness over time.

Indian Telecom Industry

Industry statistics (Source – TRAI)

- The total number of telephone subscribers (Wireless and Wireline) in India increased to 1,195 million at the end of March 2017 as against 1,059 million as at March 2016.
- Wireless subscribers accounted for 98% of the overall telecom subscriber base and crossed the billion subscriber mark in the year. There were 1,170 million wireless subscribers in March 2017 as compared to 1,034 million in March 2016.
- The wireless tele-density improved to 91% in March 2017 against 81% as at March 2016. However, wireless tele-density in rural areas continues to remain low at 56%.
- Private sector players continue to maintain the bulk of the market share and accounted for 91% of the wireless connections as of March 2017.
- The internet subscriber base has shown very strong growth and at the end of March 2017 the total internet subscriber base was at 422 million against 343 million in March 2016. Wireless internet continues to remain the preferred medium of access and accounts for nearly 95% of the subscriber base.

Operational and Financial Stress in the Indian Telecom Sector

Indian telecom sector has always been overburdened due to the high cost of spectrum, intensive competition on account of too many telecom players vying for market share in various circles and globally one of the lowest ARPU. India has one of the lowest tariffs in telecom globally but ironically also has very high capex costs leading to sector accumulating very high amount of debt.

With the free offers launched by various operators in Sept 2016, the financial dynamics of the sector has nosedived. Long duration free promotional offers triggered a very stiff competition in the stressed sector whereby the telecom operators significantly reduced the already low tariffs, abolished roaming rates and resorted to various other techniques to protect their subscriber and revenue market share being churned out. Currently, after a few quarters of free/highly discounted offerings in the sector, data prices have plummeted from about ₹ 250-300 per GB to around ₹ 50 per GB or lower, depending on the tariff plans.

The gross revenue of the industry declined by 7% quarter-on-quarter in Q3 2017 and again by another 5% quarter-on-quarter in Q4 2017, marking an annual fall in revenue for the first time in last 20 years. Government revenues from the sector are getting adversely impacted; provisional License fee collections for 4Q FY17 stood at ₹ 2,300 crore, down from ₹ 3,165 crore in the previous quarter and Spectrum usage charge collections fell to ₹ 1,416 crore from ₹ 1,553 crore during the same period.

This hyper competitive situation has further stressed the balance sheets of the telecom players. Annual cash flows of the sector were highly inadequate for servicing of its annual AGR related DoT payments/interest/capex/debt repayments obligations. The sector generated far lower cash flow (EBITDA) than the combined yearly obligation of Spectrum usage charges (SUC), License Fee (LF), interest obligations on the deferred spectrum liabilities, and interest payable on financial borrowings.

Currently the overall liabilities in the telecom sector are estimated to be around ₹ 7.5 lakh crore including the deferred spectrum liabilities. The Reserve Bank of India (RBI), specifically red-flagged the telecom industry and had asked bank boards to review their exposure to the sector by June 30, 2017 and consider making provisions at higher rates. It would impact debt financing of capex and refinancing of existing debt as Indian banks and financial institutions have been limiting exposure to the sector.

Telecom players have put forth these woes to the Telecom Ministry and have requested urgent intervention by the Government to improve the health of the sector. Some of the key recommendations by the industry as well as TRAI to the government include amendments in the methodology for calculation of Adjusted Gross Revenue for levying LF and SUC and reduction in the levels of LF and SUC; increased duration and lower installments for payment of deferred spectrum fees and allowing spectrum as collateral for lenders' security. To address the issues by a remedial policy framework, an inter-ministerial group was set up by the GoI to look into the financial woes of the telecom sector and submit its views and solutions.

Industry Trends

• Significant consolidation in the industry

For the Indian telecom sector this has been the year of consolidation. RCOM announced the first consolidation in the Indian telecom sector and is now in the final stages of regulatory approval for the acquisition of the Indian wireless business of Sistema Shyam Teleservices Ltd. (SSTL). This was followed by the announcement of the combination of its wireless business with Aircel.

Elsewhere in the industry Airtel bought Videocon and Tikona's unutilised spectrum and is in the process of acquiring Telenor India; while Vodafone and Idea have announced a merger.

All these combinations are expected to drive synergies, reduce cost overlap and strengthen balance-sheets of the telecom operators. This is expected to improve the overall health of the industry.

- The Year of 4G – Cheaper Data, Explosion in Data Consumption, Data Driven Pricing and Unlimited Voice Plans.

This has been the year of 4G rollouts in India. RCOM has also launched 4G services for its customers through its strategic partnership with Reliance Jio.

With a severe competition in the market with pricing strategy, the industry has moved significantly into a data driven pricing model with unlimited voice bundled in. Accordingly, Revenue per Minute (RPM) and Revenue

Management Discussion and Analysis

per Megabyte (RMB) have lost relevance as performance indicators; Average Revenue per User (ARPU) is now the key measure of performance along with Subscriber Base count.

Data prices have also come down significantly consequent to the disruptive offers- benchmark prices for data has come down drastically from the earlier ₹ 250 per Gigabyte (GB) and is expected to settle down at around ₹ 50 per GB in the medium term. Driven by this new affordability, data consumption – both number of data users and data consumption per data user – have gone up significantly.

The data consumption boom has been driven significantly by personal consumption of video content by consumers. The smartphone ecosystem has also been supportive – all new smartphone launches in India today are 4G-LTE enabled.

• Falling Revenues Are a Concern

Unfortunately this explosive growth in mobile data consumption has not contributed to revenue growth. In fact, industry revenue has significantly declined in recent months.

This was primarily due to promotional tariffs of free voice and data services launched in the sector which forced incumbent operators to sharply lower voice and data prices to retain their users.

If we use the impact of license fee paid to the government as a surrogate for impact on industry revenue, the magnitude of the fall for January-March 2017 is 30 percent over the previous quarter October-December 2016 and this was the second successive quarterly decline.

The current prices are unsustainable and unless corrected soon, the investment and debt repayment capacity of the industry will be affected. This could also impact the government's ambitious Digital India initiatives since enhanced telecom connectivity is the platform on which all such digital services will ride on.

• Regulatory Regime

In recent times the government and the regulatory authorities have repeatedly indicated that they are sensitive to the pain the industry is currently going through.

There have been assurances extended by the ministry and the regulators of their commitment to improve the "ease of doing business". One such encouraging initiative is the announcement of the "Common Duct Policy" which seeks to provide a time and cost effective model to telecom companies to lay fibres and cables in cities – such communication infrastructure will be shared by telecom service providers, while the owner of infrastructure (local government) will earn revenue.

We are encouraged by the recent statements of the Telecom Regulatory Authority of India (TRAI) which state that "Our overarching principle is to regulate the sector to ensure consumer protection, quality of service, transparency, growth of the sector and a level playing field for stakeholders."

Outlook

Increase in internet subscribers to boost data revenue

The number of mobile Internet users in the country at the end of March 2017 was at 401 million (34% of total mobile subscriber base). It is expected to continue increasing at a faster pace with affordable handsets and cheap tariffs. The growth in user base is faster in rural parts of the country as the addition is propelled by falling data charges and smartphones becoming more affordable. Urban users mostly consume communication, social networking and entertainment on mobile Internet; while in rural India, entertainment rules the roost. Going forward ARPU will be the key KPI for telecom companies as bundled offers (voice and data bundled together) would become prevalent.

The younger consumers in urban India are spending a greater proportion of their monthly bill on data usage, while voice component increases steadily with age – the average monthly bill is highest for the age group of 45 years and both mobile data and voice expenditures for this age group are the highest. Thus, while in terms of uptake, the younger generation is driving the growth of telecom services in urban India; senior generations provide higher average revenue per user (ARPU) for telecom companies. While we are seeing a competitive "more for less" offering by all players in the industry, including your Company, we see ARPUs improving in the medium to long term.

Industry friendly regulation by the government will help the sector to grow faster

Government policy and the telecom regulatory authorities will continue to play a key role in the industry's journey into the future. Industry players expect that policy makers would take requisite steps immediately to infuse financial and operational vigour in the sector.

Regulatory Developments

1. Auction of Spectrum in 700 / 800 / 900 / 1800 / 2100 / 2300 / 2500 MHz bands

- In October, 2016 DoT conducted Auction of Spectrum in 700 / 800 / 900 / 1800 / 2100 / 2300 / 2500 MHz bands. A total of Seven Operators applied for bidding in the Auction.
- Approximately 3790 MHz (unpaired) of spectrum was put for Auction. No bids were put for spectrum in 700 MHz and 900 MHz bands. Approximately 1240 MHz (unpaired) of spectrum was sold in the balance of the spectrum bands.
- RCOM acquired 5 MHz (paired) Spectrum in 1800 MHz band in Jammu & Kashmir service area.

2. Spectrum Cap

On September 26, 2016, DoT issued amendment to the UASL / UL license for prescribing guidelines for spectrum caps. Salient aspects of the same are as follows:

- Existing Spectrum Cap of 25% of total spectrum assigned and 50% within a given band in each LSA has been retained.
- Spectrum shall be considered for determining spectrum caps post it being put to auction.

Reliance Communications Limited

Management Discussion and Analysis

- c. All spectrum put in auction or surrendered by a TSP or taken back by DoT shall be considered for determining Spectrum caps.
 - d. TSP will not be asked to surrender spectrum if cap is reduced due to any reason.
- 3. Spectrum Sharing**

RCOM and RTL intimated DoT regarding their sharing of spectrum with Reliance Jio Infocomm Limited in 21 service areas (except J&K) which was taken on record by WPC / DoT.
- 4. Spectrum Trading**

RCOM intimated DoT regarding trading of its spectrum in 800 MHz band in 13 service areas which was taken on record by the DoT w.e.f. May 17, 2016 (9 LSAs) and July 6, 2016 (4 LSAs).
- 5. Spectrum Liberalization – 900 MHz band**

On November 5, 2015, DoT issued Guidelines for Liberalization of Administratively allotted Spectrum in 800 MHz and 1800 MHz frequency bands. Subsequently, on September 6, 2016, DoT issued amendment for including 900 MHz band also in these guidelines with similar terms and conditions.
- 6. Levy of Spectrum Usage Charge (SUC)**
 - a. On August 12, 2016, DoT issued orders revising Spectrum Usage Charges (SUC) for the spectrum held by the Operators in 700 MHz, 800 MHz, 900 MHz, 1800 MHz, 2100 MHz, 2300 MHz and 2500 MHz bands. Accordingly,
 - i. SUC for Spectrum acquired in auction of October 2016 is to be charged at the rate of 3% of Adjusted Gross Revenue (AGR) excluding the revenue from wire-line services.
 - ii. The weighted average of SUC rates across all spectrum assigned to an operator shall be applied subject to a minimum of 3% of AGR excluding revenues from wire-line services.
 - b. On August 26, 2016, DoT issued amendment for removing the requirement of reporting the revenue from 2300 MHz band independently / separately.
- 7. Wireless Operating License (WOL)**

On November 2, 2016, DoT and WPC issued amendment to UASL, CMTS and UL (AS) dispensing off with the requirement of obtaining Wireless Operating License (WoL).
- 8. Harmonization of Spectrum**
 - a. Post the completion of harmonization exercise, for the 1800 MHz and 800 MHz bands, revised allocation letters were issued to operators in April 2016 and August 2016 prescribing the timelines for shifting to the revised frequencies.
 - b. The exercise was repeated post the auction of 800 MHz, 1800 MHz, 2100 MHz, 2300 MHz and 2500 MHz bands in October 2016.
- 9. Allotment of Residual Spectrum in 1800 MHz band**
 - a. On September 30, 2016, DoT / WPC issued an Office Memorandum for allotment of Residual spectrum to the TSPs who had acquired 1.25 MHz, 2.5 MHz and 6.25 MHz in 1800 MHz band in the auction held in November 2012.
 - b. Spectrum ranging from 0.05 MHz to 0.15 MHz will be assigned, to the interested TSPs, prorated for balance validity at the latest auction determined price (SBI PLR to apply for rates beyond 1 yr) available at the time when the TSP wants to acquire this spectrum.
- 10. Allotment of Partially allotted spectrum in 1800 MHz band in balance of Service Area**

On September 30, 2016, DoT / WPC issued guidelines for allotment of partially allotted administrative frequency spots in 1800 MHz band in remaining LSA at market determined price.
- 11. Introduction of Virtual Network Operator (VNO)**
 - a. On May 31, 2016, DoT issued Guidelines for Grant of Unified License (Virtual Network Operators) [UL(VNO)]. UL (VNO) contains authorizations for services & service areas similar to those provided in the existing UL. The duration of UL(VNO) is 10 years from first authorization and a restriction of 10% or more equity cross holding has been made applicable between (a) VNO and another NSO (other than VNO's parent NSO) and (b) VNO and another VNO in the same service area. However, there is no restriction on number of VNOs that can be parented by a NSO as well as the number of VNOs in a LSA. Nor are there any restrictions on number of NSOs parenting the VNOs for all services except access services / services which need numbering & unique identity of the customers. Though VNOs are permitted to set up their own network but they are prohibited from establishing independent interconnections with other networks as well as they cannot hold any spectrum.
 - b. On July 5, 2016, DoT also issued guidelines for obtaining UL (VNO) for Access Services (Category B) authorization, with geographical area upto a District of a State / UT. The existing DID franchisees of TSPs have been asked to migrate to this licensing category. Despite this, on March 20, 2017, TRAI has initiated a consultation process for "Introduction of UL (VNO) for Access Service Authorization for category B license with districts of a state as a service area." The consultation process has been completed and TRAI's recommendations are awaited.
- 12. Indian Telegraph Right-of-Way (RoW) Rules, 2016**
 - a. DoT, vide Gazette Notification dated November 16, 2016, issued Indian Telegraph Right of Way (RoW) Rules, 2016 to regulate underground infrastructure (optical fibre) and over-ground infrastructure (mobile towers).
 - b. DoT and the Industry have requested State Governments to align their Telecommunication Infrastructure Policies with these RoW Rules, 2016.

Management Discussion and Analysis

13. Review of National Frequency Allocation Plan

DoT / WPC have initiated the exercise to review NFAP – 2011, which was based on the policies of World Radio Communication Conference (WRC-2007) of the ITU, to align it with the decisions taken in WRC – 2015.

14. Interconnection over IP Interface

On April 19, 2016, DoT issued amendment to Clause 26.1 of UASL to facilitate interconnection at IP level.

15. M2M Services

- a. In May 2016, DoT formulated the draft guidelines for registration of M2M service providers. The same were discussed with the industry representatives in August 2016.
- b. On October 18, 2016, TRAI too initiated its consultation process on "Spectrum, Roaming and QoS related requirements in Machine-to-Machine (M2M) Communications." The recommendations for the same are awaited.

16. e-KYC based Activations of Mobile Subscribers

- a. On August 16, 2016, DoT issued instructions for issuing individual mobile connections using Aadhaar based e-KYC of the consumers. Subsequently, DoT issued guidelines for issuing Outstation mobile connections also using Aadhaar based e-KYC.
- b. Guidelines for Bulk customers and Audit of CAFs of subscribers acquired through e-KYC, are yet to be issued by the DoT.

17. e-KYC based Re-verification of existing Postpaid & Prepaid mobile subscribers

On March 23, 2017, pursuant to Hon'ble SC order dated February 6, 2017, DoT has issued instructions for e-KYC based re-verification of all existing postpaid and prepaid mobile subscribers by February 6, 2018.

18. Direct Carrier Billing (DCB)

On March 23, 2017, DoT issued clarifications for use of Direct Carrier Billing permitting subscribers to download and make payment for digital contents through their mobile phones from their pre-paid mobile account balance or post-paid bill payment methodology with a maximum value not exceeding ₹ 20,000/- each time.

19. Launch of New Products and Services

On September 14, 2016, DoT issued an amendment wherein the licensee is now required to only intimate the Licensor prior to launching any new Service. Requisite approvals such as demonstration of monitoring facilities etc. can be obtained subsequently within 90 days of launch of service. Since the similar provisions were also present in UL license as well, amendment to UL license was also issued by the DoT on August 3, 2016.

20. TRAI analytics Portal, TRAI "Mycall" App and "Myspeed" App

TRAI has launched 'TRAI Analytics Portal' (www.analytics.trai.gov.in) and TRAI 'Mycall' App and 'Myspeed' mobile

app. These are to facilitate users to measure their data download and upload speeds and submit the results to this Portal and rate their experience about their voice quality in real-time.

21. TRAI's 'DND Services' mobile App for reporting of Unsolicited Commercial Communication (UCC)

To facilitate filing and monitoring of complaints against UCC, TRAI has launched the 'DND Services' mobile App.

22. USSD Based Mobile Banking Services

On November 22, 2016, TRAI issued the following amendments for promoting USSD based mobile banking services.

- a. 61st Amendment to its TTO decreasing the ceiling tariff for USSD based mobile banking and payment services from ₹ 1.50 to ₹ 0.50 per USSD session.
- b. 2nd Amendment to its Mobile Banking (QoS) Regulation for subscribers having feature phone.

23. Telecom Consumer Protection Regulation (TCPR)

On August 19, 2016, TRAI issued 10th Amendment to TCPR permitting longer validity for data packs i.e. STVs with only data benefits to 365 days instead of the existing 90 days.

24. TRAI Recommendations

- a. Free Data: On December 19, 2016, TRAI issued its recommendations for "Encouraging Data usage in Rural Areas through Provisioning of Free Data". Decision of the DoT is awaited on these recommendations.
- b. Reporting System on Accounting Separation Regulation (ASR): On June 10, 2016, TRAI notified 'The Reporting System on Accounting Separation Regulations, 2016' whereby, separate reporting for Tower Business service, Dark Fiber service and Cable Landing Station service has been done away and are now captured under other specified telecom services. DoT's guidelines on the same are still awaited.
- c. Proliferation of Broadband through Public Wi-Fi Networks: On March 9, 2017, TRAI submitted its recommendations to DoT on "Proliferation of Broadband through Public Wi-Fi Networks" with the objective of setting up of WiFi hot spots similar to the STD / ISD booths. DoT's guidelines on the same are still awaited.
- d. In-Building Access by Service Providers: On January 20, 2017 TRAI submitted its recommendations on "In-Building Access by Telecom Service Providers" to DoT. TRAI has categorically recommended that the TSPs / IP-ls be mandated to share the in-building infrastructure (IBS, OFC and other cables, ducts etc) with each other in a transparent, fair and non-discriminatory manner. DoT's guidelines on the same are still awaited.
- e. Licensing framework for Audio Conferencing / Audiotex / Voice Mail Services: On December 16, 2016, TRAI recommended addition of a new separate

authorization for Audio Conferencing / Audiotex / Voice Mail Services in the UL. TRAI also recommended that the licensees with Access service Authorization should also be allowed to provide these services. DoT's guidelines on the same are still awaited.

- f. SUC and Presumptive AGR for ISPs and Commercial VSAT service providers: On March 7, 2017, TRAI submitted its recommendations on "SUC and Presumptive AGR for ISPs and Commercial VSAT service providers" to DoT. DoT's guidelines on the same are still awaited.
- g. Closure of Access Services: On July 31, 2017, TRAI issued its recommendations (suo-motu) on "Issues related to Closure of Access Services". TRAI has recommended that a UAS licensee should be permitted to discontinue any of the services (Including when migrating from one technology to another), permitted under the scope of licence without the need to surrender the licence.

25. TRAI Directions for Tariff Recharges / payments through Third Party Apps / Websites

On October 14, 2016, TRAI issued directions to the TSPs to ensure that the plans and tariff information available on the third party sites should be synchronized to the latest offerings of the TSPs.

Company Related Key Regulatory Developments

- a. Liberalization of Spectrum: RCOM has got approval from DoT on April 7, 2016 (w.e.f. January 20, 2016), for Liberalization of its administratively allocated 800 MHz spectrum in 16 LSAs (applied for 20 LSAs) applied in July, 2015, where auction determined price was available. These circles include; Andhra Pradesh, Bihar, Delhi, Gujarat, Haryana, Himachal Pradesh, Jammu and Kashmir, Kolkata, Madhya Pradesh, Maharashtra, Mumbai, Odisha, Punjab, Uttar Pradesh-East, Uttar Pradesh-West and West Bengal. For the remaining 4 circles viz. Karnataka, Kerala, Tamilnadu and Rajasthan, the approval from DoT was received on May 31, 2016 (w.e.f. June 1, 2016).
- b. Spectrum Sharing: On the basis of RCOMs' intimation to DoT regarding Sharing of Spectrum in 800 Mhz band in 19 Service areas with Reliance Jio Infocomm Limited, approval from DoT was received on April 21, 2016 (7 LSAs), June 30, 2016 (9 LSAs) and August 4, 2016 (4 LSAs). Approval to RTL for Sharing of 800 MHz spectrum with Reliance Jio Infocomm Limited in North East and Assam service areas was also given on April 21, 2016.
- c. Spectrum Trading: RCOM's trading of part of its spectrum in 800 MHz band in 13 service areas was taken on record by the DoT w.e.f. May 17, 2016 (9 LSAs) and July 6, 2016 (4 LSAs) and was communicated to RCOM vide DoT's letters dated May 20, 2016 and June 28, 2016 respectively.
- d. Spectrum Allocation: RCOM has been allocated 5 MHz (Paired) spectrum, in 1800 MHz band, acquired through the Auction held in October, 2016 in J&K Service Area.

- e. CDMA to LTE Migration: Pursuant to liberalization of 800 MHz spectrum in 20 Service areas, RCOM has upgraded its network from CDMA to LTE and accordingly also upgraded its CDMA customer to LTE based 4G services.
- f. Harmonization of Spectrum: Pursuant to Harmonization of spectrum in 1800 MHz and 800 MHz band, RCOM has successfully migrated to the revised frequency carriers, allocated to it by the DoT, without causing any service disruption to the customers.
- g. Unified License in Gujarat Service Area: On September 20, 2016, RCOM had applied for extension of its UASL license in Gujarat service area since it would be expiring on September 29, 2017. However DoT had advised RCOM to apply for UL License with access authorization for Gujarat. RCOM's application for UL has been accepted by DoT and UL license agreement has been signed with Access authorization for Gujarat Service area on July 31, 2017 which will be effective from September 30, 2017.
- h. Acquisition of Telecommunication Business of Sistema Shyam Teleservices Limited (SSTL): Pursuant to obtaining approvals from High Courts of Rajasthan and Mumbai, RCOM and SSTL submitted joint applications to DoT on November 4, 2016 seeking its final approval of the Scheme regarding Acquisition of Telecommunication business of SSTL. Other necessary Clearances from Stock Exchange, BSE, NSE and CCI have also been obtained.
- i. Merger of Five (5) Service Areas of RTL into RCOM: In order to meet compliance to the Unified License, it was decided to demerge RTL's license / authorization in 5 LSAs namely Bihar, Himachal Pradesh, Madhya Pradesh, Orissa and West Bengal and merge the same into RCOM's respective UAS Licenses. All necessary clearances, viz, from the Stock Exchange, BSE, NSE and CCI have been obtained. Final approval from DoT is awaited.
- j. Demerger and Transfer of Wireless Business Undertakings of RCOM and RTL into Aircel & Dishnet: Post granting of approvals from Stock Exchanges, BSE, NSE and CCI, a joint application, by RCOM and Aircel, has been submitted to DoT on April 5, 2017 intimating their proposed demerger, transfer process and filing of the Scheme of Arrangement. The Scheme has also been filed with National Company Law Tribunal (NCLT) Mumbai Bench and same has been admitted for final hearing.

Company Overview

Business Areas

Reliance Communications Limited is India's foremost integrated communications service provider in the private sector with nearly 95 million individual, enterprise, and carrier customers.

We operate across the entire gamut of wireless, wireline, long distance, voice, data, video and internet communication services on a pan India basis. We also have an extensive international presence through the provision of long distance voice, data,

Management Discussion and Analysis

internet services and submarine cable network infrastructure globally.

We conduct a substantial portion of our business through subsidiary companies, including, GCX, RTL, RCIL, Reliance Infratel and Reliance Big TV.

India Operations

In India, RCOM mainly provides wireless telecom services to the consumer segment. It also provides voice, long distance services and broadband access to enterprise customers. In addition, it includes managed internet data centres and direct to home business as well.

Mobility / Wireless services

During the year, the voice and non-voice business includes CDMA and GSM based wireless services to consumers on a nationwide basis. Subsequently, during early financial year 2016-17, RCOM decided to upgrade all its CDMA customers to 4G services. RCOM now provides 2G, 3G and 4G LTE services under its wireless portfolio.

RCOM is one of the largest holders of spectrum in 800/850 spectrum band. This places RCOM in an unparalleled position in the Indian telecommunication space, as this band is recognized as one of the most powerful spectrum bands in the sub-1 GHz spectrum category to provide indoor coverage and speeds. Globally many operators have launched LTE services on this band. We believe this gives us the unique capability to offer LTE services in an efficient manner.

The Company offers Gold Standard 4G services Pan India on its technologically superior 850MHz spectrum band that is best suited for indoor experience where most of the data is consumed. We also have 3G services in all the 13 circles where we own 3G spectrum. We also have 3G services in another five circles, Andhra Pradesh, Karnataka, Kerala, Tamil Nadu and Uttar Pradesh (East), through ICR arrangements, thus increasing our 3G coverage to 18 circles. We provide wireless broadband services in many cities and towns across India.

We not only provide telecom connectivity to the mass market consumer segment but also, as an Integrated Telecom Service Provider, we offer total telecom solutions to our Corporate, SME & SoHo customers. Our portfolio of products includes mobile handsets, fixed wireless phones/terminals, tablets, and high-speed internet data cards. Our primary brands are Reliance Mobile for the mobile portfolio of services, Reliance Hello for the fixed wireless portfolio of services Reliance 3G for 3G Services, and Reliance 4G for 4G Services. We offer a unique wireless multimedia experience under the brand Reliance Mobile World.

We also offer public calling office ("PCO") services over our wireless network through independent retail operators of such facilities. Additionally, we provide connectivity for devices such as point of sale terminals, lottery terminals, and ATM terminals.

We are among the top providers of wireless communication services in the country, with a wireless subscriber base of nearly 84 million as of March 31, 2017.

Enterprise services

The Company – through the 'collaborative innovation' route – partners with leading global technology providers to continually

expand its diverse service portfolio for the Enterprise and SME segments. Broadly, this portfolio consists of national & international private leased circuits, network connectivity, managed network services, comprehensive voice solutions, Enterprise mobility solutions, collaboration solutions, data center co-location, managed services and cloud offerings. The accent is on integrated, end-to-end solutions that help strengthen RCOM's role as an 'ICT Partner of Choice' for the Large Enterprise segment. The Company has a long-standing experience of serving SMEs and combines innovation, deep knowledge of this segment with Reliance's countrywide network infrastructure to continually expand its solution portfolio for SMEs that address their ICT needs in a cost-efficient manner, largely through a pay-per-use model. Our enterprise clientele includes ~ 39,000 Indian and multinational corporations including SMEs and many prominent enterprises in India.

Our National Long Distance business offer's NLD carriage and termination on an inter segment basis, to other business units of Reliance Communications. We also offer bandwidth and infrastructure services to other operators. We are leveraging our existing metro fibre optic networks to establish direct building connectivity on-net. Currently we are operating in 44 cities in India with more than one million buildings connected directly to our network, serviced by about 1.2 million access lines.

Reliance SIP Trunk is India's first Enterprise SIP Trunking service to be powered by the IP Multimedia System (IMS). It is a highly scalable IP Voice service designed for enterprise use for internal as well as external communications. Unlike traditional telephony that works on "lines", SIP (Session Initiation Protocol) trunking operates on IP "sessions". Reliance is the only operator in India to have designed a nationwide Voice network purely to serve the IP voice requirements of enterprises. This architecture enables flexibility and virtually limitless capability to deliver any number of sessions that the customer needs.

Internet Data Center

We are one of the leading IDC service providers in India with nine operational data centres in Navi Mumbai, Bengaluru, Chennai and Hyderabad. Our IDCs have a total built-up area of ~6.5 lac square feet. We offer a wide range of services through our data centres including co-location, managed hosting, IT infrastructure, managed security, system integration, storage and back-up solutions. We have introduced a pay-per-use model for co-location services. We also offer cloud-based services such as storage for archival purposes and data protection and business application services such as CRM, ERP and HRMS to customers on a pay-per-use model.

Reliance Big TV (Direct-To-Home business)

Our Direct-To-Home (DTH) digital TV Business, branded as Reliance Big TV, offers a full combo of Standard Definition, High Definition & High Definition-DVR STBs, along with largest channel bouquet. We also introduced a new technology advancement which made us the 1st operator to offer all 294 channels in HD like quality. Reliance offers nationwide Direct-To-Home satellite TV services, employing state-of-the-art MPEG4 technology.

Reliance Digital TV is available at nearly 36,000 outlets across numerous cities in the country. The retail and distribution reach, as well as other elements of infrastructure established for our wireless network, have been leveraged to expand our DTH presence.

Reliance Communications Limited

Reliance Infratel Limited (Telecom Infrastructure Business)

RITL, subsidiary of the Company, is in the business to build, own and operate telecommunication towers, optic fiber cable assets and related assets at designated sites and to provide these passive telecommunication infrastructure assets on a shared basis to wireless service providers and other communications service providers under long term contracts. These customers use the space on our telecommunication towers to install their active communication related equipment to operate their wireless communications networks. The customers can also use our optic fiber network to connect the sites to the core network and the connectivity between circles.

Global Operations

The Global Business Unit offers the most comprehensive portfolio of Enterprise, IT infrastructure and International long distance voice, video and data network services on an integrated and highly scalable platform across the globe. Our business segments comprise Carrier, Enterprise and Consumer business units. We provide carrier's carrier voice, carrier's carrier bandwidth, enterprise data and consumer voice services.

In our Carrier Voice, we offer ILD carriage and termination, on an inter-segment basis, to our other business units and other operators. We entered the long distance market in India in mid-2003 and are one of the largest carriers of international voice minutes.

As part of our Consumer voice offering we offer virtual international calling services to retail customers for calls to most of the international destinations including India under the brand Reliance Global Call. Our retail services are available to customers in 14 countries in Australia, Austria, Belgium, Canada, France, Hong Kong, India, Ireland, Netherlands, New Zealand, Singapore, Spain, United Kingdom and United States. We have over 2.6 million customers for our Reliance Global Call service. We have more than 550 enterprise customers of Reliance Global Call across 11 countries including the United States, United Kingdom, Canada, Australia, New Zealand, Singapore, Spain, Belgium, France, the Netherlands and India. We also offer SIP Trunk calling along with Blackberry and Windows App.

Our International Data business is underpinned by our ownership of one of the largest private submarine cable system in the world, spanning 68,698 kilometres and connecting North America, Europe, the Middle East and Asia through 46 landing points in 27 countries. The network seamlessly interconnects with our 190,000 kilometres fibre optic cables within India. We have 950 enterprise customers spread over developed markets such as the United States, the United Kingdom, the Netherlands and Singapore.

As part of wholesale offering, we offer international (submarine cable) network infrastructure on both an Indefeasible Right of Use ("IRU") and leased circuit basis, internet bandwidth, IPLC to carriers, ISPs, content providers and enterprises globally.

We have a very strong and rapidly growing enterprise business segment outside India. We also provide Managed Ethernet services in the U.S. and have an established position in the global enterprise data market.

B. Business Strategy

a. Competitively leverage our Spectrum-based "Go To Market" strategy

We have the necessary spectrum portfolio to ensure long term value creation. During the year we held 269 MHz of spectrum across 850/900/1800/2100 bands. By entering into strategic sharing and trading deals we have successfully lowered our future regulatory cash flow obligations while enhancing our ability to serve the most advanced data services to our customers.

b. Focus on Data based Services

We will continue to increase our data subscriber base, including mobile and wireline subscribers, and revenues by continually improving our data service offerings with integrated content at more affordable price plans.

Further, we believe that our offering of LTE data services on the 850 MHz band will result in better quality of services for our customers given that this frequency offers better coverage within buildings. We recognize that the industry is moving away from pure voice services to more value added data services and we intend to leverage our entire offering across the value chain to provide services to our consumers at the most competitive rates.

c. Continue to Focus on Offering New Products and Services

We aim to continue growth in our revenue streams through the expansion of our portfolio of service offerings and specific sales and marketing initiatives aimed at increasing our customer base. Such efforts include offering a wider range of wireless and wireline services, like video on demand, online gaming and video chat and conferencing. We will also evaluate further expansion of our distribution network of retail stores and developing them into one-stop shops for retail customers.

d. Focus on Reduction of Operating Costs

In line with our growth, we also focus on cost management and margin expansion through various measures to reduce our operating costs and achieve cost optimisation. We have entered into long-term outsourcing agreements with end-to-end network managed service providers aimed at reducing our costs, benefitting from economies of scale and delivering superior customer experience. We have entered into sharing agreements to also lower our regulatory cash outflows as well as future capex expansion needs.

e. Manage our Assets Effectively

We aim to continue optimal utilization of our portfolio of assets, including the passive infrastructure that we build and use, and also make available on a shared basis to other wireless and communications service providers. Our aim is to pursue expansion at a reduced cost to achieve increased shareholder returns, improved

Management Discussion and Analysis

cash flows, higher operational efficiency and increased network coverage with better quality. We are also exploring monetisation of our assets to reduce our debt levels and increase profitability, thereby achieving greater returns and value for our shareholders.

C. New Initiatives and corporate partnerships

Products and services related

a. Reliance launched a truly unlimited offer for pre-paid customers – 149 Truly Unlimited

Reliance launched the '149 Unlimited' Calling Plan, offering customers unlimited calling talk-time to any phone on any telecom network across the country, including STD calls, at just ₹ 149 per month. This plan was targeted at incentivizing 2G, 3G and 4G handset-owners across India to move to the RCOM network. There are still hundreds of millions of older 2G handset-owners in India, and RCOM is positioning the unique plan to migrate these customers to its network, along with 300 MB of data usage.

b. Reliance launched attractive tiered post paid plans – JALSA plan

Reliance launched a post-paid plan named the JALSA plan targeted to acquire high value Voice & 4G Data customers. All the plans offered unlimited calling on any network. Higher the rental of the plan higher was the Data quantum offered. Rentals started at ₹ 299 that offered 1GB 2G/3G data or 3GB 4G data. This plan was targeted towards mass market customers hooked on to the social media like facebook, Whatsapp, e-mails, etc, while ₹ 499 rental was targeted towards a customer whose usage extended beyond social media / e-mails, etc to downloading of music/videos and finally ₹ 699 plan offered 10GB data targeting the large corporate who would like to use the phone as a Hotspot as well.

c. Launched MoviNet Data Plan for Movies, Music, and Internet

MoviNet Pack is a move towards a Content-led data strategy. The composite pack bundles 'any-use' data quota along with subscription-free access to an entertainment-on-demand library of 8,000 movies, 50,000 music videos and 35 lakh sound tracks, virtually bringing the multiplex on mobile. The core objective of the product is to drive ARPU upgrade by driving migration from relatively lower ARPU data plans to higher ARPU MoviNet plans. At the same time customers consuming content on MoviNet have been seen to increase their recharge frequency.

d. Launched the NightOut Data Pack for Night Data Users

NightOut Pack was targeted towards users using data at night, those who mainly browse during night hours. Strategic corporate partnerships

a. Reliance Jio and RCOM - a strategic partnership for spectrum sharing and trading

Reliance Jio Infocomm Limited (Reliance Jio) and RCOM signed agreements for a comprehensive nationwide spectrum sharing and trading arrangement in the 800/850MHz band. Access to enhanced spectrum footprint in this band will complement Reliance Jio's best-in-class LTE services rollout, providing increased network coverage and superior service quality. RCOM's customers will benefit from access to Reliance Jio's world class nationwide 4G LTE network under the reciprocal sharing and ICR agreements.

b. GCX expanded cloud ecosystem with Microsoft Azure ExpressRoute

GCX in collaboration with Microsoft added Microsoft Azure ExpressRoute via GCX's CLOUD X Fusion with the ability to establish additional interconnections across multiple locations and offer enterprise customers secure and seamless access to the rapidly growing public cloud ecosystem. Through the interconnection of CLOUD X Fusion and Microsoft Azure ExpressRoute, customers will benefit from the added flexibility and global reach to be more competitive as GCX also looks at new opportunities from the 'Digital India' initiatives.

c. GCX signed a strategic partnership with PLDT

GCX signed a strategic partnership with PLDT, the leading telecom services provider in the Philippines, to support its global expansion plans through delivery of service requirements in Asia, Middle East and Europe.

d. GCX enhanced Telecom Italia Sparkle partnership with new international routes

Sparkle is acquiring significant Spectrum capacity across GCX's Flag Atlantic (FA-1) system. In addition, Sparkle and GCX will close a strategic capacity deal on the new Europe-to-Asia system, SEAMEWE-5. GCX will continue to explore additional areas of cooperation into markets across South America, the Middle East and Asia Pacific.

e. GCX partnered with Cornell University's electrical and computer engineering department for deploying and testing the new traffic control solutions

GCX partnered with Cornell University's electrical and computer engineering department to test and implement a breakthrough technology for dynamic, optimal routing,

providing Cornell with a live production environment for deploying and testing the new traffic control solutions. The environment includes the GCX Cloud X nodes and Layer 2 / Layer 3 networks across multiple locations in North America, Europe, and Asia. The virtual machines at each of the cloud nodes are fully interconnected via the GCX network.

f. GCX and BMC UK partnered to deliver 2018 FIFA World Cup qualifying match to Fans in Europe

The broadcast from Slovenia to ITV London studios included an end-to-end network solution with fast, dedicated and reliable connectivity, as well as active monitoring of the transmission over GCX's Global Network to ensure consistent broadcast quality for European audiences.

D. Strategic corporate transactions and execution plans

a. RCOM's planned acquisition of SSTL - the first consolidation in the Indian telecom sector

RCOM signed the definitive documents for demerger of Sistema's Indian wireless business, carried on by Sistema Shyam Teleservices Ltd. (SSTL) under the MTS brand, into RCOM. RCOM will acquire the customers and the annual revenues by virtue of this transaction. In addition, RCOM will acquire SSTL's 800 / 850 MHz band spectrum, ideally suited for 4G services, to complement its own unique nationwide footprint of 800 / 850 MHz spectrum. This will extend RCOM's spectrum validity in 8 important circles to 2033. All approvals except DOT's final approval have been received. As soon as DoT's approval is received we will integrate SSTL's business into RCOM.

b. RCOM entered into exclusive discussions for potential combination of its wireless business with Aircel

RCOM has been in exclusive discussions with Maxis Communications Berhad and Sindya Securities and Investments Private Limited, the shareholders of Aircel Limited, and Definitive Agreement was signed in September, 2016 for combination of the Indian wireless business of RCOM and Aircel to mutually derive the expected substantial benefits of in-country consolidation, including opex and capex synergies and revenue enhancement. Stock Exchanges and Competition Commission of India has given its approval. We have filed the Scheme of Arrangement with National Company Law Tribunal (NCLT) post its approval, we will approach DoT for the final approvals.

c. RCOM entered into a definitive agreement with Canada's Brookfield Infrastructure to sell its tower business

RCOM has signed Definitive Agreements with Brookfield in relation to the proposed sale of RCOM's nationwide tower assets and related infrastructure creating the

Management Discussion and Analysis

second largest independent and operator-neutral Towers company in India. RCOM will continue as an anchor tenant on the tower assets, under a long term MSA, for its integrated telecommunications business.

RCOM will receive an upfront cash payment of ~ ₹ 11,000 crore from the proposed transaction. RCOM will also receive Class B non-voting shares in the new Tower company, providing 49% future economic upside in the Towers business, based on certain conditions.

The transaction will represent the largest ever investment by any overseas financial investor in the telecom infrastructure sector in India, and is a strong reflection of the confidence of the international investment community in the long term growth potential of the sector and Indian economy.

RCOM intends to utilize the proceeds of the proposed transaction solely to reduce its debt. We have received CCI approval, and have also filed the Scheme Petition in NCLT.

d. Debt Structuring Plans under Joint Lenders' Forum (JLF)

RCOM had submitted an overall debt resolution plan to lenders at the Joint Lenders' Forum (JLF) and lenders have taken note of the advanced stage of implementation of RCOM's strategic transformation programme. JLF has invoked Strategic Debt Restructuring (SDR) w.e.f.: June 2, 2017 and agreed for a Standstill on the Company's debt servicing obligations for 7 months till end December, 2017. This arrangement would alleviate liquidity pressures of the Company and would be helpful in achieving sustainable debt position and a stronger balance sheet through completion of the strategic transactions.

Investor Information

IMPORTANT POINTS

Hold Securities in Dematerialised Form

Investors should hold their securities in dematerialised form as the same is beneficial due to following:-

- A safe and convenient way to hold securities;
- Elimination of risks associated with physical certificates such as bad delivery, fake securities, delays, thefts etc.;
- Immediate transfer of securities;
- No stamp duty on electronic transfer of securities;
- Reduction in transaction cost;
- Reduction in paperwork involved in transfer of securities;
- No odd lot problem, even one share can be traded;
- Availability of nomination facility;
- Ease in effecting change of address as change with Depository Participants gets registered with all companies in which investor holds securities electronically;
- Easier transmission of securities as the same done by Depository Participants for all securities in demat account;
- Automatic credit into demat account of shares, arising out of bonus / split / consolidation / merger etc.

Hold Securities in Consolidated form

Investors holding shares in multiple folios are requested to consolidate their holding in single folio. Holding of securities in one folio enables shareholders to monitor the same with ease.

Register for SMS alert Facility

Investor holding shares in demat mode should register with Depository Participants for the SMS alert facility. Both National Securities Depository Limited and Central Depository Services (India) Limited alert investors through SMS of the debits and credits in their demat account.

Submit Nomination Form and avoid transmission hassle

Nomination helps nominees to get the shares transmitted in their favour without any hassles. Investors should get the nomination registered with the Company in case of physical holding and with their Depository Participants in case of shares are held in dematerialised form.

Form may be downloaded from the Company's website, www.rcom.co.in under the section 'Investor Relations'. However, if shares are held in dematerialised form, nomination has to be registered with the concerned Depository Participants directly, as per the form prescribed by the Depository Participants.

Deal only with SEBI Registered Intermediaries

Investors should deal with SEBI registered intermediary so that in case of deficiency of services, investor may take up the matter with SEBI.

Corporate Benefits in Electronic Form

Investor holding shares in physical form should opt for corporate benefits like split / bonus etc. in electronic form by providing their demat account details to Company's RTA.

Register e-mail address

Investors should register their e-mail address with the Company / Depository Participants. This will help them in receiving all

communication from the Company electronically at their e-mail address. This also avoids delay in receiving communications from the Company. Prescribed form for registration may please be downloaded from the Company's website.

Facility for a Basic Services Demat Account (BSDA)

SEBI has stated that all the depository participants shall make available a BSDA for the shareholders who have only one demat account with (a) No Annual Maintenance charges if the value of holding is upto ₹ 50,000 and (b) Annual Maintenance charges not exceeding ₹ 100 for value of holding from ₹ 50,001 to ₹ 2,00,000. (Refer Circular CIR/MRD/DP/22/2012 dated August 27, 2012).

31.03.2013	0.25	27.08.2013	27.09.2020

The Company has uploaded the details of unpaid and unclaimed amounts of dividend lying with the Company as on September 27, 2016 (date of last Annual General Meeting) on the website of the Company (www.rcom.co.in), as also on the website of the Ministry of Corporate Affairs.

Pursuant to provisions of the IEPF Rules, the Company would be transferring the equity shares on which dividend has not been claimed or encashed for last seven consecutive years or more to the IEPF Authority.

The Company has individually communicated to the concerned equity Shareholders whose equity shares are liable to be transferred to the IEPF, to enable them to take appropriate action for claiming the unclaimed dividends and equity shares, if any, by due date as may be notified by the IEPF Authority, failing which the Company would transfer the aforesaid equity shares to the IEPF as per the procedure set out in the Rules. The details of such equity shareholders and equity shares due for transfer are uploaded on the website of the Company (www.rcom.co.in).

Members who have so far not encashed dividend warrants for the aforesaid years are requested to approach the Company's Registrar and Transfer Agents, Karvy Computershare Private Limited immediately. Members are requested to note that the Company has uploaded the details of unpaid and unclaimed dividend and equity shares due to be transferred on the website of the Company www.rcom.co.in.

Members are requested to note that no claims shall lie against the Company in respect of their shares or the amounts so transferred to IEPF and no payment shall be made in respect of any such claim. Any shareholder whose equity shares and unclaimed dividends has been transferred to the Fund, may claim the equity shares or apply for claiming the dividend transferred to IEPF by making an application in Form IEPF 5 available on the website www.iepf.gov.in along with the applicable fee.

Share transfer system

Shareholders / investors are requested to send share certificate(s) along with share transfer deed in the prescribed Form SH-4 duly filled in, executed and affixed with share transfer stamps, to the Company's RTA. If the transfer documents are in order, the transfer of shares is registered within 7 days of receipt of transfer documents by Company's RTA.

Permanent Account Number (PAN) for transfer of shares in physical form mandatory

SEBI has stated that for securities market transactions and off-market transactions involving transfer of shares in physical form of listed companies, it shall be mandatory for the transferee(s) to furnish copy of PAN card to the Company's RTA for registration of such transfer of shares.

Section E: Principle-wise performance

Principle 1 Businesses should conduct and govern themselves with Ethics, Transparency and Accountability.

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/ Joint Ventures/ Suppliers/Contractors/NGOs / Others?

The Company considers Corporate Governance as an integral part of good management. The Company's policy relating to Ethics, Bribery and Corruption is covered under Reliance Group Companies Code of Ethics and Business Policies, which are applicable to all personnel of the Company as well as to the (i) Consultants, (ii) Representatives, (iii) Suppliers, (iv) Contractors and (v) Agents dealing with the Company.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

Stakeholders Complaints			
Complaints	No. of complaints received	No. of complaints resolved	% of complaints resolved
Shareholders Complaints	30	30	100%
Customers Complaints	2686002	2662997	99%

Principle 2 Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle.

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.

Our Company provides Telecommunications Service through 2G, 3G and 4G technologies. Our Company also provides Internet Data Centre, Direct-To-Home services and Telecom Infrastructure through subsidiary companies.

The electronic components used in Set-Top-Box (STB) are compliant of Restriction of Hazardous Substances (RoHS). This eliminates harmful impact to the environment.

Another major challenge is to optimize the electricity use at the Data center. Normally, Data center operation itself involves enormous amount of electricity consumption measured by power usage effectiveness (PUE). The huge electricity consumption has a negative impact on the environment and corporate operating costs. We have been identifying and implementing the technologies, mechanisms at all the data centers to improve the PUE.

Electromagnetic radiation from BTS antenna and noise pollution from usage of Diesel Generator may be considered as an environment concerns. Radiation and noise pollution are within the permissible limit, but still we are closely monitoring the same and take preventive steps to reduce radiation and noise pollution.

2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):

The Company's services do not have any broad based impact on energy. Our Internet Data Center (IDC), normally, has a connected load of 5 MW which is being taken from the local grids. We have implemented the Energy Management System (ISO 50001 EnMS) at our largest data center in Mumbai and in process of implementing this across all data centers in India. IDC has also implemented Occupational Health and Safety system (OHSAS 18001) for its Mumbai and Hyderabad facilities.

Spectrum is used for Electromagnetic radiation and Diesel is used in Diesel Generator as a resource. Electromagnetic radiation is measured in unit of RF power transmitted in watt per square meter and Noise pollution emitted from Diesel Generator is measured in terms of dB level.

3. Does the company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.

Yes, our policy aims to have long term relationship with various vendors. We have detail procedures for finalisation of prospective vendors, which includes techno commercial analysis, vendor's financial strength, market share, past track record etc. All vendors providing goods/ services have to comply with the local laws. While selecting a product, efforts are put on environment friendliness, low power consumption, EMF radiation monitoring / testing etc.

4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

We support and encourage local vendors for ensuing positive impact of sourcing resources. The local vendors were used for small civil related jobs, fiber related services, sign boards, local supply of materials, material handling, housekeeping, etc. We have appointed local service providers whose job is to give after sales service to the customers. These service providers are given regular training so as to optimise their capacity and capabilities.

5. Does the company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%). Also, provide details thereof, in about 50 words or so.

Yes, the Company has well established process for disposal of Products Waste, e.g. Telecom End of Life Batteries though Battery OEMs and Electronics waste are being disposed off through scrap vendors after proper disposal certificates are being taken from the vendors.

We also re-use the STBs by refurbishing them. At present, around 20% of new Installations are from the refurbished lot.

Business Responsibility Report

Principle 6 Businesses should respect, protect and make efforts to restore the environment.

1. Does the policy related to Principle 6 cover only the company or extends to the Group/Joint Ventures/Suppliers/Contractors/NGOs/others.

Our companies in the group are committed to achieve the global standards of health, safety and environment. We believe in sharing process and product innovations within the group and extending its benefits to the Industry. We believe in safeguarding environment for long term. Reliance Group Companies Code of Ethics and Business Policies is applicable to all personnel of the Company as well as to the Consultants, Representatives, Suppliers, Contractors and Agents dealing with the Company.

2. Does the company have strategies/ initiatives to address global environmental issues such as climate change, global warming, etc? Y/N. If yes, please give hyperlink for webpage etc.

Yes, the Company has taken the initiatives on Green telecom such as :- (i) Usage of renewable energy with solar panels, (ii) Usage of newly developed batteries to reduce fuel consumption at telecom sites and thereby reducing CO2 emission etc. Hyperlink is not available.

We have also taken following new initiatives to address environmental issues in IDCs

- Our upcoming IDC building (IDC-5) in Navi Mumbai is pre-certified for LEED GOLD rating from Indian Green Building Council (IGBC).
- As part of efficient energy management in Data centers, we have obtained ISO 50001 certification for IDC4 Mumbai to improve energy performance.

3. Does the company identify and assess potential environmental risks? Y/ N

Yes. Reduction of Carbon Emission is being implemented by the Company by deploying High Efficient Batteries and Energy Conservation measures such as Sourcing Power through Green resource e.g. Solar and RESCO Model.

We have also identified and assess potential environmental risks as follows:

- Electro-Magnetic Radiation: We comply with EMF norms released by DoT.
- Tower Structure safety: Towers are deployed on the basis of Wind Zone compliance.
- Lighting arrester and earthing are also used for tower safety.
- Towers are complied with fire safety norms and practices.
- Surplus electronics equipments not in use are sold and we follow the e-waste process to dispose of these equipments.

IDC as such do not pollute environment, but we comply with all environmental norms while building IDCs and their equipment selection:

- We comply with local SEB norms through CEIG approval process for all IDCs across India.

- We follow fire safety norms and use automatic gas suppression system (FM200) in all our server halls of IDC to immediate extinguish the fire. FM200 gas is zero ozone-depleting potential and low global warming potential and short atmospheric life.

- Similarly we use HFC based refrigerant in Chiller system zero ozone-depleting potential and low global warming potential.

4. Does the Company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if Yes, whether any environmental compliance report is filed?

The Company has undertaken the following projects related to Clean Development Mechanism -

- Initiatives on Green telecom with focus on (i) Renewable energy like solar, (ii) Newly developed batteries to reduce fuel consumption on telecom sites and thereby, reducing CO2 emission.
- Guidelines on TRAI for CO2 reduction have been released and compliance report was submitted.
- BTS runs on minimal power consumption mode based on actual traffic.

IDCs do not generate any emission and hence do not pose any risk to environment.

5. Has the company undertaken any other initiatives on - clean technology, energy efficiency, renewable energy, etc. Y/ N. If yes, please give hyperlink for web page etc.

Yes. Company has deployed high efficient Batteries and Energy Conservation measures such as Sourcing Power through Green resource e.g. Solar and RESCO Model. The Company has also taken up measures in reducing / removing use of Air-conditioners for Telecom BTS Sites by converting Sites to Outdoor category. Initiatives on Green telecom such as (i) renewable energy with solar panels, (ii) usage of high efficient batteries and (iii) DC power are supplied to reduce fuel consumption on telecom sites (iv) reduction of CO2 emission is being planned for 5000 sites.

- We have taken following initiatives for Green IDC and to achieve high Energy efficiency in operations.
- Our upcoming IDC building (IDC-5) in Navi Mumbai is pre-certified for LEED GOLD rating from Indian Green Building Council (IGBC).
- As part of efficient energy management in Data centers, we have obtained ISO 50001 certification for IDC 4 Mumbai to improve energy performance.
- We are continuously putting efforts to improve PUE (Power Usage effectiveness) on year on year. We have taken several effective steps to improve PUE by optimizing our air-conditioning and lighting systems, e.g. Hot/ Cold Aisle arrangement, restricting airflow, blanking plates and cold aisle Containment etc.

Principle 8 Businesses should support inclusive growth and equitable development

1. Does the company have specified programmes/ initiatives/projects in pursuit of the policy related to Principle 8? If yes details thereof.

At RCOM, CSR is inculcated well within the culture of the company and continuous efforts are being taken to strengthen its social initiatives each year to make the programmes more sustainable and support the community at large.

In FY 2016-17, RCOM has undertaken the below CSR programmes-

a) Swachh Bharat Abhiyan

Swachh Bharat Abhiyan (SBA) has become a massive mass movement ever since its initiation by Hon. Prime Minister which focuses on Clean India by 2019. To support this mission further, RCOM considers SBA as an integral part of CSR. In 2016-17, several activities were undertaken, such as taking mass pledge, organizing cleanliness drives at various public

places including streets, schools, railway stations, creating awareness on sanitation and hygiene by way of rallies, street plays, distribution of IEC materials etc. These activities were undertaken at regular intervals near all RCOM locations all over India, in association with the local administrative authorities, academic institutions, NGOs etc.

b) 'SPARSH'- Learning through the sense of touch.

Project SPARSH, is an educational program for creating environmental awareness and knowledge base amongst the visually challenged individuals. It is in partnership with TERI (The Energy and Resources Institute). The project aims at harnessing the employee volunteering potential for developing and disseminating interactive resource material for visually challenged and deaf and blind individuals. In 2016-17, the book has been completed on the theme "Flowing with Rivers". The project will reach to 350 blind schools spread all across India.

c) Volunteering Initiative for Developing Young Aptitude (VIDYA)

Project VIDYA, is an educational program initiated by RCOM with a mission to create a platform to support effective learning and improve the literacy levels in the community. Focused on establishing a learning environment for developing reading skills and literacy skills in primary and secondary school children. In 2016-17, with the support of employee volunteers the project has focused on mentoring and tutoring of the municipal school children in the state of Maharashtra. In addition, several sessions on art, craft and culture were taken to focus on the holistic development of the students.

d) Providing Grassroots Advancement to Youth Aspiring Growth (PRAYAG):

PRAYAG is an initiative extending employment based employability skills to unemployed or under employed youth from semi-urban and urban slum in India. This is a platform designed to empower school and college dropout youths in the areas adjoining the company's operations. In 2016-17, Project PRAYAG continued in Bihar and since its inception reached out to 6,258 beneficiaries Pan India.

e) Project Reliance ASHA

Reliance ASHA is an economic empowerment initiative undertaken by the Company, to create comprehensive rehabilitation opportunities for individuals with disabilities, with an agenda to facilitate their integration into the mainstream of the society. Based out of Northern India, the project has been enabling employability skills and promoting livelihood platforms for differently-abled youth in partnership with ASHA and Army Wives Welfare Association (AWWA) a social arm of ARMY.

Business Responsibility Report

f) Women Empowerment

Empowering Woman is one of the key focus areas of CSR at RCOM. To support this cause, RCOM organizes several programmes woven around the International Women's Day which is celebrated on 8th March. 2016-2017, being third year in a row, RCOM hosted a symposium to felicitate Woman achievers wherein ten woman achievers from the State of Jharkhand in the field of sports, athletics and academics were felicitated and more than 100 women participated in the symposium. Further, Run for Women Empowerment (RfWE) was hosted on International Women's Day at Ranchi, Jharkhand. In its fourth year the RfWE saw more than 1000 women participated to champion the cause.

g) Blood Donation Campaign

Reliance being a responsible corporate has been organizing blood donation campaigns across the country for past many years. The focus is on encouraging employees for voluntary blood donation and by creating a voluntary donor base to support the community. The camps are on a biannual basis organized in partnership with the government hospitals to reach out to the people from underserved communities. In the year 2016-17, RCOM organized blood donation campaign at 23 locations across RCOM collecting more than 2600 units of blood.

h) Social Awareness campaign

RCOM has been initiating awareness drives on social issues across our customer base in India. The focus has been on Health, Girl Child, Women Empowerment, and Environment etc. in partnerships with UN, Ministry of Health and Family Welfare and other government bodies. In 2016-17, in order to spread social awareness, messages were relayed to 43.9 million by the Company.

i) Employee Volunteering Day

"Employee Volunteering Day" was observed in February 2017, all across RCOM to acknowledge and honour the contributions by the employees towards the CSR initiatives undertaken by the organization. For the financial year 2016-17, around 255 volunteers participated in the CSR activities contributing 2058 man hours.

2. What is your company's direct contribution to community development projects- Amount in INR and the details of the projects undertaken.

The Company and subsidiary companies continue to do CSR activities.

3. Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words, or so.

Our approach towards CSR is to interweave social responsibility into company's mainstream business functions through translating commitments into policies, which not only drive all employees but influence and

mobilize stakeholders, especially partners and suppliers, to embrace responsible business practices in their respective spheres of action. In order to make the initiatives sustainable, the projects are designed, which are mostly long term projects in collaboration with different NGO's wherein employee volunteering plays a key role and the projects are aligned in line with the business processes and products. We as a company can become the facilitators and do the handholding for the community based on the duration of the project, however, in association with the project partners and other concerned authorities try to create a structured plan to ensure capacity building of the community to enable them to sustain the project and get benefitted after the completion of the project.

Principle 9 Businesses should engage with and provide value to their customers and consumers in a responsible manner.

1. What percentage of customer complaints/ consumer cases are pending as on the end of financial year.

As on March 31, 2017, there were about 1% complaints of customers are pending.

2. Does the company display product information on the product label, over and above what is mandated as per local laws? Yes/No/N.A. /Remarks (additional information)

Beyond mandatory details such as name of the company, address etc., we also display brand name / product specifications / visuals etc. on product packaging.

3. Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behaviour during the last five years and pending as on end of financial year. If so, provide details thereof, in about 50 words or so.

NIL

4. Did your company carry out any consumer survey/ consumer satisfaction trends?

Yes, the customer satisfaction is measured with the help of robust SMS based surveys conducted on a daily basis and analyzed on a weekly and monthly basis. The decision to participate in the survey lies solely with the customers. There is a set of SMS's sent to customers post their consent for participation in the survey. Customers who respond 'No' in the 'Overall Experience' parameter are out-called on a sample basis within 48 hours (subject to contractibility). The VoC based on this out-calling is analyzed for opportunity identification and reduction of dissatisfaction. The customer response helps to understand their expectations and requirements. We conducted Brand Track survey to measure consumer perception of various legs of our business namely brand, service, Network.

Independent Auditor's Report on Financial Statement

To The Members of Reliance Communications Limited

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying Standalone Ind AS financial statements of Reliance Communications Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2017, the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flows and the Statement of changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'standalone Ind AS financial statements').

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in sub-section 5 of Section 134 of the Companies Act, 2013 ('the Act') with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with relevant rules issued thereunder. This responsibility also includes the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies, making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control

relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances.

An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the Company as at 31 March 2017 and its loss (financial performance) including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Emphasis of Matters

- a. We draw attention to Note 2.36.1 (vi) of the standalone Ind AS financial statements regarding the Scheme of Arrangement ('the Scheme') sanctioned on 03 July 2009 by the Hon'ble High Court of Judicature at Mumbai, the Company is permitted to adjust additional depreciation/amortisation, expenses and/or losses, which have been or are required to be debited to the Statement of Profit and Loss by a corresponding withdrawal or credit from/to General Reserve, as determined by the Board of Directors. During the year, the Company has withdrawn ₹ 1,205 crore (previous year ₹1,190 crore) to offset additional depreciation/amortisation on account of fair valuation of certain assets which may be considered to override the relevant provisions of Schedule II of the Act and Ind AS 8 'Accounting Policies, Changes in Accounting Estimates and Errors'. Our opinion is not qualified in respect of this matter.
- b. We further draw attention to Note 2.44 of the standalone Ind AS financial statements regarding the Scheme of Arrangement ('the Scheme') sanctioned by the Hon'ble High Court of Judicature at Mumbai. The Scheme permits the Company to adjust expenses and/or losses identified by the Board of Directors, which are required to be debited to the Statement of Profit and Loss, by a corresponding withdrawal from General Reserve, which is considered to be an override to the relevant provisions of Ind AS 8. The Company has identified net foreign exchange variations of ₹ 8 crore (previous year ₹ 3 crore), amortization of Foreign Currency Monetary Items Translation Difference Account (FCMITDA) of ₹ 238 crore (previous year ₹ 274 crore) and depreciation on exchange losses capitalised of ₹ 433 crore (previous year ₹ 467 crore), as in the opinion of the Board, such exchange losses and depreciation are considered to be of an exceptional nature and accordingly, these expenses have been met by corresponding withdrawal from General Reserve. Our opinion is not qualified in respect of this matter.

Independent Auditor's Report on Financial Statement

Had the effect of paragraphs (a) and (b) above, not been met from General Reserve, the Company would have reflected a loss after tax for the year of ₹ 3,680 crore (previous year ₹ 2,313 crore).

- c. As stated in Note 2.18.4 of the standalone Ind AS financial statements, pending formal confirmation, the borrowings are continued to be classified as non-current liabilities. Our opinion is not qualified in respect of this matter.

Other Matters

- a. The comparative financial information of the Company for the year ended 31 March, 2016 and the transition date opening Balance Sheet as at 1 April, 2015 included in these standalone Ind AS financial statements, are based on the statutory financial statements prepared in accordance with the Companies (Accounting Standards) Rules, 2006 and other accounting principles generally accepted in India audited by BSR & Co. LLP, Chartered Accountants (one of the joint auditors) and Chaturvedi & Shah, Chartered Accountants (predecessor joint auditor), whose report for the year ended 31 March 2016 and 31 March 2015 dated 30 May 2016 and 29 May 2015 respectively expressed an unmodified opinion on those standalone financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS, which have been audited by us.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ('the Order'), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we enclose in 'Annexure A', a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by sub-section 3 of Section 143 of the Act, we report that:
 - (a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) the Balance Sheet, the Statement of Profit and Loss, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) in our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act read with relevant rule issued thereunder; read with Emphasis of Matter paragraph above, regarding exercise of option available as per the Court Order which overrides the requirement of Ind AS 8;

- (e) on the basis of the written representations received from the directors as on 31 March 2017 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2017 from being appointed as a director in terms of sub-section 2 of Section 164 of the Act;

- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B"; and

- (g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 as amended by notification no. G.S.R. 307 (E) issued by MCA dated 30 March 2017, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements – Refer Note 2.39 to the standalone Ind AS financial statements;
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company; and
- iv. The Company has provided requisite disclosures in the standalone Ind AS financial statements as regards its holding and dealings in Specified Bank Notes as defined in the Notification S.O. 3407(E) dated the 8 November, 2016 of the Ministry of Finance, during the period from 8 November, 2016 to 30 December, 2016. Based on audit procedures performed and the representations provided to us by the management, we report that the disclosures are in accordance with the books of account maintained by the Company and as produced to us by the Management. Refer Note 2.52 to the standalone Ind AS financial statements.

Reliance Communications Limited

Annexure A' to the Independent Auditor's Report - 31 March 2017

With reference to Annexure A referred to in the Independent Auditors' Report to the Members of Reliance Communications Limited ('the Company') on the standalone Ind AS financial statements for the year ended 31 March 2017, we report the following:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) We are informed that the Company physically verifies its assets over a three year period, except for base trans-receiver stations. We are informed that these assets are under continuous operational surveillance at National Network Operating Centre and are therefore not separately physically verified. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this policy, the Company has physically verified certain fixed assets during the year and no material discrepancies were identified on such physical verification.
- (c) According to the information and explanations given to us, the title deeds of immovable properties, as disclosed in Note 2.01 to the standalone Ind AS financial statements, are held in the name of the Company, except for the following where the Company is in the process of transferring the title deeds in its name as these were acquired through various schemes of arrangement entered in the earlier years:
- | Particulars | Freehold land | Leasehold land | Building |
|--|---------------|----------------|----------|
| No of cases | 394 | 16 | 413 |
| Gross block as at 31 March 2017 (₹ in crore) | 196 | 13 | 295 |
| Net block as at 31 March 2017 (₹ in crore) | 196 | 11 | 201 |
- (ii) The inventory has been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable. The discrepancies noticed on verification between the physical stocks and the book records were not material and have been dealt with in books of account.
- (iii) The Company has not granted any loans, secured or unsecured, to companies, firms, Limited liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Accordingly, paragraph (iii) of the Order is not applicable to the Company.
- (iv) The Company has not granted any loans or provided any guarantees or security to the parties covered under Section 185 of the Act. The Company has complied with the applicable provisions of Section 186 of the Act.
- (v) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public in accordance with relevant provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed there under. Accordingly, paragraph (v) of the Order is not applicable to the Company.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under sub-section 1 of Section 148 of the Act, in respect of telecommunication activities and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the records.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/accrued in the books of account in respect of undisputed statutory dues including Provident Fund, Income Tax, Service Tax, Duty of Customs, Sales Tax, Value Added Tax (VAT), Entry Tax, Employees' State Insurance, cess and other material statutory dues have been generally regularly deposited during the year by the Company with the appropriate authorities though there has been slight delay in few cases. As explained to us, the Company did not have any dues on account of duty of excise.
- According to the information and explanations given to us, no undisputed amounts payable in respect of Provident Fund, Income Tax, Service Tax, Duty of Customs, Sales Tax, Value Added Tax, Entry Tax, Employees' State Insurance, cess and other material statutory dues were in arrears as at 31 March 2017 for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, there are no dues of cess which have not been deposited on account of any dispute. The dues of Income Tax, Duty of Customs, Service Tax, Sales Tax, Value Added Tax and Entry Tax as disclosed below have not been deposited by the Company on account of disputes.

Annexure B' to the Independent Auditor's Report - 31 March 2017

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act").

We have audited the internal financial controls over financial reporting of Reliance Communications Limited ("the Company") as of 31 March 2017 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing issued by the ICAI and deemed to be prescribed under Section 143 (10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI.

Notes on Accounts to Financial Statements

Note 1 General Information and Significant Accounting Policies

1.1 General Information

Reliance Communications Limited ("RCOM" or "the Company"), founded by the late Shri Dhirubhai H. Ambani, is the flagship company of the Reliance Group. The Company is registered under the Companies Act, 1956 having Registered Office at H Block, 1st Floor, Dhirubhai Ambani Knowledge City, Navi Mumbai 400710 and its securities listed on the BSE Limited and the National Stock Exchange of India Limited.

RCOM is India's foremost and truly integrated telecommunications service provider in the private sector. RCOM has established a pan-India, next generation, integrated (wireless and wireline), convergent (long distance, voice, data, video and internet) digital network that is capable of supporting best-of-class services spanning the entire communications value chain. RCOM owns and operates the next generation IP enabled connectivity infrastructure, comprising of fibre optic cable systems in India and globally.

1.01 a. Basis of Preparation of Financial Statements

The Financial Statements are prepared under historical cost convention/ fair valuation, under the scheme approved by the Hon'ble High Court, in accordance with the generally accepted accounting principles (GAAP) in India and in compliance with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, the Companies (Indian Accounting Standards) Amendment Rules, 2016 and other provisions of the Act, to the extent notified and applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (the ICAI).

These financial statements for the year ended March 31, 2017 are the first financial statement that the Company has prepared under Ind AS. For all periods upto and including the year ended March 31, 2016, the Company prepared its financial statements in accordance with the accounting standards notified under Section 133 of the Act, read together with Rule 7 of the Companies (Accounts) Rules, 2014 (hereinafter referred to as 'the Previous GAAP') used for its statutory reporting requirements in India immediately before adopting Ind AS.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out under Ind AS and in the Schedule III to the Act. Based on the nature of the services and their realisation in Cash and Cash Equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current or non-current classification of assets and liabilities.

b. Recent Accounting Developments

Standards issued but not yet effective:

In March 2017, the Ministry of Corporate Affairs (the MCA), Government of India (GoI) issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7 'Statement of Cash Flows' and Ind AS 102 'Share-based payment.'

The amendments are applicable to the Company with effect from April 1, 2017.

Amendment to Ind AS 7: Statement of Cash Flows

The amendment to Ind AS 7 requires the entities to provide disclosures that enable the users of the financial statements to evaluate changes in liabilities arising from the financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from the financing activities, to meet the disclosure requirement.

Amendment to Ind AS 102: Share based payments

The amendment to Ind AS 102 provides specific guidance as to the measurement of cash-settled awards, modification of cash-settled awards and awards that include a net settlement feature in respect of withholding taxes. It clarifies that the fair value of cash-settled awards is determined on the basis consistent with that used for equity settled awards. Market-based performance conditions and non-vesting conditions are reflected in the 'fair values', but non-market performance conditions and service vesting conditions are reflected in the estimate of the number of awards expected to vest. Also, the amendment clarifies that if the terms and conditions of the cash-settled share-based payment transaction are modified with the result that it becomes an equity-settled share-based payment transaction, the transaction is accounted for as such from the date of the modification.

Further, the amendment requires the award that includes the net settlement feature in respect of withholding taxes to be treated as the equity-settled in its entirety. The cash payment to the tax authority is treated as if it was part of an equity settlement.

Notes on Accounts to Financial Statements

1.02 Functional Currency and Presentation Currency

These financial statements are presented in Indian Rupees ("Rupees" or "₹") which is functional currency of the Company. All amounts are rounded off to the nearest crore, unless stated otherwise.

1.03 Use of Estimates

The preparation and presentation of Financial Statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the Financial Statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates is recognised in the period in which the results are known/ materialised. Estimates and underlying assets are reviewed on periodical basis. Revisions to accounting estimates are recognised prospectively.

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. The management also needs to exercise judgement in applying the accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Critical estimates and judgements

The Company has based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

The areas involving critical estimates or judgements pertaining to useful life of property, plant and equipment including intangible asset (Note 2.01 and Note 2.02), current tax expense and tax payable, recognition of deferred tax assets for carried forward tax losses (Note 2.06), fair value of unlisted securities (Note 2.09), impairment of trade receivables and other financial assets (Note 2.10) and measurement of defined benefit obligation (Note 2.47). Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

(i) Useful life of Property, Plant and Equipment including intangible asset: Residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(ii) Taxes: The Company provides for tax considering the applicable tax regulations and based on probable estimates.

Management periodically evaluates positions taken in the tax returns giving due considerations to tax laws and establishes provisions in the event if required as a result of differing interpretation or due to retrospective amendments, if any.

The recognition of deferred tax assets is based on availability of sufficient taxable profits in the Company against which such assets can be utilized.

(iii) Fair value measurement and valuation process: The Company measured financial assets and liabilities, if any, at fair value for financial reporting purposes.

(iv) Trade receivables and Other Financial Assets: The Company follows a 'simplified approach' (i.e. based on lifetime Expected Credit Loss ("ECL")) for recognition of impairment loss allowance on Trade receivables. For the purpose of measuring lifetime ECL allowance for trade receivables, the Company estimates irrecoverable amounts based on the ageing of the receivable balances and historical experience. Further, a large number of minor receivables are grouped into homogeneous groups and assessed for impairment collectively. Individual trade receivables are written off when management deems them not to be collectable.

(v) Defined benefit plans (gratuity benefits): The Company's obligation on account of gratuity and compensated absences is determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter subject to frequent changes is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables in India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Notes on Accounts to Financial Statements

- (vi) Non-financial assets are reviewed for impairment, whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any.
- (vii) Provisions and contingent liabilities are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

1.04 Property, Plant and Equipment

- (i) Property, plant and equipment (PPE) are stated at cost net of Modvat/ Cenvat less accumulated depreciation, amortisation and impairment loss, if any. Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.
- (ii) Cost of an item of PPE comprises of its purchase price including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and present value of estimated costs of dismantling and removing the item and restoring the site on which it is located.
- (iii) As per Para 46A of Accounting Standard 11, 'The Effects of Changes in Foreign Exchange Rates', related to acquisition of depreciable assets pursuant to the notifications dated December 29, 2011 and August 9, 2012 issued by Ministry of Corporate Affairs (MCA), under the Companies (Accounting Standard) (Second Amendment) Rules 2011, the cost of depreciable capital assets includes foreign exchange differences arising on translation of long term foreign currency monetary items as at the balance sheet date in so far as they relate to the acquisition of such assets is capitalised and subsequently on adoption of Indian Accounting Standard also the same is allowed for the transactions recorded upto March 31, 2016.
- (iv) On transition to Ind AS, the Company has elected the option of fair value as deemed cost for certain Land and Buildings and Plant and Machinery, as on the date of transition. Other Tangible Assets are restated retrospectively.
- (v) In accordance with Ind AS, the Company has fair valued certain Properties, Plant and Equipment as on April 1, 2015 using the following approach: Real Estate Assets of the Company have been fair valued adopting a combination of all the three approaches viz market, income and cost approach. Land is valued using replacement cost approach, certain buildings are valued using income approach and other buildings and improvements are fair valued using cost approach. CDMA Electronics have been fair valued using replacement cost approach.
- (vi) Depreciation is provided on Straight Line Method based on the useful life prescribed in Schedule II to the Act except in case of the following assets where useful life is different than those that are prescribed in Schedule II, based on technical evaluation.
 - (1) Telecom Electronic Equipments – 20 years
 - (2) Optic Fibre Cable – 35 years
 - (3) Batteries – 9 years
 - (4) Customer Premises Equipments (CPE) – 3 years
 - (5) Vehicles – 5 years
- (vii) Leasehold Land is depreciated over the period of the lease term.
- (viii) Any gain or loss on disposal of an item of property, plant and equipment is recognised in statement of profit and loss.
- (ix) Depreciation methods, useful lives and residual values are reviewed periodically at each reporting date and adjusted prospectively if appropriate.
- (x) Depreciation on all the assets capitalised pursuant to para 46A of AS 11 is provided over the remaining useful life of the depreciable capital asset.
- (xi) Depreciation on additions is calculated pro rata from the following month of addition.
- (xii) Expenses incurred relating to project, prior to commencement of commercial operations, are considered as project development expenditure and shown under Capital Work in Progress.

1.05 Intangible Assets

- (i) Intangible assets acquired are measured on initial recognition at cost. Cost includes all direct costs relating to acquisition of Intangible assets and borrowing cost relating to qualifying assets.
- (ii) Telecom Licenses are stated at cost as applicable less accumulated amortisation less impairment, if any.
- (iii) Indefeasible Rights of Connectivity (IRC) are stated at cost less accumulated amortisation.

Notes on Accounts to Financial Statements

- (iv) Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.
- (v) Intangible assets, namely Entry Fees/ fees for Telecom Licenses and Brand License are amortised on the basis of Straight Line Method, over the balance period of Licenses. IRC and Software are amortised from the date of acquisition or commencement of commercial services, whichever is later.
- (vi) There are no intangible assets assessed with indefinite useful life. The life of amortisation of the intangible assets is as follows.
 - (1) Telecom Licenses – 12.5 to 20 years
 - (2) Brand License – 10 years
 - (3) Indefeasible Right of Connectivity – 15 / 20 years
 - (4) Software – 5 years
- (vii) Amortization methods useful life and residual values are reviewed periodically at each reporting period.
- (viii) Any gain or loss on disposal of an item of Intangible Assets is recognised in statement of profit and loss.
- (ix) On transition to Ind AS, the Company has elected the option of fair value as deemed cost for certain Telecom Licenses. Telecom Licenses have been fair value using market approach. Other Intangible Assets are restated retrospectively

1.06 Lease

- (i) In respect of Operating Leases, lease rent is expensed on Straight Line basis with reference to the term of lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases and except for lease rent pertaining to the period upto the date of commencement of commercial operations, which is capitalised.

Where the lessor effectively retains substantially all risks and benefits of the ownership of the leased assets, lease is classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss.

- (ii) In respect of Finance Leases, the lower of the fair value of the assets and present value of the minimum lease rentals is capitalised as PPE with corresponding amount shown as the liabilities for the leased assets. The principal component in lease rental in respect of the above is adjusted against the liabilities for the leased assets and interest component is recognised as an expense in the year in which the same is incurred except in case of the assets used for capital projects where it is capitalised.

1.07 Impairment of Non Financial Assets

Intangible assets that have an indefinite useful life are tested annually for impairment or more frequently if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is increased/ reversed where there has been change in the estimate of recoverable value. The recoverable value is the higher of the assets' net selling price and value in use.

1.08 Inventories of Stores and Spares

Inventories of stores and spares are accounted for at cost and all other costs incurred in bringing the inventory to their present location and condition, determined on weighted average basis or net realizable value, whichever is less. Net realizable value is the estimated selling price in the ordinary course of business less estimated costs necessary to make the sale.

1.09 Employee Benefits

Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits. These benefits include compensated absences such as paid annual leave and sickness leave. The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by the employees are recognised as an expense during the period.

Notes on Accounts to Financial Statements

Long term employee benefits

(i) Defined contribution plan

The Company's contribution towards Employees' Superannuation Plan is recognised as an expense during the period in which it accrues.

(ii) Defined benefit plans

Provident Fund

Provident Fund contributions are made to a Trust administered by the Trustees. Interest payable to the Provident Fund members, shall not be at a rate lower than the statutory rate. Liability is recognised for any shortfall in the income of the fund vis-à-vis liability of the interest as per statutory rates to the members. The Company's contribution towards Employees' Provident Fund is recognised as an expense during the period in which it accrues.

Gratuity Plan

The Company's gratuity benefit scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their services in the current and prior periods; that benefit is discounted to determine its present value, mortality rate and the fair value of plan assets is deducted. Mortality rate is based on publicly available mortality table in India.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method.

Obligation is measured at present value of the estimated future cash flows. Discount rates used for determining present value of obligation under the defined benefit plan, are based on market yield of Government Securities as at the balance sheet date that have terms approximating to the terms of the related obligation.

Remeasurement which comprise of actuarial gain and losses, the return of plan assets (excluding interest) and the effect of asset ceiling (if any, excluding interest) are recognised in OCI.

Plan Assets of Defined Benefit Plans have been measured at fair value.

(iii) Other Long term employment benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the defined benefit obligation at the balance sheet date, determined based on actuarial valuation using Projected Unit Credit Method. Discount rates used for determining the present value of the obligation under the defined benefit plan, are based on the market yields of Government Securities as at the Balance Sheet date. Remeasurement gain and losses is recognised in the Statement of Profit and Loss in the period in which they arise.

1.10 Borrowing Cost

Borrowing costs attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets upto the commencement of commercial operations. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. Other borrowing costs are recognised as an expense in the year in which they are incurred.

1.11 Foreign Currency Transactions

- (i) Transactions denominated in foreign currencies are recorded at the exchange rates prevailing at the time of the transaction.
- (ii) Monetary items denominated in foreign currencies at the year end are restated at the year end rates.
- (iii) Non Monetary foreign currency items are carried at cost (i.e. translated using the exchange rates at the time of initial transactions).
- (iv) Exchange difference on monetary items is recognised in the Statement of Profit and Loss in the period in which they arises except for;
 - (a) Exchange difference on foreign currency borrowings relating to depreciable capital asset is included in cost of assets.

Notes on Accounts to Financial Statements

- (b) Exchange difference on foreign currency transactions, on which receipt and/ or payments is not planned, initially recognised in OCI and reclassified from equity to profit and loss on repayment of the monetary items.
- (v) All long term foreign currency monetary items consisting of loans taken before March 31, 2016 and which relate to the acquisition of depreciable capital assets at the end of the period/ year are restated at the rate prevailing at the balance sheet date. Exchange difference including attributable to the interest arising as a result is added to or deducted from the cost of the assets as per notification dated December 29, 2011 and August 9, 2012 issued by the Ministry of Company Affairs (MCA), Government of India and depreciated over the balance life of the capital asset. Exchange difference on other long term foreign currency loans is accumulated in "Foreign Currency Monetary Item Translation Difference Account (FCMITDA)" which will be amortized over the balance period of monetary assets or liabilities.

1.12 Revenue Recognition

- (i) Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.
- (ii) Revenue is recognised as and when the services are provided on the basis of actual usage of the Company's network. Revenue on upfront charges for services with lifetime validity and fixed validity periods are recognised over the estimated useful life of the subscribers and specified fixed validity period, as appropriate. The estimated useful life is consistent with estimated churn of the subscribers.
- (iii) The Company sells rights of use (ROUs) that provide to the customers with network capacity, typically over a period of 5 to 20 years without transferring legal title or giving an option to purchase network capacity. Capacity services revenues are accounted as operating lease and recognised in the Company's income statement over the life of the contract. Bills raised on the customers/ payments received from the customers for long term contracts and for which revenue is not recognised are included in deferred revenue. Revenue on non cancellable ROUs are recognised as licensing income over the period of the contract
- (iv) Interest income on investment is recognised on time proportion basis. Interest income is accounted using the applicable Effective Interest Rate (EIR), which is the rate that exactly discounts estimated future cash receipts over the expected life of the financial assets to that asset's net carrying amount on initial recognition. Dividend is considered when right to receive is established. The Company recognises income from the units in the Fixed Income Schemes of Mutual Funds where income accrued is held till declaration or payment thereof for the benefit of the unit holders.

1.13 Taxes on Income and Deferred Tax

Income Tax comprises of current and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent that it relates to a business combination or to an item recognised directly in equity or OCI.

Provision for income tax is made on the basis of taxable income for the year at the current rates. Tax expense comprises of current tax and deferred tax at the applicable enacted or substantively enacted rates. Current tax represents amount of Income Tax payable/ recoverable in respect of taxable income/ loss for the reporting period. Deferred tax represents the effect of temporary difference between carrying amount of assets and liabilities in the financial statement and the corresponding tax base used in the computation of taxable income. Deferred tax liabilities are generally accounted for all taxable temporary differences. Deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which such deductible temporary differences can be utilised.

MAT (Minimum Alternate Tax) is recognized as an asset only when and to the extent it is probable evidence that the Company will pay normal income tax and will be able to utilize such credit during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset, the said asset is created by way of a credit to the Statement of Profit and loss and is included in Deferred Tax Assets. The Company reviews the same at each balance sheet date and if required, writes down the carrying amount of MAT credit entitlement to the extent there is no longer probable that Company will be able to absorb such credit during the specified period.

1.14 Government Grants

Subsidies granted by the Government for providing telecom services in rural areas are recognised as other operating income in accordance with relevant terms and conditions of the scheme and agreement.

1.15 Provisions including Asset Retirement Obligation (ARO) and Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Provisions are determined by

Notes on Accounts to Financial Statements

discounting expected future cashflows at the pre tax rate that reflects current market assumptions of time value of money and risk specific to the liability. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Asset Retirement Obligation (ARO) relates to removal of electronics equipments when they will be retired from its active use. Provision is recognised based on the best estimate, of the management, of the eventual costs (net of recovery), using discounted cash flow, that relates to such obligation and is adjusted to the cost of such assets. Estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset. Contingent Assets are neither recognised nor disclosed in the financial statements of the Company.

1.16 Earnings per Share

In determining Earnings per Share, the Company considers net profit after tax and includes post tax effect of any exceptional item. Number of shares used in computing basic earnings per share is the weighted average number of the shares, excluding the shares owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when result will be anti - dilutive. Dilutive potential equity Shares are deemed converted as at the beginning of the period, unless issued at a later date.

1.17 Employee Stock Option Scheme

In respect of stock options granted pursuant to the Company's Employee Stock Option Scheme, fair value of the options is treated as discount and accounted as employee compensation cost over the vesting period. Employee compensation cost recognised earlier on grant of options is reversed in the period when the options are surrendered by any employee or lapsed as per the terms of the scheme.

1.18 Treasury Equity

The Company has created an Employee Stock Option Scheme Trust (ESOS Trust) for providing share-based payment to its employees. The Company uses ESOS Trust as a vehicle for distributing shares to employees under the employee remuneration schemes. The ESOS Trust buys shares of the Company from the market, for giving shares to employees. The Company treats ESOS Trust as its extension and shares held by ESOS Trust are treated as Treasury Equity.

Own equity instruments that are reacquired (Treasury Equity) are recognised at cost and deducted from equity. No gain or loss is recognised in Statement of Profit or Loss, on purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between carrying amount and consideration, if reissued, is recognised in equity.

1.19 Measurement of Fair value of financial instruments

The Company's accounting policies and disclosures require measurement of fair values for the financial instruments. The Company has an established control framework with respect to measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses evidence obtained from third parties to support the conclusion that such valuations meet the requirements of Ind AS, including level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If inputs used to measure fair value of an asset or a liability fall into different levels of fair value hierarchy, then fair value measurement is categorised in its entirety in the same level of fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to note 2.42.1) for information on detailed disclosures pertaining to the measurement of fair values."

1.20 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign exchange forward contracts.

Notes on Accounts to Financial Statements

Financial Assets

(i) Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through Statement of Profit and Loss, transaction costs that are attributable to the acquisition of the financial asset.

(ii) Subsequent measurement

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

Financial Assets measured at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) Asset is held within a business model whose objective is to hold assets for collecting contractual cash flows.
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. EIR amortisation is included in finance income in the Statement of Profit and Loss. Losses arising from impairment are recognised in the Statement of Profit and Loss. This category generally applies to trade and other receivables.

Financial Assets measured at fair value through other comprehensive income (FVTOCI)

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets.
- b) The contractual cash flows of the assets represent SPPI: Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in Other Comprehensive Income is reclassified from the equity to Statement of Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Financial Assets measured at fair value through profit or loss (FVTPL)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch')

Equity investments

All equity investments in scope of Ind-AS 109, "Financial Instruments" are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition which is irrevocable. If the company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the Other Comprehensive Income. There is no recycling of the amounts from Other Comprehensive Income to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

Also, Company has elected to apply the exemption available under Ind AS 101 to continue the carrying value for its investments in subsidiaries and associates as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP as at the date of transition"

Derecognition of Financial Assets

A financial asset is primarily derecognised when: a) Rights to receive cash flows from the asset have expired, or b) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either(a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of Financial Assets

The Company assesses on a forward looking basis the Expected Credit Losses (ECL) associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in the credit risk. In case of significant increase in credit risk, life time ECL is used; otherwise twelve month ECL is used. As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. Provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

Financial Liabilities

i Initial recognition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

ii Subsequent measurement

The measurement of financial liabilities depends on their classification, as described herein:

Financial liabilities at fair value through Profit or Loss: Financial liabilities at fair value through Profit or Loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Financial Liabilities measured at amortised cost: After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in Statement of Profit and Loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

Derecognition of Financial Liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

(ii) Other Equity/ Net Profit/ (Loss) before Other Comprehensive Income (OCI) under Ind AS	26,206	28,534	(379)	

The Company has applied the following exemptions, available under Ind AS 101, for retrospective applications at the time of first time adoption of Ind AS.

Notes on Accounts to Financial Statements

Investments in Subsidiaries and Associates: The Company has elected to apply carrying amount of its investment in subsidiaries and associates as per the previous GAAP as the deemed cost on the date of transition to Ind AS.

Long Term Foreign Currency Monetary Items: The Company has opted to apply the Ind AS 101 exemption and continued with the policy adopted under Previous GAAP for accounting of exchange differences arising from translation of long term foreign currency monetary items recognised in the financial statements upto March 31, 2016.

Deemed cost: In respect of Property, Plant and Equipment and Intangible Assets, certain assets have been fair valued and other assets have been retrospectively restated under Ind AS.

The following mandatory exceptions have been applied in accordance with Ind AS 101 "First Time Adoption of Ind AS":

Derecognition of financial assets and liabilities: The Company has elected to apply derecognition requirements for financial assets and liabilities under Ind AS 109 "Financial Instruments" prospectively for transactions occurring on or after the date of transition to Ind AS.

Estimates: Upon an assessment of the estimates made under Previous GAAP, the Company has concluded that there was no necessity to revise such estimates under Ind AS except as a part of transition where following estimates were required by Ind AS and not required by Previous GAAP: - Impairment of financial assets based on expected credit loss model.

Classification and measurement of financial assets: The Company has classified the financial assets in accordance with Ind AS 109 'financial instrument' on the basis of facts and circumstances that exist on the date of transition to Ind AS.

Notes to reconciliation:

- (b) The Company has elected the option of adopting fair value as deemed cost for certain Land and Buildings, Plant and Machinery and Intangibles, as on the date of transition to Ind AS. Other Assets were restated retrospectively. This has resulted in, net increase in the value of Land and Buildings by ₹ 329 crore and net decrease in value of Plant and Machinery by ₹ 3,227 crore Intangibles being CDMA (Telecom) Spectrum by ₹ 2,404 crore resulting in net decrease in retained earnings by ₹ 5,302 crore and consequent decrease in depreciation for the year ended by ₹ 5 crore
- (c) Fair valuation impact of borrowings and deposits/ advances etc. has been accounted considering net present value on transition date. Corresponding reduction of profitability by ₹ 18 crore for the year.
- (d) Increase in provision for trade receivable assessed considering future economic benefits and/or collection expected to flow to the Company over the period of time due to the conditions existing prior to the date of transition has been accounted on the transition date, leaving consequent impact on profitability for the year.
- (e) Deferred Taxes are computed and recognised for temporary differences between carrying amount of an asset and liability in the balance sheet and tax base and consequent impact has been recognised in the statement of profit and loss.
- (f) The Company has changed the policy regarding revenues accounted upfront to accounting over the period of Contract as required under Ind As, impacting reduction in Equity by ₹ 218 crore. Consequently revenue and license fee has increased by ₹ 18 crore and ₹ 1 crore respectively.
- (g) Other Ind AS Adjustments includes net reduction in Equity by ₹ 387 crore for consolidation of RCOM ESOS Trust as required under Ind AS and disclosed as Treasury Equity.
- (h) Other Comprehensive income comprises of actuarial gain and losses on employee benefits.

Statement of Cash flows: The transition from Indian GAAP to Ind AS has no material impact on the statement of cash flows. The reconciliation of Cash and Cash Equivalents is as under: (₹ in crore)

	As at March 31, 2016	As at April 1, 2015
Cash and Cash Equivalents under previous GAAP	138	527
Less: Bank overdraft	200	275
Less: Earmarked Balances - Unpaid Dividend	7	8
Cash and Cash Equivalents under Ind AS	(69)	244

Note:2.35

(v) Spectrum Charges

DoT has, during the earlier years, issued demand on the Company for ₹ 1,758 crore towards levy of one time Spectrum Charges, being the prospective charges for holding CDMA spectrum beyond 2.5 MHz for the period from January 1, 2013 till the expiry of the initial terms of the respective Licenses. Based on a petition filed by the Company, the Hon'ble High Court of Kolkata, vide its order dated February 14 and April 19, 2013 has stayed the operation of such impugned demand till further order. The Company is of the view that the said demand, inter alia, is an alteration of financial terms of the licenses issued in the past and has also been advised so legally. Accordingly, no provision in this regard is required.

(vi) License Fees and Special Audit

Pursuant to the Telecom License Agreement, DoT directed audit of various Telecom companies including of the Company. The Special Auditors appointed by DoT were required to verify records of the Company for the years ended March 31, 2007 and March 31, 2008 relating to license fees and revenue share. The Company has received show cause notice dated January 31, 2012 and subsequently, received demand note dated November 8, 2012 based on report of the Special Audit directed by DoT relating to alleged shortfall of license fees of ₹ 300 crore and interest thereon as applicable. The Company has challenged the said notices, inter alia demanding license fee on non telecom revenue based on Special Audit Report before the Hon'ble Telecom Disputes Settlement and Appellate Tribunal (TDSAT) and also before the Hon'ble High Court of Kerala. The impugned demand has been stayed by Hon'ble High Court of Kerala during the pendency of the Petition. Meanwhile, Hon'ble TDSAT vide its judgement dated April 23, 2015 has set aside all License fee related demands and directed DoT to rework the license fees payable by the operators for the past periods, in light of the findings, observations and directions made in the said judgement and to issue fresh demands, which the operators will pay within the time prescribed under the law. DoT has challenged the said TDSAT judgement in Hon'ble Supreme Court and has not revised/raised any fresh demand. The matter is pending before Hon'ble Supreme Court, though Hon'ble Supreme Court vide its order dated February 29, 2016 allowed DoT to raise demand as per its understanding but not to enforce the same till the appeals are finally decided by the Supreme Court. As per the judgement of Hon'ble TDSAT dated April 23, 2015 which is operative as on date and other judicial pronouncements directly applicable to the issues of License fee dues raised by Special Auditors, there shall not be any liability of License fee and hence, no provision is required in the accounts of the Company.

2.42.1 Financial Instruments

The fair value of financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between the willing parties, other than in a forced or liquidation sale.

The following methods and assumptions have been used to estimate the fair values:

Fair value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to the short term maturities of these instruments

Financial Instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rate and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for the expected losses of these receivables.

Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

There is no fair valuation of financial instruments.

The carrying values of the financial instruments by categories were as follows:

2.42.2 Financial Risk Management Objectives and Policies

Activities of the Company expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance.

The Company's financial liabilities comprise of borrowings, trade payable and other liabilities to manage its operation and the financial assets include trade receivables, deposits, cash and bank balances, other receivables etc. arising from its operation.

The Company has constituted a Risk Management Committee consisting of majority of the directors and senior managerial personnel. The Company has a robust Business Risk Management framework to identify, evaluate business risks and opportunities. This framework seeks to create transparency, minimize adverse impact on the business objectives and enhance competitive advantage. It defines the risk management approach across the enterprise at various levels including documentation and reporting and contains different risk models, which help in identifying risks trend, exposure and potential impact analysis at the Company level as also separately for the business segments.

The Company has instituted a self governed framework based on identification of potential risk areas, evaluation of risk intensity, and clear- cut risk mitigation policies, plans and procedures, both at the enterprise and operating levels. The framework seeks to facilitate a common organisational understanding of the exposure to various risks and uncertainties at an early stage, followed by timely and effective mitigation. This framework is reviewed at periodic intervals.

Financial risk management

The Company's business activities expose it to a variety of financial risks, namely liquidity risk, market risks and credit risk.

Risk	Exposure arising from	Measurement	Management
Credit Risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost	Ageing analysis	Diversification of bank deposits, letters of credit
Liquidity Risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk – foreign exchange	Recognised financial assets and liabilities (₹) not denominated in Indian rupee	Sensitivity analysis	Un hedged
Market risk – interest rate	Long-term borrowings at variable rates	Sensitivity analysis	Un hedged
Market risk– price risk	Unquoted investment in equity shares of subsidiaries – not exposed to price risk fluctuations	-	-

Market risk

The Company also operates internationally and hence, a portion of the business is transacted in several currencies. Consequently, the Company is exposed to foreign exchange risk to the extent that there is mismatch between the currencies in which its sales and services, purchases from overseas suppliers and borrowings in various foreign currencies. Market Risk is the risk that changes in market prices such as foreign exchange rates, interest rates will affect income or value of its holding financial assets/ instruments. The exchange rate between rupee and foreign currencies has changed substantially in recent years and may fluctuate significantly in the future.

As a result operations of the Company are adversely affected as rupee appreciates/ depreciates against US Dollar.

Notes on Accounts to Financial Statements

Sensitivity Analysis

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments as mentioned below.

	(₹ in crore)	
Movement in Exchange Rate	For the year ended March 31, 2017	For the year ended March 31, 2016
Impact of 2% increase in exchange rate of USD INR	(287)	(353)
Impact of 2% increase in exchange rate of EURO INR	3	3

If exchange rate is favourably affected with decrease by 2%, loss shall also accordingly be affected.

Interest Rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates, in cases where the borrowings are measured at fair value through profit or loss. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

Exposure to Interest Rate Risk

Interest rate risk of the Company arises from borrowings. The Company endeavor to adopt a policy of ensuring that maximum of its interest rate risk exposure is at fixed rate. The Company's interest-bearing financial instruments are reported as below:

	(₹ in crore)		
	As at March 31, 2017	As at March 31, 2016	As at April 1, 2015
Fixed Rate Instruments			
Financial Assets	7,559	8,138	8,566
Financial Liabilities	8,302	8,093	5,000
Variable Rate Instruments			
Financial Assets	3,496	1,201	6,975
Financial Liabilities	29,903	28,083	26,751

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would increase/ (decrease) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

	(₹ in crore)	
Impact on profit/ (loss)/ equity	For the year ended March 31, 2017	For the year ended March 31, 2016
Impact of increase in interest rate by 100 basis point	(264)	(269)

If interest rate is positively affected with i.e. decrease by 100 basis point, loss shall also accordingly be affected.

The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and is calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

Derivative financial instruments

The Company does not hold derivative financial instruments

The Company offsets financial asset and financial liability when it currently has a legally enforceable right to set off the recognized amounts and the Company intends either to settle on a net basis or realise the asset and settle the liability simultaneously.

Credit risk

Credit risk refers to the risk of default on its obligation by the customer/ counter party resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is carrying value of respective financial assets.

Notes on Accounts to Financial Statements

Trade receivables and unbilled revenue are typically unsecured and are derived from revenue earned from the customers. Credit risk has always been managed by each business segment through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business. On account of adoption of Ind AS 109, the Company uses expected credit loss (ECL) model to assess the impairment loss or gain. ECL methodology depends on whether there is any significant increase in credit risk. In case of significant increase in credit risk, life time ECL is used; otherwise twelve month ECL is used. The Company uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. The provision matrix takes into account available external and internal credit risk factors such as default risk of industry, credit default swap quotes, credit ratings from international credit rating agencies and historical experience for the customers.

Credit risk on cash and cash equivalents is limited as the Company generally invests in deposits with banks and financial institutions with high credit ratings assigned by international and/or domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units, quoted bonds issued by Government and Quasi Government organizations and certificates of deposit which are funds deposited at a bank for a specified time period.

Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. Competitive intensity has adversely impacted revenue and consequent cash accruals during the year. This, coupled with current level of debt and imminent repayment obligations, has lead to stress on liquidity profile. The Company closely monitors its liquidity position and is attempting to enhance its sources of funding by increasing cash flow generated from its operations and realisations from other proposed measures.

Liquidity risk is the financial risk that is encountered due to uncertainty resulting in difficulty in meeting its obligations. An entity is exposed to liquidity risk if markets on which it depends are subject to loss of liquidity for any reason; extraneous or intrinsic to its business operations, affecting its credit rating or unexpected cash outflows. A position can be hedged against market risk but still entail liquidity risk.

Prudence requires liquidity risk to be managed in addition to market, credit and other risks as it has tendency to compound other risks. It entails management of asset, liabilities focused on a medium to long-term perspective and future net cash flows on a day-by-day basis in order to assess liquidity risk.

Current and prospective liquidity risk is encountered when the Company is required to meet its obligations. The Company's approach to managing liquidity, that it will have sufficient cash and financial assets to meet its obligations and collateral needs, both expected and unexpected, under normal and stressed conditions, without incurring unacceptable losses. Dynamic nature of the underlying businesses necessitates that the treasury function ensures flexibility in funding by maintaining adequate working capital and availability under committed credit lines, for uninterrupted business operations. Existing operations of the Company are primarily funded through long term loans and advances. The Company is seeking to maintain/ enhance the level of working capital credit lines, so that operations are performed at optimum level.

Periodic budgets and rolling forecasts are prepared at the level of operating subsidiaries as regular practice and in accordance with limits specified by the Company. 49% of the total debt will be payable in less than one year i.e. during the financial year ended as at March 31, 2018. Apart from this, there is an outstanding principal of ₹ 18,738 crore and interest as applicable thereon payable to the lenders. The Company believes that working capital credit lines need significant enhancement pending infusion of funds from the proposed strategic transactions/ sale of assets and rolling over of loans with existing lenders.

Note 2.46

Corporate Social Responsibility

The Company is not required to spend towards Corporate Social Responsibility (CSR) as per Section 135 of the Companies Act, 2013, since there is no average profit in the last 3 years calculated as per the provisions of the Act.

Note 2.47

Employee Benefits

Gratuity: In accordance with the applicable Indian laws, the Company provides for the gratuity, a defined benefit retirement plan (Gratuity Plan) for all employees. The Gratuity Plan provides a lump sum payment to vested employees, at retirement or termination of employment, an amount based on respective employee's last drawn salary and for the years of employment with the Company.

The gratuity plan is governed by the Payment of Gratuity Act, 1972 (Gratuity Act). The Company is bound to pay the statutory minimum gratuity as prescribed under Gratuity Act. There are no minimum funding requirements for a gratuity plan in India. The Company's philosophy is to fund the benefits based on its own liquidity and tax position as well as level of underfunding of the plan vis-à-vis settlements. The management is responsible for the overall governance of the plan. The management has outsourced the investment management of the fund to insurance company which in turn manages these funds as per the mandate provided to them by the trustees and applicable insurance and other regulations.

The Company operates its gratuity and superannuation plans through separate trusts which is administered and managed by the Trustees. As on March 31, 2017 and March 31, 2016, the contributions towards superannuation plans have been invested in Insurer Managed Funds.

The plan is in the nature of a defined benefit plan which is sponsored by the Company and hence it underwrites all the risks pertaining to the plan. In particular, there is a risk for the Company that any significant change in salary growth or demographic experience or inadequate returns on underlying plan assets can result in an increase in cost of providing these benefits to employees in future.

The defined benefit plan exposes the Company to actuarial risks such as longevity risks, interest risk and market (Investment) risk.

2.50 Employee Stock Option Schemes

The Company operates two Employee Stock Option Plans; ESOS Plan 2008 and ESOS Plan 2009, which cover eligible employees of the Company and its Subsidiaries. ESOS Plans are administered through an ESOS Trust. The Vesting of the Options is on the expiry of one year from the date of Grant as per Plan under the respective ESOS(s). In respect of Options granted, the accounting value of Options (based on market price of the share on the date of the grant of the Option) is accounted as deferred employee compensation, which is amortised on a straight line basis over the Vesting Period. Each Option entitles the holder thereof to apply for and be allotted/ transferred one Equity Share of the Company of ₹ 5 each upon payment of the Exercise Price during the Exercise Period. The maximum Exercise Period is 10 years from the date of Grant of Options.

Notes on Accounts to Financial Statements

The Company has established a Trust for the implementation and management of ESOS Plans for the benefit of its present and future employees. Advance of ₹ 387 crore (₹ 387 crore as on March 31, 2016 and as on April 1, 2015) has been granted to the Trust and the said amount has been utilised by the Trust for purchasing 2.13 crore (2.13 crore as on March 31, 2016 and as on April 1, 2015) Equity Shares during the period upto March 31, 2017. The fall in the value of these underlying shares on account of market volatility and the loss, if any, can be determined only at the end of the exercise period under ESOS Scheme.

Amortization of compensation includes write back of ₹ 3,27,600 (₹ 13,09,300 as on March 31, 2016 and ₹ 2 crore as on April 1, 2015) based on intrinsic value of Options which has been vested under ESOS Plan 2008 and reflected in Statement of Profit and Loss under Employees Benefits Expenses. No amount is chargeable in respect of Options granted under ESOS Plan 2009.

Particulars	Employees Stock Option Plans			
	ESOS Plan 2008		ESOS Plan 2009	
	Number of Options	Weighted average exercise price (₹)	Number of Options	Weighted average exercise price (₹)
Number of Options Outstanding at the beginning of the year	52,798	422	6,49,642	206
Number of Options granted	Nil	-	Nil	-
Total number of Options surrendered	Nil	-	Nil	-
Number of Options vested during the year	Nil	-	Nil	-
Total number of Options exercised	Nil	-	Nil	-
Total number of Options forfeited/ lapsed	4,674	471	96,188	206
Number of Options outstanding at the end of the year	48,124	417	5,53,454	206

The weighted average remaining contractual life for the share options outstanding as at March 31, 2017 was 2.94 years (March 31, 2016: 2.60 years)

If the entity would have estimated fair value computed on the basis of Black Scholes pricing model, the compensation cost for the year ended March 31, 2017 for ESOS Plan 2008 and ESOS Plan 2009 would have been ₹ 0.35 crore and ₹ 1.22 crore respectively. The key assumptions used to estimate the fair value of options are given below.

Particulars	ESOS Plan 2008	ESOS Plan 2009
Risk-free interest rate	6.36%	6.56%
Expected life	1 year	2 years
Expected volatility	42.22%	42.22%
Expected dividend yield	0.02%	0.07%
Price of the underlying share in market at the time of option grant	₹ 541	₹ 174

The expected life of the share options is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may not necessarily be the actual outcome.

Note 2.51 Post Reporting Events

No adjusting or significant non-adjusting events have occurred between the reporting date and the date of authorisation.

Independent Auditor's Report on Consolidated Ind AS Financial Statement

To The Members of Reliance Communications Limited

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of Reliance Communications Limited (hereinafter referred to as 'the Holding Company'), its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group') and its associates which comprise the Consolidated Balance Sheet as at 31 March 2017, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in sub-section 5 of Section 134 of the Companies Act, 2013 ('the Act') with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and statement of changes in equity of the Group including its associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder. The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associates for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements of the subsidiaries as noted below, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associates, as at 31 March 2017, and their consolidated loss (financial performance including other comprehensive income), their consolidated cash flows and consolidated statement of changes in equity for the year ended on that date.

Emphasis of Matters

- a. We draw attention to note 2.39.1 (v) of the consolidated Ind AS financial statements regarding the Scheme of Arrangement ('the Scheme') sanctioned on 03 July 2009 by the Hon'ble High Court of Judicature at Mumbai, the Holding Company is permitted to adjust additional depreciation/ amortisation, expenses and/ or losses, which have been or are required to be debited to the Statement of Profit and Loss by a corresponding withdrawal or credit from/ to General Reserve, as determined by the Board of Directors. During the year, the Holding Company has withdrawn ₹ 1,205 crore (previous year ₹ 1,190 crore) to offset additional depreciation/ amortisation on account of fair valuation of certain assets which may be considered to override the relevant provisions of Schedule II of the Act and Indian Accounting Standard 8 (Ind AS 8) 'Accounting Policies, Changes in Accounting Estimates and Errors'.
- b. We draw attention to note 2.45 of the consolidated Ind AS financial statements regarding the Schemes of Arrangement ('the Schemes') sanctioned by the Hon'ble High Court of Judicature at Mumbai, which permit the Holding Company and two of its subsidiaries, namely, Reliance Communications Infrastructure Limited ('RCIL') and Reliance Infratel Limited ('RITL') to adjust expenses and/or losses identified by the respective Board of the Holding Company and its two subsidiaries, which are

Independent Auditor's Report on Consolidated Ind AS Financial Statement

required to be debited/credited to the Statement of Profit and Loss by a corresponding withdrawal or credit from/to General Reserve, which is considered to be an override to the relevant provisions of Ind AS 8.

The Holding Company and its two subsidiaries have identified exchange variations incurred during the year of ₹ 9 crore (previous year ₹ 42 crore), depreciation on exchange losses capitalised of ₹ 467 crore (previous year ₹ 505 crore) and amortisation of Foreign Currency Monetary Items Translation Difference Account (FCMITDA) of ₹ 238 crore (previous year ₹ 424 crore), as in the opinion of the respective Board, such exchange variations are considered to be of an exceptional in nature and accordingly, these expenses have been met by corresponding withdrawal from General Reserve. Our opinion is not qualified in respect of this matter.

Had such write off of depreciation/ amortisation and exchange loss, as mentioned in paragraphs (a) and (b) above, not been met from General Reserve, the Group and its associates would have reflected a loss after tax for the year of ₹ 3,202 crore (previous year ₹ 1,499 crore).

- c. As stated in note 2.19.4 of the consolidated Ind AS financial statements, pending formal confirmation by the lenders for waiver of certain loan covenants, the loan amount has been continued to be classified as non-current liabilities.

Our opinion is not modified in respect of the above matters.

Other Matters

- a. The Holding Company has computed goodwill on consolidation by comparing the cost of investments with the equity of subsidiaries as on date on which investments were made by Reliance Industries Limited ('the transferor company') prior to demerger instead of considering the date of demerger as the date of investment.
- b. We did not audit the Ind AS financial statements of certain subsidiaries whose Ind AS financial statements reflect total assets of ₹ 23,064 crore, as at 31 March 2017, total revenue of ₹ 5,179 crore and net cash outflows amounting to ₹ 78 crore for the year ended on that date, as considered in the preparation of the consolidated Ind AS financial statements. The Ind AS financial statements of these subsidiaries have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of such other auditors.
- c. The consolidated Ind AS financial statements include Ind AS financial statements of certain subsidiaries which reflect total assets of ₹ 16,799 crore as at 31 March 2017 and total revenues of ₹ 6,160 crore and net cash outflows amounting ₹ 21 crore for the year ended on that date. The Ind AS financial statements of these subsidiaries, have been audited by M/s Pathak H.D. & Associates, Chartered Accountants, one of the joint auditors of the Company.

- d. We did not audit the Ind AS financial statements of certain subsidiaries considered in the preparation of the consolidated Ind AS financial statements, whose Ind AS financial statements reflects total assets of ₹ 5,354 crore as at 31 March 2017, total revenue of ₹ 418 crore and net cash inflows amounting to ₹ 13 crore for the year ended on that date. We also did not audit the financial statements of two associates considered in the consolidated Ind AS financial statements, whose Ind AS financial statements reflect Group's share of net profit of ₹ 3 crore for the year ended 31 March 2017.

These unaudited Ind AS financial statements are approved by the respective Board of Directors of these subsidiaries and associates have been furnished to us by the management and our opinion on the consolidated financial statements in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associates and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on such board approved unaudited Ind AS financial statements.

The comparative financial information of the Company for the year ended 31 March 2016 and the transition date opening Balance Sheet as at 1 April 2015 included in these consolidated Ind AS financial statements, are based on the statutory financial statements prepared in accordance with the Companies (Accounting Standards) Rules, 2006 and other accounting principles generally accepted in India audited by BSR & Co. LLP, Chartered Accountant (one of the joint auditors) and Chaturvedi & Shah, Chartered Accountants (predecessor joint auditor), whose report for the year ended 31 March 2016 and 31 March 2015 dated 30 May 2016 and 29 May 2015 respectively expressed an unmodified opinion on those consolidated financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS, which have been audited to the extent applicable by BSR & Co. LLP, Pathak H.D & Associates and Other auditors as referred in para 'b' and 'c' of Other Matters.

Our opinion on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and financial statements certified by the management.

Report on Other Legal and Regulatory Requirements

As required by sub-section (3) of Section 143 of the Act, based on our audit and on the consideration of the reports of the other auditors on the separate financial statements of subsidiaries, as noted in the 'Other Matters' paragraph, we report, to the extent applicable that:

- (a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements;
- (b) in our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated Ind AS financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;

Independent Auditor's Report on Consolidated Ind AS Financial Statement

- (c) the Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flow and Consolidated Statement of Changes in Equity dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements;
- (d) in our opinion, the aforesaid consolidated Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act read with relevant rules issued thereunder; read with Emphasis of Matter paragraph above, regarding exercise of option available as per the Court Order which overrides the requirements of Ind AS 8;
- (e) on the basis of the written representations received from the directors of the Holding Company and its subsidiaries incorporated in India as on 31 March 2017, taken on record by the Board of Directors of the Holding Company and the reports of the auditors of its subsidiaries incorporated in India, none of the directors of the Holding Company and its subsidiaries incorporated in India is disqualified as on 31 March 2017 from being appointed as a Director in terms of sub-section 2 of Section 164 of the Act;
- (f) based on the comments in the auditors' reports of the Holding Company and the subsidiaries incorporated in India, we give in "Annexure A", our report on the adequacy of the internal financial reporting and the operative effectiveness of such controls;
- (g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 as amended by notification no. G.S.R. 307(E) issued by MCA dated 30 March 2017, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements of subsidiaries, as noted in the 'Other Matters' paragraph:
- i. The consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated financial position of the Group – Refer note 2.41 to the consolidated financial statements.
 - ii. The Group and its associates did not have any material foreseeable losses on long-term contracts including derivative contracts; and
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the subsidiaries incorporated in India.
 - iv. The Holding Company and its subsidiaries incorporated in India has provided requisite disclosures in the consolidated Ind AS financial statements as regards its holding and dealings in Specified Bank Notes as defined in the Notification S.O. 3407(E) dated the 8 November, 2016 of the Ministry of Finance, during the period from 8 November, 2016 to 30 December, 2016 of the Group entities as applicable. Based on audit procedures performed and the representations provided to us by the management, we report that the disclosures are in accordance with books of accounts maintained by those entities for the purpose of preparation of the consolidated Ind AS financial statements and as produced to us and other auditors by the Management of the respective Group entities. Refer Note 2.38 to the consolidated Ind AS financial statements.

'Annexure A' to the Independent Auditor's Report - 31 March 2017

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act").

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of Reliance Communications Limited (hereinafter referred to as "the Holding Company") and its subsidiaries which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiaries which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing issued by ICAI and deemed to be prescribed under Section 143 (10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding and its subsidiaries incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiaries which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to certain subsidiaries which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Significant Accounting Policies to the Consolidated Financial Statements

Note 1

General Information and Significant Accounting Policies

1.1 General Information

Reliance Communications Limited ("RCOM" or "the Company"), founded by late Shri Dhirubhai H Ambani, is the flagship company of the Reliance Group. The Company is registered under the Companies Act, 1956, having Registered Office at H Block, 1st Floor, Dhirubhai Ambani Knowledge City, Navi Mumbai 400710 and its securities are listed on the BSE Limited and the National Stock Exchange of India Limited.

RCOM is India's foremost and truly integrated telecommunications service provider in the private sector. RCOM has established pan India, next generation, integrated (wireless and wireline), convergent (long distance, voice, data video and internet) digital network that is capable of supporting the best of class services spanning the entire communications value chain. RCOM and its subsidiaries own and operate the next generation IP enabled connectivity infrastructure, comprising of fibre optic cable systems in India, build, own and operate telecommunication towers, submarine cable network infrastructure globally and related assets at designated sites and to provide passive telecommunication infrastructure assets on a shared basis to wireless service providers and other communications service providers under long term contracts. In addition, its operation also includes managed internet data centers and direct to home digital TV services.

1.2 Principles of Consolidation

The Consolidated Financial Statements relate to the Company, all of its subsidiary companies and associates (hereinafter collectively referred to as "the Group"). The Company controls an entity when it is exposed to or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities. Interest in associates and the joint venture are accounted for using the equity method. The financial statements of entities are included in the consolidated financial statements from the date on which control commences and until the date on which control ceases. The Consolidated Financial Statements have been prepared on the following bases.

- (a) The financial statements of the Company and its subsidiaries are consolidated by combining like items of assets, liabilities, incomes and expenses and cash flows after fully eliminating intra group balances and intra group transactions resulting in unrealized profit or loss in accordance with the Indian Accounting Standard ("Ind AS") 110 "Consolidated Financial Statements" as referred to in the Indian Accounting Standards Rules, 2015 and as amended from time to time.
- (b) Investments in subsidiaries are eliminated and differences between the costs of investment over the net assets on the date of investment or on the date of the financial statements immediately preceding the date of investment in subsidiaries are recognised as Goodwill or Capital Reserve, as the case may be. Investment in associates and joint ventures are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the Consolidated Financial Statements include the Group's share of profit or loss and other comprehensive income (OCI) of equity accounted investees, until the date on which significant influence or joint control ceases. When the Group's share of loss in an equity accounted investment equals or exceeds its interest in the entity, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.
- (c) Changes in ownership interests for transactions with non controlling interests that do not result in loss of control are treated as the transactions with the equity owners of the Group. For purchases from non controlling interests, the difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

When the Group ceases to consolidate or equity account for an investment because of loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes initial carrying amount for the purpose of subsequent accounting for the retained interest as an associate, joint venture or financial asset.

- (d) Share of Non Controlling Interest in net profit or loss of consolidated subsidiaries for the year is identified and adjusted against income of the Group in order to arrive at the net income attributable to the Equity Shareholders of the Company.
- (e) Share of Non Controlling Interest in net assets of consolidated subsidiaries is identified and presented in the consolidated statement of profit or loss, consolidated statement of changes in equity and consolidated balance sheet respectively as a separate item from liabilities and the Shareholders' Equity.
- (f) The Consolidated Financial Statements are prepared using uniform Accounting Policies for like transactions and other events in similar circumstances and are presented in the same manner as far as possible, as the standalone financial statements of the Company.

Significant Accounting Policies to the Consolidated Financial Statements

1.3 Recent Accounting Developments

Standards issued but not yet effective:

In March 2017, the Ministry of Corporate Affairs (the MCA), Government of India (GoI) issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7 'Statement of Cash Flows' and Ind AS 102 'Share-based payment.'

The amendments are applicable to the Company with effect from April 1, 2017.

Amendment to Ind AS 7: Statement of Cash Flows

The amendment to Ind AS 7 requires the entities to provide disclosures that enable the users of the financial statements to evaluate changes in liabilities arising from the financing activities, including both, changes arising from cash flows and non cash changes, suggesting inclusion of a reconciliation between opening and closing balances in the balance sheet for liabilities arising from the financing activities, to meet the disclosure requirement.

Amendment to Ind AS 102: Share based payments

The amendment to Ind AS 102 provides specific guidance as to the measurement of cash settled awards, modification of cash settled awards and awards that include a net settlement feature in respect of withholding taxes. It clarifies that the fair value of cash settled awards is determined on the basis consistent with that used for equity settled awards. Market-based performance conditions and non vesting conditions are reflected in the 'fair values', but non market performance conditions and service vesting conditions are reflected in the estimate of the number of awards expected to vest. Also, the amendment clarifies that if the terms and conditions of the cash settled share based payment transactions are modified with the result that it becomes an equity settled share based payment transaction, the transaction is accounted for as such from the date of the modification.

Further, the amendment requires the award that includes the net settlement feature in respect of withholding taxes to be treated as the equity settled in its entirety. The cash payment to the tax authority is treated as if it was part of an equity settlement.

1.4 Other Significant Accounting Policies

(a) Basis of Preparation of Consolidated Financial Statements

The consolidated financial statements are prepared under historical cost convention/ fair valuation under the Scheme approved by the Hon'ble High Court, in accordance with the generally accepted accounting principles (GAAP) in India and in compliance with the Ind AS specified under Section 133 of the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, the Companies (Indian Accounting Standards) Amendment Rules, 2016 and other provisions of the Act, to the extent notified and applicable as well as applicable guidance notes and pronouncements of the Institute of Chartered Accountants of India (the ICAI).

These consolidated financial statements for the year ended March 31, 2017 are the first financial statements that the Group has prepared under Ind AS. For all periods upto and including the year ended March 31, 2016, the Group prepared its financial statements in accordance with the accounting standards notified under Section 133 of the Act, read together with Rule 7 of the Companies (Accounts) Rules, 2014 (hereinafter referred to as 'the Previous GAAP') used for its statutory reporting requirements in India immediately before adopting Ind AS.

All assets and liabilities have been classified as current or non current as per the Group's normal operating cycle and other criteria as set out under Ind AS and in the Schedule III to the Act. Based on the nature of the services and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as twelve months for the purpose of current or non-current classification of assets and liabilities.

(b) Functional Currency and Presentation Currency

These consolidated financial statements are presented in Indian Rupees ("Rupees" or "₹") which is functional currency of the Company. All amounts are rounded off to the nearest crore, unless stated otherwise.

(c) Use of Estimates

The preparation and presentation of consolidated financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities and disclosure of contingent liabilities on the date of the consolidated financial statements and the reported amount of revenues and expenses during the reporting period. Difference between actual results and estimates are recognised in the period in which the results are known/ materialised. Estimates and underlying assets are reviewed on periodical basis. Revisions to accounting estimates are recognised prospectively.

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. The Management also needs to exercise judgement in applying the accounting policies.

Significant Accounting Policies to the Consolidated Financial Statements

This note provides an overview of the areas that involved a higher degree of judgments or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Critical estimates and judgements

The Group has based assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

The areas involving critical estimates or judgements pertain to current tax expense and tax payable (Note 2.07), fair value of unlisted securities (Note 2.05), goodwill impairment (Note 2.02), estimated useful life of property, plant and equipment including intangible assets (Note 2.01 and 2.03), measurement of defined benefit obligation (Note 2.50), provision for asset retirement obligation (Note 2.22), recognition of deferred tax assets for carried forward tax losses (Note 2.07), impairment of trade receivables and other financial assets (Note 2.43). Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the group and that are believed to be reasonable under the circumstances.

- (i) Useful life of Property, Plant and Equipment including intangible assets: Residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

- (ii) Taxes : The Group provides for tax considering the applicable tax regulations and based on probable estimates.

Management periodically evaluates positions taken in the tax returns giving due considerations to tax laws and establishes provisions in the event if required as a result of differing interpretation or due to retrospective amendments, if any.

The recognition of deferred tax assets is based on availability of sufficient taxable profits in the Group against which such assets can be utilized.

- (iii) Fair value measurement and valuation process: The Group measured financial assets and liabilities if any, at fair value for financial reporting purposes.

- (iv) Trade receivables and other financial assets: The Group follows a 'simplified approach' (i.e. based on lifetime Expected Credit Loss (ECL)) for recognition of impairment of loss allowance on Trade receivables (including lease receivables). For the purpose of measuring lifetime ECL allowance for trade receivables, the Group estimates irrecoverable amount based on the ageing of the receivable balances and historical experience. Further, a large number of minor receivables are grouped into homogeneous groups and assessed for impairment collectively. Individual trade receivables are written off when management deems them not to be collectable.

- (v) Defined benefit plans (gratuity benefits) : The Group's obligation on account of gratuity and compensated absences is determined based on actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual development in the future. These include determination of the discount rate, future salary increase and mortality rates. Due to the complexities involved in the valuation and its long-term nature, these liabilities are highly sensitive to changes in assumptions. All assumptions are reviewed at each reporting date.

The parameter subject to frequent changes is the discount rate. In determining appropriate discount rate, the management considers interest rates of government bonds in currencies, consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables in India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increase and gratuity increase are based on expected future inflation rates.

- (vi) Non-financial assets are reviewed for impairment, whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any.

- (vii) Provisions and Contingent liabilities are reviewed at each balance sheet date and adjusted to reflect best estimate.

(d) Property, Plant and Equipment

- (i) Property, Plant and Equipment (PPE) are stated at cost net of Modvat/ Cenvat less accumulated depreciation, amortisation and impairment loss, if any. Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

Significant Accounting Policies to the Consolidated Financial Statements

- (ii) Cost of an item of PPE comprises of its purchase price including import duties and non refundable purchase taxes after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and present value of estimated costs of dismantling and removing the item and restoring the site on which it is located.

The residual values, useful lives and methods of depreciation of PPE are reviewed at each reporting date and adjusted prospectively, if appropriate.

- (iii) As per Para 46A of Accounting Standard (AS) 11, 'The Effects of Changes in Foreign Exchange Rates', related to acquisition of depreciable capital assets pursuant to the notifications dated December 29, 2011 and August 9, 2012 issued by Ministry of Corporate Affairs (MCA), under the Companies (Accounting Standards) (Second Amendment) Rules 2011, the cost of depreciable capital assets includes foreign exchange differences arising on translation of long term foreign currency monetary items as at the balance sheet date in so far as they relate to the acquisition of such assets is capitalised and subsequently, on adoption of Indian Accounting Standard also, the same is allowed for the transactions recorded upto March 31, 2016.
- (iv) On transition to Ind AS, the Company has elected the option of fair value as deemed cost for certain Land and Buildings and Plant and Machinery, as on the date of transition. Other Tangible Assets are restated retrospectively.
- (v) In accordance with Ind AS, the Company has fair valued certain Properties, Plant and Equipment as on April 1, 2015 using various appropriate approach: Real Estate Assets (other than Dhirubhai Ambani Knowledge City (DAKC)) have been fair valued adopting a combination of all the three approaches viz market, income and cost approach. Land is valued using replacement cost approach, certain buildings are valued using income approach and other buildings and improvements are fair valued using reproduction cost method. Real Estate Assets comprising of Land owned by Campion Properties Limited, a subsidiary of the Company, have been fair valued using the market approach while buildings are valued using cost approach. DAKC Land and Buildings have been valued using the income capitalization approach. CDMA Electronics have been fair valued using replacement cost approach.
- (vi) Depreciation is provided on Straight Line Method based on the useful life prescribed in Schedule II to the Act except in case of the following assets where useful life is different than those that prescribed in Schedule II, based on technical evaluation.
 - (1) Telecom Electronic Equipments – 20 years
 - (2) Telecom Towers – 35 years
 - (3) Ducts and OFC – 35 years
 - (4) Batteries – 9 years
 - (5) Furniture, Fixtures and Office Equipments – 5, 10 years
 - (6) Customer Premises Equipments (CPE) – 3 to 5 years (where assets are installed on customer's premises)
 - (7) Vehicles – 5 years
 - (8) Leasehold improvements – Shorter of the remaining lease term or useful life
 - (9) Cable Systems – Shorter of 15 years or remaining useful life

In case of Falcon project, the asset life of Sub Marine Cable Network and Terrestrial Network is estimated at 25 years and 15 to 25 years respectively.
- (vii) Expenditure of capital nature incurred on assets taken on operating lease is depreciated over the remaining period of the lease term.
- (viii) Leasehold Land with lease term of more than 50 years is classified as finance lease and depreciated over the period of the lease term.
- (ix) Any gain or loss on disposal of an item of property, plant and equipment is recognised in statement of profit and loss.
- (x) CPE's are treated as part of PPE, as the associated risk and rewards remain with the Company.
- (xi) Depreciation on all the assets capitalised pursuant to para 46A of AS 11 is provided over the remaining useful life of the depreciable capital asset.
- (xii) Depreciation on additions is calculated pro rata basis from the following month of addition.
- (xiii) Expenses incurred relating to project, prior to commencement of commercial operations, are considered as project development expenditure and shown under Capital Work in Progress.

Significant Accounting Policies to the Consolidated Financial Statements

(e) Intangible Assets other than Goodwill

- (i) Intangible assets acquired are measured on initial recognition at cost. Cost includes all direct costs relating to acquisition of Intangible assets and borrowing cost relating to qualifying assets.
- (ii) Telecom Licenses are stated at cost as applicable less accumulated amortisation and impairment, if any.
- (iii) Indefeasible Right of Connectivity (IRC) are stated at cost less accumulated amortisation.
- (iv) Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.
- (v) Intangible assets, namely entry fees/ fees for Telecom Licenses and Brand Licenses are amortised on the basis of Straight Line Method, over the balance period of Licenses. IRC and Software are amortized from the date of acquisition or commencement of commercial services, whichever is later.
- (vi) There is no intangible asset assessed with indefinite useful life.
- (vii) The life of amortisation of the intangible assets are as follows.
 - (1) Telecom Licenses – 12.50 to 20 years
 - (2) Brand License – 10 years
 - (3) DTH License – 10 years
 - (4) Indefeasible Right of Connectivity – In the year of purchase or, 15/ 20 years, as the case may be.
 - (5) Software – 5 years
 - (6) Trade Names and Trademarks – 5 to 10 years
 - (7) Intellectual Property – 7 years
 - (8) Building Access Rights – 5 years
- (viii) Amortisation methods, useful lives and residual values are reviewed periodically at each reporting date.
- (ix) Any gain or loss on disposal of an item of intangible assets is recognised in statement of profit and loss.
- (x) On transition to Ind AS, the Group has elected the option of fair value as deemed cost for certain Telecom Licenses. Telecom Licences has been fair valued using market approach. Other Intangible Assets are restated retrospectively.

(f) Lease

i) Operating lease:

As a Lessee:

Where the lessor effectively retains substantially all risks and benefits of ownership of the leased assets, they are classified as operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss on a straight line basis over the period of lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increase.

As a Lessor:

Rental income from operating lease is recognised on a straight line basis over the lease term unless payments to the Company are structured to increase in line with expected general inflation to compensate for the Company's expected inflationary cost increase; such increases are recognised in the year in which such benefits accrue. Assets given on operating lease are included in PPE/ Intangible Assets. Costs, including depreciation/ amortisation, are recognised as an expense in the Statement of Profit and Loss.

ii) Finance lease:

As a Lessee:

Assets held under finance leases are initially recognised as assets at the commencement of the lease at their fair value or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Company's general policy on borrowing costs. Such assets are depreciated/ amortised over the period of lease or estimated useful life of the assets whichever is less.

Significant Accounting Policies to the Consolidated Financial Statements

As a Lessor:

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Company's net investment in the leases. Finance lease income is allocated to accounting period so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

(g) Impairment of Non Financial Assets

Goodwill and intangible assets that have indefinite useful life are tested annually for impairment or more frequently, if events or changes in circumstances indicate that they may be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An asset is treated as impaired when carrying cost of assets exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. Impairment loss recognised in prior accounting period is increased/ reversed (for the assets other than Goodwill) where there is change in the estimate of recoverable value. Recoverable value is higher of net selling price and value in use.

(h) Inventories of Stores, Spares and Communication Devices

Inventories of stores, spares and communication devices are accounted for at cost and all other costs incurred in bringing the inventory to their present location and condition, determined on weighted average basis or net realisable value, whichever is less. Net realisable value is the estimated selling price in the ordinary course of business less estimated costs necessary to make the sale.

(i) Employee Benefits

Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. These benefits include compensated absence such as paid annual leave and sickness leave. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by the employees is recognized as an expense during the period.

Long term employee benefits

(i) Defined contribution plan

The Group's contribution towards employees' Superannuation Plan is recognized as an expense during the period in which it accrues.

(ii) Defined benefit plans

Provident Fund

Provident Fund contributions are made to a Trust administered by the Trustees or other recognised fund. Interest payable to the Provident Fund members, shall not be at a rate lower than the statutory rate. Liability is recognized for any shortfall in the Income of the fund vis-à-vis liability of the interest as per statutory rates to the members. The Company's contribution towards employees' Provident fund is recognized as an expense during the period in which it accrues.

Gratuity Plan

The Company's gratuity benefit scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, mortality rate and the fair value of plan assets is deducted. Mortality rate is based on publicly available mortality table in India.

Present value of the obligation under such defined benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method.

Obligation is measured at present value of the estimated future cash flows. Discount rates used for determining present value of obligation under the defined benefit plan, are based on market yield of Government Securities as at the balance sheet date that have terms approximating to the terms of the related obligation.

Remeasurements which comprise of actuarial gain and losses, the return of plan assets (excluding interest) and the effect of assets ceiling (if any, excluding interest) are recognised in Other Comprehensive Income.

Plan Assets of Defined Benefit Plans have been measured at fair value.

Significant Accounting Policies to the Consolidated Financial Statements

(iii) Other Long term employment benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as a liability at the present value of the defined benefit obligation at the balance sheet date, determined based on actuarial valuation using Projected Unit Credit Method. Discount rates used for determining present value of the obligation under the defined benefit plan, are based on the market yield on Government Securities as at the balance sheet date. Remeasurements gains or losses are recognised in the Statement of Profit and Loss in the period in which they arise.

(j) Borrowing Cost

Borrowing costs attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets upto the commencement of commercial operations. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. Other borrowing costs are recognised as an expense in the year in which they are incurred.

(k) Foreign Currency Transactions

- (i) Transactions denominated in foreign currencies are recorded at the exchange rates prevailing at the time of the transaction.
- (ii) Monetary items denominated in foreign currencies at the year end are restated at the year end rates.
- (iii) Non monetary foreign currency items are carried at cost (i.e. translated using the exchange rates at the time of initial transactions).
- (iv) Exchange difference on monetary items is recognised in the Statement of Profit and Loss in the period in which it arises except for:
 - (a) Exchange difference on foreign currency borrowings relating to depreciable capital asset is included in cost of assets.
 - (b) Exchange difference on foreign currency transactions, on which receipt and/ or payments is not planned, initially recognised in Other Comprehensive Income and reclassified from Equity to profit and loss on repayment of the monetary items.
- (v) All long term foreign currency monetary items consisting of loans taken before March 31, 2016 and which relate to the acquisition of depreciable capital assets at the end of the period/ year are restated at the rate prevailing at the balance sheet date. Exchange difference including attributable to the interest arising as a result is added to or deducted from cost of the assets as per notification dated December 29, 2011 and August 9, 2012 issued by the Ministry of Company Affairs (MCA), Government of India and depreciated over the balance life of the capital asset. Exchange difference on other long term foreign currency loans is accumulated in "Foreign Currency Monetary Item Translation Difference Account (FCMITDA)" which will be amortized over the balance period of monetary assets or liabilities.
- (vi) The results and financial position of foreign operations with functional currency different from the presentation currency, are translated into the presentation currency as follows:
 - (a) assets and liabilities for each consolidated statement of financial position presented are translated at the closing rate at the date of that consolidated statement of financial position;
 - (b) income and expenses for each consolidated statement of comprehensive income are translated at average exchange rates (unless average rate is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
 - (c) all resulting exchange differences are recognised in other comprehensive income.
- (vii) Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated into rupee, the functional currency of the company, at the exchange rates at the reporting date. Exchange difference arising are recognised in other comprehensive income and accumulated in equity, except to the extent that the exchange differences is allocated to the non controlling interests.

(l) Revenue Recognition

- (i) Revenue is recognised to the extent it is probable that the economic benefits will flow to the Group and revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable.
- (ii) Revenue is recognised as and when services are provided on the basis of actual usage of the Company's network. Revenue on upfront charges for services with lifetime validity and fixed validity periods are recognised over the estimated useful life of the subscribers and specified fixed validity period, as appropriate. The estimated useful life is consistent with estimated churn of the subscribers.

Significant Accounting Policies to the Consolidated Financial Statements

- (iii) The Company sells Right of Use (ROUs) that provide to the customers with network capacity/ passive infrastructure, typically over a period of 5 to 20 years without transferring legal title or giving an option to purchase the network capacity/ passive infrastructure. Capacity services revenues are accounted as operating lease and recognised in the Company's income statement over the life of the contract. Bills raised on the customers/ payments received from the customers for long term contracts and for which revenue is not recognised are included in deferred revenue. Revenue on non cancellable ROUs are also recognised as licencing income over the period of contract. Revenue on non cancellable contracts for right to use of specified fibre pairs/ ducts for a period of 15 to 20 years or economic useful life is recognized as revenue on delivery of such assets to the customers. In revenue arrangements including more than one deliverable, the arrangements are divided into separate units of accounting. Deliverables are considered separate units of accounting if the following two conditions are met: (1) the deliverable has value to the customer on a standalone basis and (2) there is evidence of the fair value of the item. The arrangement considered is allocated to each separate unit of accounting based on its relative fair value.
- (iv) Standby maintenance charges are invoiced separately from capacity sales. Revenue relating to standby maintenance is recognised over the period in which service is provided. Any amount billed prior to providing of service is included in deferred revenue. Revenue from other service is recognized as and when service is rendered.
- (v) Network services include capacity lease services, IP transit, IPLC (private lines leased to customers), backup service for other network operators and all other services. The customer typically pays charges for network services periodically over the life of the contract, which may be up to three years. Network revenue is recognised in the Company's Statement of Profit and Loss over the term of the contract.
- (vi) Sale of handsets and accessories are recognised when goods are supplied and are recorded net of trade discounts, rebates, commissions to distributors and dealers and sales taxes. It does not include inter company transfers.
- (vii) Interest income on investment is recognised on time proportion basis. Interest income is accounted using the applicable Effective Interest Rate (EIR), which is the rate that exactly discounts estimated future cash receipts over the expected life of the financial assets to that asset's net carrying amount on initial recognition. Dividend is considered when right to receive is established. The Group recognises income from units in the Fixed Income Schemes of Mutual Funds, where income accrued is held till declaration or payment thereof for the benefit of the unit holders.
- (viii) Revenue is recognised net of taxes when the Base Transceiver Station (BTS) Tower is Ready For Installation of customer equipments and as per the terms of the agreements.
- (ix) Activation fees, subscription revenue and monthly subscription in respect of DTH are recognised on accrual basis, net of service tax, entertainment tax and trade discount.

(m) Taxes on Income and Deferred Tax

Income Tax comprises of current and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent that it relates to a business combination or to an item recognised directly in equity or other comprehensive income.

Provision for income tax is made on the basis of taxable income for the year at the current rates. Tax expense comprises of current tax and deferred tax at the applicable enacted or substantively enacted rates. Current tax represents amount of Income Tax payable/ recoverable in respect of taxable income/ loss for the reporting period. Deferred tax represents the effect of temporary difference between carrying amount of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable income. Deferred tax liabilities are generally accounted for all taxable temporary differences. Deferred tax asset is recognised for all deductible temporary differences, carried forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which such deductible temporary differences can be utilised. Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when deferred income tax assets and liabilities relate to the income tax levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net or simultaneous basis. Deferred tax assets/ liabilities are not recognised for initial recognition of Goodwill or on an asset or liability in a transaction that is not a business combination and at the time of transaction affects neither the accounting profit nor taxable profit or loss. MAT credit is recognised as an asset, only if it is probable that the Company will pay normal income tax during the specified period.

(n) Government Grants

Subsidies granted by the Government for providing telecom services in rural areas are recognised as other operating income in accordance with relevant terms and conditions of the applicable scheme and agreement.

(o) Provisions including Asset Retirement Obligation (ARO) and Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Provisions are determined by discounting expected future cashflows at the pre tax rate that reflects current market assumptions of time value of money and risk

Significant Accounting Policies to the Consolidated Financial Statements

specific to the liability. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Asset Retirement Obligation (ARO) relates to the removal of telecom towers, sub marine cable systems and equipments when they will be retired from its active use. Provision is recognised based on the best estimate, of the management, of the eventual costs (net of recovery), using discounted cash flow, that relates to such obligation and is adjusted to the cost of such assets. Estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset. Contingent Assets are neither recognised nor disclosed in the consolidated financial statements.

(p) Earnings per Share

In determining Earning per Share, the Group considers net profit after tax attributable to parent and includes post tax effect of any exceptional item. Number of shares used in computing basic earnings per share is the weighted average number of the shares, excluding the shares owned by the Trust, outstanding during the period. Dilutive earning per share is computed and disclosed after adjusting effect of all dilutive potential equity shares, if any except when results will be anti dilutive. Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date.

(q) Employee Stock Option Scheme

In respect of stock options granted pursuant to the Company's Employee Stock Options Scheme, fair value of the options is treated as discount and accounted as employee compensation cost over the vesting period. Employee compensation cost recognised earlier on grant of options is reversed in the period when the options are surrendered by any employee or lapsed as per the terms of the scheme.

(r) Treasury Equity

The Group has created an Employee Stock Option Scheme Trust (ESOS Trust) for providing share-based payment to its employees. The Group uses ESOS Trust as a vehicle for distributing shares to the employees under the employee remuneration schemes. The ESOS Trust buys shares of the Company from the market, for giving shares to the employees. The Group treats ESOS Trust as its extension and the shares held by ESOS Trust are treated as treasury equity.

Own equity instruments that are reacquired (treasury equity) are recognised at cost and deducted from equity. No gain or loss is recognised in Statement of Profit and Loss, on purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between carrying amount and consideration, if reissued, is recognised in equity.

(s) Measurement of Fair value of financial instruments

The Group's accounting policies and disclosures require measurement of fair values for the financial instruments. The Group has an established control framework with respect to measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses evidence obtained from third parties to support the conclusion that such valuations meet requirements of Ind AS, including level in fair value hierarchy in which such valuations should be classified. When measuring fair value of a financial asset or a financial liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs). If inputs used to measure fair value of an asset or a liability fall into different levels of fair value hierarchy, then fair value measurement is categorised in its entirety in the same level of fair value hierarchy as the lowest level input that is significant to the entire measurement. The Group recognises transfers between levels of fair value hierarchy at the end of the reporting period during which the change has occurred. (Refer to note 2.43.1) for disclosures pertaining to the measurement of fair values).

(t) Financial Instruments

A financial instrument is any contract that gives rise to the financial asset of one entity and the financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts.

Financial Assets

(i) Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through Statement of Profit and Loss, transaction costs that are attributable to the acquisition of the financial asset.

Significant Accounting Policies to the Consolidated Financial Statements

(ii) Subsequent measurement

Subsequent measurement of the debt instruments depends on the Group's business model for managing asset and cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments.

Financial Assets measured at amortised cost

A 'debt instrument' is measured at the amortised cost, if both the following conditions are met:

- a) Asset is held within a business model, whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise to cash flows, on specified dates, that are solely payments of principal and interest (SPPI) on the principal amount outstanding. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. EIR amortisation is included in finance income in the Statement of Profit and Loss. Losses arising from impairment are recognised in the Statement of Profit and Loss. This category generally applies to trade and other receivables.

Financial Assets measured at Fair Value through Other Comprehensive Income (FVTOCI)

A 'debt instrument' is classified as FVTOCI if both of the following criteria are met:

- a) Objective of the business model is achieved both, by collecting contractual cash flows and selling financial assets, and
- b) Contractual cash flows of the asset represent SPPI: Debt instruments included within FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in OCI. However, the Group recognizes interest income, impairment loss and reversal and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Statement of Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using EIR method.

Financial Assets measured at Fair Value through Profit or Loss (FVTPL)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as FVTPL. In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as FVTPL. However, such election is allowed only if, doing so reduces or eliminates measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments

All equity investments in scope of Ind AS 109 "Financial Instruments" are measured at fair value. Equity instruments which are held for trading are classified as FVTPL. For all other equity instruments, the Group decides to classify the same either as FVOCI or FVTPL. The Group makes such election on instrument by instrument basis. The classification is made on initial recognition, which is irrevocable. If the Group decides to classify an equity instrument as FVOCI, then all fair value changes on the instrument, excluding dividend, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity. Equity instruments included within FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss. Also, the Group has elected to apply the exemption available under Ind AS 101 to continue the carrying value for its investments in subsidiaries and associates as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP as at the date of transition.

Derecognition of Financial Assets

A financial asset is primarily derecognised when: (I) Rights to receive cash flows from the asset have expired, or (II) The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under 'pass-through' arrangement and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of Financial Assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. Impairment methodology applied depends on whether there has been a significant increase in the credit risk. As a practical expedient, the Group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables, as permitted by Ind AS 109. Provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analysed.

Significant Accounting Policies to the Consolidated Financial Statements

Financial Liabilities

(i) Initial recognition and measurement

All financial liabilities are recognised initially at fair value, in the case of loans, borrowings and payables, net of directly attributable transaction costs. Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

(ii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described herein:

Financial liabilities at Fair Value through Profit or Loss: Financial liabilities at Fair Value through Profit or Loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading, if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationship as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in Statement of Profit or Loss.

Financial liabilities measured at amortised cost: After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using Effective Interest Rate (EIR) method. Gains or losses are recognised in Statement of Profit and Loss when the liabilities are derecognised as well as through EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of EIR. EIR amortisation is included as finance costs in the Statement of Profit and Loss.

Derecognition of Financial Liabilities: A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

(u) Business Combinations and Goodwill

Business Combinations are accounted for using the acquisition method. Cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non controlling interests in the acquiree at fair value or at proportionate share of the acquiree's identifiable net assets. Acquisition related costs are expensed as incurred. At the acquisition date, the identifiable assets acquired and liabilities assumed are recognised at their acquisition date fair values. If the business combination is achieved in stages, any previously held equity interest is remeasured at its acquisition date fair value, resulting gain or loss is recognised in Statement of Profit and Loss or OCI, as appropriate.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of net assets acquired is in excess of the aggregate consideration the difference is recognised in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase gain is recognised directly in equity as capital reserve.

Where settlement of any part of cash consideration is deferred, the amount payable in the future is discounted to its present value as at the date of exchange. Contingent consideration is classified either as equity or a financial liability. Amount classified as a financial liability is subsequently remeasured to fair value with change in fair value recognised in Statement in Profit and Loss.

Business Combinations that occurred before April 1, 2008, are not restated retrospectively in accordance with Ind AS 103 "Business Combinations". Carrying amounts of assets acquired and liabilities assumed as part of past business combinations as well as the amounts of goodwill that arose from such transactions as they were determined under the previous GAAP are considered as their deemed cost under Ind AS as at the date of transition.

In respect of business combinations that occurred prior to April 1, 2008, goodwill is included on the basis of its deemed cost, which represents the amount recorded under previous GAAP.

Note 2.02

Goodwill

Goodwill is recognised on consolidation of financial statements of the subsidiaries as per details given herein:

	As at March 31, 2017	As at March 31, 2016	As at April 1, 2015	For the year ended March 31, 2017	(₹ in crore) For the year ended March 31, 2016
Goodwill on consolidation	<u>3,548</u>	<u>3,551</u>	<u>3,542</u>	<u>(3)</u>	<u>9</u>

There is no movement in the goodwill on consolidation except due to changes in foreign exchange currency fluctuation. Business valuation is higher than book value of the assets and/ or recoverable value represented above, and hence impairment has not been considered.

Recoverable amount of the operations is based on the fair value less costs of disposal, estimated using discounted cash flows. Fair value measurement is categorised as a Level 3 fair value based on inputs in the valuation technique used.

Key assumptions used in the estimation of the recoverable amount are set out below.

The values assigned to the key assumptions represent the Management's assessment of the future trends in the relevant industries and have been based on the historical data from both: external and internal sources.

Sr. No.	Particulars	As at March 31, 2017	As at March 31, 2016	As at April 1, 2015
1	Discount rate	9.4%	9.4%	9.4%
2	Terminal value growth rate	-	-	-
3	Budgeted EBITDA growth rate (average of next years)	2%	2%	2%

Discount rate has been a pre tax measure estimated based on the historical industry average and weighted-average cost of capital, with the possible debt leveraging of 80% at interest rate of 9% per market.

No terminal value is included as this cash flows are more than sufficient to establish that impairment does not exist.

Budgeted EBITDA has been estimated taking into account past experience and adjusted as under.

Revenue growth has been projected taking into account the average growth levels experienced over the past three years and estimated sales volume and prudent price growth for the next five years. It has been assumed that the sales price would increase in line with the forecast inflation over the next five years.

Sensitivity Analysis: There is no significant risk that book value of goodwill could exceed its value in use considering reasonably possible change in Discount Rate and EBITDA growth rate.

The Group offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and deferred tax assets and deferred tax liabilities relating to income taxes levied by the same tax authorities.

Deferred Tax Assets are not provided on undistributed earnings of ₹ 3,705 crore as at March 31, 2017, of the subsidiaries, where it is expected that earnings of the subsidiaries will not be distributed in foreseeable future. Generally, the Company indefinitely reinvests all the accumulated undistributed earnings of the subsidiaries and accordingly, has not recorded any deferred taxes in relation to such undistributed earnings of such entities. It is impracticable to determine the taxes payable when these earnings are remitted.

Significant management judgement has been considered in determining the provision for income tax, deferred tax assets and liabilities and recoverability of deferred tax assets. Recoverability of deferred tax assets is based on estimates of taxable income by each jurisdiction in which the relevant entity operates and the period over which deferred tax assets will be recovered.

Deferred Tax Assets have not been recognised in respect of losses of certain subsidiaries due to non existence of reasonable certainty, and which may not be used to offset taxable profits elsewhere in the Group as there are no other tax planning opportunities or other evidence of recoverability in the near future. Year wise expiry of such losses of ₹ 10,509 crore as at March 31, 2017 is as under.

Notes on Accounts to the Consolidated Financial Statements

The Group has applied the following exemptions, available under Ind AS 101, for retrospective application, at the time of first time adoption of Ind AS.

Business Combinations: Business Combinations that occurred before April 1, 2008, were not restated retrospectively in accordance with Ind AS 103 "Business Combinations". Carrying amounts of assets acquired and liabilities assumed as a part of the past business combinations as well as the amounts of goodwill that arose from such transactions as they were determined under the previous GAAP are considered as their deemed cost under Ind AS as at the date of the transition.

Investments in Subsidiaries and Associates: The Group has elected to apply carrying amount of its investment in subsidiaries and associates as per the previous GAAP as the deemed cost on the date of the transition to Ind AS.

Share based payments: As permitted under Ind AS 101 "First-time Adoption of Indian Accounting Standards", Ind AS 102 "Share Based Payment" has not been retrospectively applied to all share-based payment awards. This exemption has been applied for all equity awards, which have been vested before April 1, 2015. All such equity awards exempted from Ind AS 102 continue to be accounted for under the intrinsic value approach as under the previous GAAP.

Long Term Foreign Currency Monetary Items: The Group has opted to apply Ind AS 101 exemption and continued with the accounting policy adopted under the previous GAAP for accounting of exchange differences arising from translation of long term foreign currency monetary items recognised in the financial statements upto March 31, 2016.

Deemed cost: In respect of Property, Plant and Equipment and Intangible Assets, certain assets have been fair valued and other assets have been retrospectively restated under Ind AS.

Exchange Fluctuation Variation: As permitted under Ind AS 101, the Group has elected, to reset cumulative translation differences (gains and losses) for all foreign operations, and deemed to zero by transferring it to opening retained earnings at its transition date.

The following mandatory exceptions have been applied in accordance with Ind AS 101 "First-time Adoption of Indian Accounting Standards":

Derecognition of financial assets and liabilities: The Group has elected to apply derecognition requirements for financial assets and liabilities under Ind AS 109 "Financial Instruments" prospectively for the transactions occurring on or after the date of the transition to Ind AS.

Estimates: Upon an assessment of the estimates made under the previous GAAP, the Company has concluded that there was no necessity to revise such estimates under Ind AS except as a part of the transition where following estimates were required by Ind AS and not required by the previous GAAP.

Classification and measurement of financial assets: The Group has classified the financial assets in accordance with Ind AS 109 "Financial Instruments" on the basis of the facts and circumstances that exist on the date of the transition to Ind AS.

Notes to reconciliation

- (b) The Company has elected the option of adopting fair value as deemed cost for certain Land and Buildings, Plant and Machinery and Intangibles, as on the date of transition to Ind AS. Other Assets were restated retrospectively. This has resulted in, net increase in the value of Land and Buildings by ₹ 5,787 crore and Plant and Machinery by ₹ 530 crore and net decrease in value of Intangibles being CDMA (Telecom) Spectrum by ₹ 2,404 crore and consequent increase in depreciation for the year ended by ₹ 211 crore.
- (c) Restatement of Revenue from non cancellable right of use and other revenue, to be recognised over a period of underlying contract of services in line with applicable Ind AS, has resulted in reversal of revenue aggregating to ₹ 4,082 crore along with reversal of corresponding Depreciation of ₹ 2,395 crore and License Fees of ₹ 41 crore. Consequently revenue, depreciation and license fees have increased by ₹ 243 crore, ₹ 227 crore and ₹ 6 crore respectively for the year.
- (d) Fair valuation impact of ₹ 50 crore on borrowings, ₹ 30 crore on investment and ₹ 16 crore on deposits as at April 1, 2015. Corresponding reduction of profitability by ₹ 61 crore for the year.
- (e) Increase in provision for trade receivables and other receivables assessed considering future economic benefit and/ or collection expected to flow to the Company over the period of time due to the conditions existing prior to the date of transition has been accounted on the transition date, leaving consequent impact on profitability for the year.
- (f) Deferred Taxes are computed and recognised for temporary differences between carrying amount of an asset and liability in the balance sheet and tax base and consequent impact has been recognised in Statement of Profit and Loss.
- (g) The Company has opted to restate all Business Combination after April 1, 2008 as required under Ind AS.
- (h) Under Ind AS, capital reserve or goodwill arising on acquisition of subsidiaries have been disclosed separately, which were reflected net under previous GAAP.
- (i) Other Ind AS Adjustments includes net reduction in Equity by ₹ 387 crore for consolidation of RCOM ESOS Trust as required under Ind AS and disclosed as Treasury Equity net increase in Equity by ₹ 234 crore consequent to restatement of the financial statements of the subsidiaries of the Company under Ind AS based on restated networth and liability for Non Controlling Interest. Further, it includes ₹ 249 crore on account of impact of Foreign Currency Translation for the year ended March 31, 2016, relating to Ind As adjustment on the date of transition. ₹ 2 crore is due to reversal of adjustments relating to Non Controlling Interest and other expenses.
- (j) Other Comprehensive Income also comprises of actuarial gains and losses on employee benefits, exchange variation on translation of foreign operations/ subsidiaries and Fair valuation of Investments.

Notes on Accounts to the Consolidated Financial Statements

Statement of Cash flows: The transition from Indian GAAP to Ind AS has no material impact on the statement of cash flows. The reconciliation of Cash and Cash Equivalent is as under:

	As at March 31, 2016	As at April 1, 2015
Cash and Cash Equivalents under previous GAAP	842	1,356
Less: Bank overdraft	271	369
Less: Earmarked Balance – Unpaid Dividend	7	8
Less: Balance held due to repatriation restrictions	-	7
Cash and Cash Equivalents under Ind AS	564	972

(vi) Spectrum Charges

DoT had, during the earlier years, issued demand on the Company for ₹ 1,758 crore towards levy of one time Spectrum Charges, being the prospective charges for holding CDMA spectrum beyond 2.5 MHz for the period from January 1, 2013 till the expiry of the initial terms of the respective Licenses. Based on a petition filed by the Company and its subsidiary, the Hon'ble High Court of Kolkata, vide its orders dated February 14 and April 19, 2013 has stayed the operation of the impugned demand till further order. The Company is of the view that the said demands, inter alia, are an alteration of financial terms of the licenses issued in the past and has also been legally advised, accordingly, no provision in this regard is required.

(vii) License Fees and Special Audit

Pursuant to the Telecom License Agreement, DoT directed audit of various Telecom companies including of the Company. The Special Auditors appointed by DoT were required to verify records of the Company and some of its subsidiaries for the years ended March 31, 2007 and March 31, 2008 relating to license fees and revenue share. The Company has received show cause notice dated January 31, 2012 and subsequently, received demand note dated November 8, 2012 based on report of the Special Audit directed by DoT relating to alleged shortfall of license fees of ₹ 314 crore and interest thereon as applicable. The Company challenged the said notices, inter alia demanding license fee on non telecom revenue based on Special Audit Report before the Hon'ble Telecom Disputes Settlement and Appellate Tribunal (TDSAT) and also before the Hon'ble High Court of Kerala. The impugned demand has been stayed by Hon'ble High Court of Kerala during the pendency of the Petition. Meanwhile, Hon'ble TDSAT vide its judgment dated April 23, 2015 has set aside all License fee related demands and directed DoT to rework the license fees payable by the operators for the past periods, in light of the findings, observations and directions as per in the said judgment and to issue fresh demands, which the operators will pay within the time prescribed under the law. DoT has challenged TDSAT judgement in Hon'ble Supreme Court. The matter is pending before Hon'ble Supreme Court, though Hon'ble Supreme Court vide its order dated February 29, 2016 allowed DoT to raise demand as per its understanding but not to enforce the same till the appeals are finally decided by the Supreme Court. As per the judgement of Hon'ble TDSAT dated April 23, 2015 which is operative as on date and other judicial pronouncements directly applicable to the issues of License fee dues raised by Special Auditors, there shall not be any liability of License fee and hence, no provision is required in the accounts of the Company.

Note 2.43

2.43.1 Financial Instruments

The fair value of financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between the willing parties, other than in a forced or liquidation sale.

The following methods and assumptions have been used to estimate the fair values:

Fair value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to the short term maturities of these instruments

Financial Instruments with fixed and variable interest rates are evaluated by the Group based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for the expected losses of these receivables.

Fair value hierarchy

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The carrying value and fair value of the financial instruments by categories were as follows:

2.43.2 Financial Risk Management Objectives and Policies

Activities of the Company expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance.

The Company's financial liabilities comprise of borrowings, trade payable and other liabilities to manage its operation and the financial assets include trade receivables, deposits, cash and bank balances, other receivables etc. arising from its operation.

The Company has constituted a Risk Management Committee consisting of majority of the directors and senior managerial personnel. The Company has a robust Business Risk Management framework to identify, evaluate business risks and opportunities. This framework seeks to create transparency, minimize adverse impact on the business objectives and enhance competitive advantage. It defines the risk management

Reliance Communications Limited

Notes on Accounts to the Consolidated Financial Statements

approach across the enterprise at various levels including documentation and reporting and contains different risk models, which help in identifying risks trend, exposure and potential impact analysis at the Company level as also separately for the business segments.

The Company has instituted a self governed framework based on identification of potential risk areas, evaluation of risk intensity, and clear-cut risk mitigation policies, plans and procedures, both at the enterprise and operating levels. The framework seeks to facilitate a common organisational understanding of the exposure to various risks and uncertainties at an early stage, followed by timely and effective mitigation. This framework is reviewed at periodic intervals.

Financial risk management

The Company's business activities expose it to a variety of financial risks, namely liquidity risk, market risks and credit risk.

Risk	Exposure arising from	Measurement	Management
Credit Risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost	Ageing analysis	Diversification of bank deposits, letters of credit
Liquidity Risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk – foreign exchange	Recognised financial assets and liabilities not denominated in functional currency.	Sensitivity analysis	Un hedged
Market risk – interest rate	Long-term borrowings at variable rates	Sensitivity analysis	Un hedged
Market risk– price risk	Unquoted investment in equity shares – not exposed to price risk fluctuations	-	-

Market risk

The Company also operates internationally and hence, a portion of the business is transacted in several currencies. Consequently the Company is exposed to foreign exchange risk to the extent that there is mismatch between the currencies in which it sells and services, purchases from overseas suppliers and borrowings in various foreign currencies. Market Risk is the risk that changes in market prices such as foreign exchange rates, interest rates will affect income or value of its holding financial assets/ instruments. The exchange rate between rupee and foreign currencies has changed substantially in recent years and may fluctuate significantly in the future.

As a result, operations of the Company are adversely affected as the rupee appreciates/ depreciates against US dollar. Euro. GB pound etc..

Notes on Accounts to the Consolidated Financial Statements

Sensitivity Analysis

A sensitivity of profit or loss to change in the exchange rates arises mainly from foreign currency denominated financial instruments as mentioned below:

		(₹ in crore)
Movement in Exchange Rate	For the year ended March 31, 2017	For the year ended March 31, 2016
Impact of 2% increase in exchange rate of USD INR	(359)	(441)
Impact of 2% increase in exchange rate of EURO INR	1	3
Impact of 2% increase in exchange rate of GBP INR	(2)	(1)

If exchange rate is positively affected with decrease by 2%, profit shall also accordingly be affected.

Interest Rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates, in cases where the borrowings are measured at fair value through profit or loss. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

Exposure to interest rate risk

Interest rate risk of the Company arises from borrowings. The Company endeavors to adopt a policy of ensuring that maximum of its interest rate risk exposure is at fixed rate.

The Group's interest bearing financial instruments are reported as below:

	As at March 31, 2017	As at March 31, 2016	(₹ in crore) As at April 1, 2015
Fixed Rate Instruments			
Financial Assets	388	812	1,519
Financial Liabilities	12,493	12,333	7,188
Variable Rate Instruments			
Financial Assets	Nil	Nil	Nil
Financial Liabilities	36,878	34,999	32,640

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased/ (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

Impact on Profit and Loss / Equity	For the year ended March 31, 2017	For the year ended March 31, 2016
Impact of increase in interest rate by 100 basis point	(369)	(350)

If the interest rate is positively affected with decrease by 100 basis point, profit shall also accordingly be affected.

The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and is calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

Derivative financial instruments

The Company does not hold derivative financial instruments.

The Company offsets financial asset and a financial liability when it currently has a legally enforceable right to set off the recognized amounts and the Company intends either to settle on a net basis, or realise the asset and settle the liability simultaneously.

Credit risk

Credit risk refers to the risk of default on its obligation by the customer/ counter party resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is carrying value of respective financial assets.

Reliance Communications Limited

Notes on Accounts to the Consolidated Financial Statements

Trade receivables and unbilled revenue are typically unsecured and are derived from revenue earned from the customers. Credit risk has always been managed by each business segment through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business. On account of adoption of Ind AS 109, the Company uses expected credit loss (ECL) model to assess the impairment loss or gain. ECL methodology depends on whether there is any significant increase in credit risk. In case of significant increase in credit risk, life time ECL is used; otherwise twelve month ECL is used. The group uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. The provision matrix takes into account available external and internal credit risk factors such as default risk of industry, credit default swap quotes, credit ratings from international credit rating agencies and historical experience for the customers.

Credit risk on cash and cash equivalents is limited as the Group generally invests in deposits with banks and financial institutions with high credit ratings assigned by international and/ or domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units, quoted bonds issued by the Government and Quasi Government organizations and certificates of deposits which are funds deposited at a bank for a specified time period.

Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. Competitive intensity has adversely impacted revenue and consequent cash accruals during the year. This, coupled with current level of debt and imminent repayment obligations, has lead to stress on liquidity profile. The Company closely monitors its liquidity position and is attempting to enhance its sources of funding by increasing cash flow generated from its operations and realisations from other proposed measures.

Liquidity risk is the financial risk that is encountered due to uncertainty resulting in difficulty in meeting its obligations. An entity is exposed to liquidity risk if markets on which it depends are subject to loss of liquidity for any reason; extraneous or intrinsic to its business operations, affecting its credit rating or unexpected cash outflows. A position can be hedged against market risk but still entail liquidity risk.

Prudence requires liquidity risk to be managed in addition to market, credit and other risks as it has tendency to compound other risks. It entails management of asset, liabilities focused on a medium to long-term perspective and future net cash flows on a day by day basis in order to assess liquidity risk.

Current and prospective liquidity risk is encountered when the Company is required to meet its obligations. The Company's approach to managing liquidity, that it will have sufficient cash and financial assets to meet its obligations and collateral needs, both expected and unexpected, under normal and stressed conditions, without incurring unacceptable losses. Dynamic nature of the underlying businesses necessitates that the treasury function ensures flexibility in funding by maintaining adequate working capital and its availability under committed credit lines, for uninterrupted business operations. Existing operations of the Company are primarily funded through long term loans. The Company is seeking to maintain/ enhance the level of working capital credit lines so that operations are performed at optimum level.

Notes on Accounts to the Consolidated Financial Statements

Periodic budgets and rolling forecasts are prepared as regular practice and in accordance with limits specified by the Company. 51% of the total debt will be payable in less than one year i.e. during the financial year ended as at March 31, 2018. Apart from this, there is an outstanding principal of ₹ 22,720 crore for the loans and interest as applicable thereon, payable to the lenders. The Company believes that working capital credit lines need significant enhancement pending infusion of funds from the proposed strategic transactions/ sale of assets, securitisation of customer contracts and rolling over of loans with existing lenders.

Pursuant to the direction of the Hon'ble High Court of Judicature at Bombay and option exercised by the Boards of the respective companies, in accordance with and as per the Scheme of Arrangements ("the Scheme") approved by the Hon'ble High Court under different Schemes of Arrangement binding on the Company and two of its subsidiaries, namely, RCIL and RITL, expenses and/ or losses, identified by the Boards of the respective companies as being exceptional or otherwise, subject to the accounting treatment prescribed in the Schemes and comprising of ₹ 467 crore (Previous year ₹ 505 crore) of depreciation consequent to addition of exchange differences on long term borrowing relating to capital assets to the cost of capitalised assets, as also ₹ 9 crore (Previous year ₹ 42 crore) of exchange variations (net) on items other than long term monetary items, ₹ 238 crore (Previous year ₹ 424 crore) being amortisation of FCMITDA, excluding the portion added to the cost of fixed assets or carried forward as FCMITDA in accordance with Para 46 A inserted into the then applicable AS 11 "The Effects of Changes in Foreign Exchange Rates" in context of unprecedented volatility in exchange rates during the year, leaving no impact on profit for the year ended March 31, 2017. Such withdrawals have been included/ reflected in the Statement of Profit and Loss. Had such write off of expenses, losses and depreciation/ amortisation (refer note 2.39.1 (v)) not met from General Reserve, the consolidated financial statements would have reflected a loss after tax of ₹ 3,202 crore (Previous year ₹ 1,499 crore).

Note 2.46

General Reserve

The Company has, from the year ended on March 31, 2008 onwards, combined the balances of General Reserve I, II and III and disclosed as General Reserve in Consolidated Accounts. Note 2.49

Employee Stock Option Scheme

The Company operates two Employee Stock Option Plans; ESOS Plan 2008 and ESOS Plan 2009, which cover eligible employees of the Company and its Subsidiaries. ESOS Plans are administered through an ESOS Trust. Vesting of the options is on expiry of one year from the date of Grant as per respective ESOS plan. In respect of the Options granted, the accounting value of the Options (based on market price of share on the date of the Grant of Option) is accounted as deferred employee compensation, which is amortised on a straight line basis over the Vesting Period. Each Option entitles the holder thereof to apply for and be allotted/ transferred one Equity Share of the Company of ₹ 5 each upon payment of the Exercise Price during the Exercise Period. The maximum Exercise Period is 10 years from the date of Grant of Options.

The Company has established a Trust for the implementation and management of ESOS Plans for the benefit of its present and future employees. Advance of ₹ 387 crore (₹ 387 crore as on March 31, 2016 and April 1, 2015) has been granted to the Trust and the said amount has been utilised by the Trust for purchasing 2.13 crore (2.13 crore as on March 31, 2016 and 2.13 crore as on April 1, 2015) Equity Shares during the period upto March 31, 2017. The fall in the value of these underlying shares on account of market volatility and the loss, if any, can be determined only at the end of the exercise period under ESOS Scheme.

Amortization of compensation includes write back of ₹ 3,27,600 (₹ 13,09,300 as on March 31, 2016 and ₹ 2 crore as on April 1, 2015) based on intrinsic value of Options which has been vested under ESOS Plan 2008 and reflected in Statement of Profit and Loss under Employees Benefits Expenses. No amount is chargeable in respect of Options granted under ESOS Plan 2009.

Particulars

	Employees Stock Option Plans			
	ESOS Plan 2008		ESOS Plan 2009	
	Number of Options	Weighted average exercise price [₹]	Number of Options	Weighted average exercise price [₹]
Number of Options Outstanding at the beginning of the year	52,798	422	6,49,642	206
Number of Options granted	Nil	-	Nil	-
Total number of Options surrendered	-	-	-	-
Number of Options vested during the year	Nil	-	Nil	-
Total number of Options exercised	Nil	-	Nil	-
Total number of Options forfeited/ lapsed	4,674	471	96,188	206
Number of Options outstanding at the end of the year	48,124	417	5,53,454	206

The weighted average remaining contractual life for the share options outstanding as at 31 March 2017 was 2.94 years (31 March 2016: 2.60 years).

If the entity would have estimated fair value computed on the basis of Black-Scholes pricing model, the compensation cost for the year ended March 31, 2017 for ESOS Plan 2008 and ESOS Plan 2009 would have been ₹ 0.35 crore and ₹ 1.22 crore respectively. The key assumptions used to estimate the fair value of options are given below.

Particulars

	ESOS Plan 2008	ESOS Plan 2009
Risk-free interest rate	6.36%	6.56%
Expected life	1 year	2 years
Expected volatility	42.22%	42.22%
Expected dividend yield	0.02%	0.07%
Price of the underlying share in market at the time of grant of option	₹ 541	₹ 174

The expected life of the share options is based on historical data and current expectations and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the life of the options is indicative of future trends, which may not necessarily be the actual outcome.

Note 2.50

Employee Benefits

The gratuity plan is governed by the Payment of Gratuity Act, 1972 (Gratuity Act). The Company is bound to pay the statutory minimum gratuity as prescribed under Gratuity Act. There are no minimum funding requirements for a gratuity plan in India. The Company's philosophy is to fund the benefits based on its own liquidity and tax position as well as level of underfunding of the plan vis-à-vis settlements. The management is responsible for the overall governance of the plan. The management has outsourced the investment management of the fund to insurance company which in turn manages these funds as per the mandate provided to them by the trustees and applicable insurance and other regulations.

The Company operates its gratuity and superannuation plans through separate trusts which is administered and managed by the Trustees. As on March 31, 2017 and March 31, 2016, the contributions towards the plans have been invested in Insurer Managed Funds.

Notes on Accounts to the Consolidated Financial Statements

The plan is in the nature of defined benefit plan which is sponsored by the Company and hence it underwrites all the risks pertaining to the plan. In particular, there is a risk for the Company that any significant change in salary growth or demographic experience or inadequate returns on underlying plan assets can result in an increase in cost of providing these benefits to employees in future.

The defined benefit plan exposes the Group to actuarial risk such as longevity risk, interest risk and market (Investment) risk.

The following table set out the status of the Gratuity Plan as required under Ind AS 19 "Employee Benefits":

The expected contribution is based on the same assumptions used to measure the company's gratuity obligations as of March 31, 2017.

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

		(₹ in crore)	
		As at	
		March 31, 2017	March 31, 2016
Discount rate (+1% movement)		(5)	(4)

Notes on Accounts to the Consolidated Financial Statements

Provident Fund : Under this scheme, the employee and employer each make monthly contribution to the plan equal to 12% of the covered employee's basic salary. Contributions are made to the trust established by the Company. As at March 31, 2017, Fair value of plan assets is ₹ 235 crore (Previous year ₹ 270 crore), the present value of defined benefit obligation is ₹ 213 crore (Previous year ₹ 249 crore). For the year ended March 31, 2017, the Company has contributed ₹ 5 crore (Previous year ₹ 4 crore) towards Provident Fund. The Employee Benefits as disclosed herein pertain to the Company and its significant subsidiaries.

The assumptions made for the above are Discount rate of 7.52%, average remaining tenure of Investment Portfolio is 5 years and guaranteed rate of return is 8.65%.

Note 2.51

Capital Management

Capital of the Group, for the purpose of capital management, include issued equity capital, securities premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise shareholders value.

The funding requirement is met through a mixture of equity, internal accruals, long term borrowings and short term borrowings.

The Company monitors capital using gearing ratio, which is debt divided by total capital plus debt.

	As at March 31, 2017	(₹ in crore) As at March 31, 2016
(a) Equity	28,569	31,583
(b) Debt	45,733	43,617
(c) Equity and Debt (a + b)	74,302	75,200
(d) Capital Gearing Ratio (b / c)	62%	58%

Increasing capital gearing ratio reflects reduction in equity on account of net losses incurred during the year and withdrawal of depreciation/ amortisation of fair value of assets and loss on account of change in exchange rates from General Reserve as permitted by the Court Scheme.

Let's take a step
together
towards a greener environment

Dear Shareholders,

At Reliance Communications, we take immense pride in promoting the cause of sustainability and green energy as an integral part of all our businesses and our corporate social responsibility initiatives.

As you are already aware, the more we consume paper, more are the number of trees that are needed to be cut. We therefore request you to join us in preserving the environment for our future generations by reducing the use of paper. One positive step in this direction will be to opt for getting the Annual Reports of the Company by email.

This is a welcome move for the society at large, as this will reduce paper consumption to a great extent and allow shareholders to contribute towards a Greener Environment.

Reliance also strongly supports our honourable Prime Minister – Sh. Narendra Modi's Digital India vision, and is working on many fronts in parallel to enable a seamless digital connect with all our stakeholders – suppliers, bankers, customers, shareholders and employees.

In addition, this initiative aims to open up a more personalized connect with you as we start to integrate our shareholders more into the Reliance family and enable us to offer you better products and services through our Reliance Group Loyalty Program (RGLP).

You can do this by registering your details at www.RGLP.co.in and opting for our e-communication channels.

Whenever any shareholder communication is published, we will send you an e-mail with a link to the information on the Reliance Communications website.

Please note that as a member of the Company you will be entitled to receive all such communication in physical form, upon request.

Thank you for helping Reliance to contribute more to our Green initiatives and making this planet a better place to live!

Please register your details at www.RGLP.co.in to opt for our e-communication channels
