b) Promoter & Non-Promoter Equity Shareholders of RCom, RTL, AL and DWL and preference shareholders of RTL, AL and DWL:

- i. The proposed Scheme contemplates creation of a Joint Venture between RCom Group and Aircel Group with a commercial understanding that each of the Group will hold 50% Equity stake in the combined entity, which is proposed to be AL, on fully diluted basis with equal representation on the Board of Directors and all Committees.
- ii. It is also commercially agreed between the both Groups to restrict the respective Group's debt in the combined entity (i.e. AL) at pre-agreed amount.
- iii. It is in the interest of both the groups to hold 50% Equity in the combined entity since holding of less than 50% will upset the balance of power and result in the promoters of one group having complete control over the combined entity. This would be totally contrary to the commercial interests of both the groups who are telecom operators and not mere investors in the telecom field.
- iv. Since there would effectively be only two promoters in the combined entity viz. RCom and the promoters of Aircel who between them hold 100% of the combined entity, the shares of the AL cannot be listed.
- v. Further, allotment of 50% Equity stake to RCom is in the interest of RCom, such allotment would also be in the best interest of all its stakeholders including RCom's shareholders.
- vi. Since respective Group's debt in the combined entity is restricted at pre-agreed amount, all existing Preference Shares of AL would first be converted into Equity Shares of AL and subsequently be cancelled to arrive at the desired equal equity stake of both the Groups in the combined entity.
- vii. As the Scheme does not provide for reorganize the terms of the Preference Shareholders of RTL and DWL, their rights would not be affected.
- viii. Overall the Scheme, inter-alia, provides for the consolidation of the wireless telecom business of RCom group and Aircel group, it will enhance competitive strength; achieve cost reduction, efficiencies and productivity gains by pooling financial, managerial and technical resources, personnel capabilities, skills, expertise and technologies; thereby significantly contributing to the future growth and maximizing shareholders' value.

c) Promoter & Non-Promoter Equity and Preference Shareholders of Deccan and SACPL:

- i. Equity shareholders of Deccan and SACPL and Preference Shareholders of SACPL shall be eligible for issuance of Shares of AL based on the valuation report obtained from M/s. S. R. Batliboi & Co. LLP, Chartered Accountants, an independent valuer.
- ii. Consequent to amalgamation of Deccan and SACPL, such preference share capital of the Deccan, which are entirely held by SACPL, shall be cancelled.

Thus, the rights and interest of the Promoters and Non-Promoter Shareholders of Companies involved in the Scheme will not be prejudicially affected by the Scheme.

Sub: Recommendation of the share entitlement for the proposed demerger of the Specified Telecom Operations of Reliance Communications Limited in to Aircel Limited

Dear Sir / Madam,

We refer to the engagement letters wherein Aircel Limited (hereinafter after referred to as "Aircel") and Reliance Communications Limited (hereinafter after referred to as "RCOM") have requested S.R. Batliboi & Co. LLP (hereinafter referred to as "SRBC", 'we', or 'us') to recommend a share entitlement for the proposed demerger of the Specified Telecom Operations of RCOM in to Aircel.

RCOM and Aircel are together hereinafter referred to as the 'Companies'.

SCOPE AND PURPOSE OF THIS REPORT

RCOM is a listed company headquartered in Mumbai, India. RCOM provides telecommunication services to individuals, enterprise, and carrier customers in India and internationally. The company offers voice and data wireless services, wireline broadband services, tower infrastructure services and ethernet services etc. For the year ended 31 March 2016, the company reported audited consolidated income from operations and profit after tax of ₹21,711 crores and ₹681 crores respectively.

Aircel provides GSM mobile services in India. It offers voice and data services ranging from post-paid and prepaid plans and 2G and 3G services. Aircel was incorporated in 1994 and is based in Gurgaon, India. Recommendation of share entitlement for the proposed demerger of the Specified Telecom Operations of RCOM into Aircel

We understand that the Management of the Companies are contemplating a demerger of the wireless operations and International/National Long distance operations of RCOM / Reliance Telecom Limited ("RTL", a 100% subsidiary of the RCOM) and the recent operations / assets to be acquired from Sistema ShyamTeleServices Limited ("SSTL"), hereinafter collectively referred to as the "Specified Telecom Operations of RCOM". The Specified Telecom Operations of RCOM would be then transferred in to the operations of Aircel / Dishnet Wireless Limited ("DWL", a 100% subsidiary of Aircel) ("Transaction") through a Composite Scheme of Arrangement. As consideration for the same, Aircel would issue equity shares to RCOM. In this connection, the Companies have appointed SRBC to recommend a share entitlement for the proposed demerger.

We understand that the appointed date for the Transaction will be the effective date.

For the aforesaid purpose, the Companies have appointed SRBC to prepare a report to be placed before the Board of Directors/Audit Committee of the Companies on the share entitlement for the proposed demerger of the Specified Telecom Operations of RCOM in to Aircel.

We have been provided with special purpose audited financials of Aircel for the 12 months ended 31 December 2015 and unaudited financial information for the Specified Telecom Operations of RCOM for nine months ended 31 December 2015. The Management has informed us that they do not expect significant changes in the business till the effective date. Further, we have been informed that the existing promoter loans and redeemable preference shares in Aircel would get converted into equity shares (out of which, some of them would get subsequently cancelled by way of capital reduction) such that the debt of Aircel would reduce to ₹14,000 crores as on the effective date.

We understand from the Management of RCOM that demerger of (a) certain circles of RTL into RCOM and (b) SSTL undertaking into RCOM, will get completed before the effective date. We have considered the same in our analysis and made adjustments for further facts made known (past or future) to us till the date of our report.

We understand from the Management that except for the shareholder loans/RPS conversion and capital reductions, there would not be any capital variation in Aircel till the effective date, other than those necessary to fund interim capex/opex requirements. These will be done 'at par value' and will not impact the effective shareholding of RCOM in the combined entity. We have relied on the same for our analysis.

We have relied on the above for the purposes of our analysis.

This report is our deliverable for the aforesaid purpose.

This report is subject to the scope, assumptions, exclusions, limitations and disclaimers detailed hereinafter. As such, the report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to therein.

Recommendation of share entitlement for the proposed demerger of the Specified Telecom Operations of RCOM into Aircel

APPROACH - BASIS OF THE DEMERGER

We understand from the Management that the proposed Scheme of Arrangement contemplates the demerger of the Specified Telecom Operations of RCOM in to Aircel pursuant to the Scheme under sections 391 to 394 of the Companies Act, 1956. Arriving at the fair share entitlement for the proposed demerger of the Specified Telecom Operations of RCOM in to Aircel would require determining the fair value of Aircel in terms of the fair value of the Specified Telecom Operations of RCOM. These values are to be determined independently without considering the current demerger Transaction or possible upside on account of synergies, and hence do not include any possible strategic premium.

There are several commonly used and accepted methods for determining the fair value of the Aircel / Specified Telecom Operations of RCOM, which have been considered in the present case, to the extent relevant and applicable, including:

1. Market Price method
2. Comparable Companies Quoted Multiples method
3. Discounted Cash Flows method
4. Net Asset Value method

It should be understood that the valuation of any business / company or its assets is inherently subjective and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In addition, this valuation will fluctuate with changes in prevailing market conditions, the conditions and prospects, financial and otherwise, of the companies, and other factors which generally influence the valuation of business / companies and their assets.

The application of any particular method of valuation depends on the purpose for which the valuation is done. Although different values may exist for different purposes, it cannot be too strongly emphasized that a valuer can only arrive at one value for one purpose. Our choice of methodology of valuation has been arrived at using usual and conventional methodologies adopted for transactions of a similar nature and our reasonable judgment, in an independent and bona fide manner, based on our previous experience of assignments of a similar nature.

Market Price (MP) Method

The market price of an equity share as quoted on a stock exchange is normally considered as the value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares. But there could be situations where the value of the share as quoted on the stock market would not be regarded as a proper index of the fair value of the share especially where the market values are fluctuating in a volatile capital market. Further, in the case of a merger/demerger, where there is a question of evaluating the shares of one company against those of another, the volume of transactions and the number of shares available for trading on the stock exchange over a reasonable period would have to be of a comparable standard.

Recommendation of share entitlement for the proposed demerger of the Specified Telecom Operations of RCOM into Aircel

Even though RCOM is a listed company, only the Specified Telecom Operations of RCOM are part of the Transaction and Aircel is not listed on any stock exchange. Hence, we have not considered market price method for the present exercise.

Comparable Companies' Quoted Multiple (CCM) method

Under this method, value of the company is arrived at by using multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

We have considered the Enterprise Value (EV)/Sales of listed comparable companies for the purpose of our valuation analysis.

Discounted Cash Flows (DCF) Method

Under the DCF method, the projected free cash flows to the firm are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm.

Using the DCF analysis involves determining the following:

Estimating future free cash flows:

Free cash flows are the cash flows expected to be generated by the company that are available to all providers of the company's capital – both debt and equity.

Appropriate discount rate to be applied to cash flows i.e. the cost of capital:

This discount rate, which is applied to the free cash flows, should reflect the opportunity cost to all the capital providers (namely shareholders and creditors), weighted by their relative contribution to the total capital of the company. The opportunity cost to the capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk.

The Management has not provided us the business plans. Given the aforesaid, we have not undertaken a Discounted Cash Flows (DCF) analysis.

Net Asset Value (NAV) Methodology

The asset based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis.

We have considered it appropriate to use NAV on a replacement cost basis in our analysis considering that telecom spectrum is a significant intangible asset for these businesses for which auction price benchmarks are available. Apart from spectrum and other select intangibles, the balance assets have been primarily considered at book values.

Recommendation of share entitlement for the proposed demerger of the Specified Telecom Operations of RCOM into Aircel

While applying this method, we have effectively done a Sum-of-the-Parts (SOTP) analysis circle by circle, where certain circles with potential intrinsic value/possible differential strategic options are valued based on NAV method (while others continue to be valued based on CCM method).

BASIS OF THE DEMERGER

The basis of valuation would have to be determined after taking into consideration all the factors and methodologies mentioned hereinabove.

Aircel and the Specified Telecom Operations of RCOM were valued using SOTP (circle wise NAV/CCM) and CCM methods. We have considered appropriate to assign higher weight to SOTP method and lower weight to CCM method.

In the ultimate analysis, valuation will have to be tempered by the exercise of judicious discretion by the Valuers and judgment taking into accounts all the relevant factors. There will always be several factors, e.g. quality and integrity of the Management, present and prospective competition, yield on comparable securities and market sentiment, etc. which are not evident from the face of the balance sheets but which will strongly influence the worth of a share. This concept is also recognised in judicial decisions.

In light of the above, and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, we recommend that the fair entitlement for the Proposed demerger of the Specified Telecom Operations of RCOM in to Aircel should be such that additional equity shares of 97% to 105% (rounded off) of pre-demerger share capital of Aircel (post conversion of planned shareholder loans/preference shares into equity and reduction of capital) gets issued to RCOM. The planned conversion of shareholder loans / preference shares in to equity is a condition precedent to our Report.

Sindya Securities & Investments Private Limited ("SSIPL") owns 74.3% stake in Deccan, with the balance 25.7% owned by Global Communication Services Holdings ("GCSH", Mauritius). GCSH is an indirect 100% subsidiary of Maxis Communication Berhad of Malaysia, and owns balance 65% stake in Aircel.

SAC is a 100% subsidiary of GCSH and holds investment in Deccan in the form of cumulative non-convertible Redeemable Preference Shares ("RPS") of ₹1,645 crores of ₹10 each. These preference shares are redeemable in 2026 at a premium of 22% over face value and have a coupon rate of 0.01% p.a.

Deccan and SAC are holding companies without any operations. Further, effectively SAC's only investment is in Deccan and Deccan's only investment is in Aircel.

We understand that the Management of the Companies are contemplating amalgamation of the Deccan and SAC into Aircel ("Proposed Merger") through a Scheme of Arrangement

Recommendation of the fair equity exchange ratio/share entitlement for the proposed merger of Deccan and SAC in to Aircel

under the provisions of Section 391-394 of the Companies Act, 1956 ('Scheme of Arrangement'). As consideration for this Proposed Merger, Aircel proposed to issue equity shares to the shareholders of Deccan and SAC.

The RPS held by SAC in Deccan is proposed to be cancelled by way of capital reduction as part of the same Scheme of Arrangement. As provided in the scheme, the aforesaid capital reduction is independent of other parts in the Scheme of Arrangement and precedes other actions proposed in the Scheme. The aforesaid capital reduction is a condition precedent to this report.

For the aforesaid purpose, Aircel have appointed SRBC to prepare a report to be placed before the Board of Directors of the Companies on recommendation of the fair equity exchange ratio/share entitlement for the Proposed Merger.

We have been provided with audited financials of Aircel up to 31 December 2015 and unaudited financials of Deccan and SAC up to 31 March 2016. Further, we have been informed that the promoter loans and redeemable preference shares in Aircel would get converted into equity shares (out of which, some of them would get subsequently cancelled by way of capital reduction) such that the debt of Aircel would reduce to ₹ 14,000 crores as on the effective date and the revised number of equity shares of Aircel would be 13,99,66,65,135 (excluding the impact of capex / opex funding in the interim period up to Scheme becoming effective).

The Management of Aircel has represented to us that there is no significant change in business operations and financial position of Aircel from last reported financials as of 31 December 2015 provided to us till date.

The Management of SAC and the Management of Deccan has represented to us that there is no significant change in the financial position of SAC and Deccan from last reported financials as of 31 March 2016 provided to us till date.

We have relied on the above for the purposes of our analysis.

This report is our deliverable for the aforesaid purpose.

This report is subject to the scope, assumptions, exclusions, limitations and disclaimers detailed hereinafter. As such, the report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to therein.

SHARE CAPITAL

Aircel Limited

The issued, subscribed and paid up equity share capital of Aircel as at 31 March 2016 is ₹ 243 crores, consisting of 243,243,243 equity shares of face value of ₹ 10 each fully paid up. The shareholding pattern is as follows:

(B) Deccan Digital Networks Private Limited	8,51,35,135	35%
Grand Total (A+B)	24,32,43,243	100%

Source: Management

The Scheme of Arrangement also proposes a separate demerger transaction with Reliance Communications Limited (hereinafter after referred to as "RCOM"), which would result in Aircel issuing additional shares as consideration for the demerger. However the demerger transaction would not change the per share value of equity shares of Aircel that needs to be considered for the purposes of the Proposed Merger.

Deccan Digital Networks Private Limited

The issued, subscribed and paid up equity share capital of Deccan as at 31 March 2016 is ₹ 46 crores, consisting of 46,000,000 equity shares of face value of ₹ 10 each fully paid up. The shareholding pattern is as follows:

Grand Total (A+B)	4,60,00,000	100.00%

In addition, as mentioned earlier, SAC has also invested in RPS of Deccan. The Management of the Companies has informed us that the RPS would get cancelled before the Proposed Merger.

South Asia Communications Private Limited

The issued, subscribed and paid up equity share capital of SAC as at 31 March 2016 is ₹ 6.2 crores, consisting of 6,217,278 equity shares of face value of ₹ 10 each fully paid up. As informed by the Management, these are entirely held by GCSH.

Recommendation of the fair equity exchange ratio/share entitlement for the proposed merger of Deccan and SAC in to Aircel

APPROACH - BASIS OF THE MERGER

We understand from the Management that the proposed Scheme of Arrangement contemplates the Amalgamation of the Companies pursuant to the Scheme under Section 391-394 of the Companies Act, 1956. Arriving at the fair share entitlement for the Proposed Merger Deccan and SAC in to Aircel would require determining the fair value of Aircel in terms of the fair value of Deccan and SAC. These values are to be determined independently without considering the Proposed Merger.

There are several commonly used and accepted methods for determining the fair value of the Companies, which have been considered in the present case, to the extent relevant and applicable, including:

1. Market Price method
2. Comparable Companies Quoted Multiples method
3. Discounted Cash Flows method
4. Net Asset Value method

It should be understood that the valuation of any business / company or its assets is inherently subjective and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control.

The application of any particular method of valuation depends on the purpose for which the valuation is done and surrounding facts. Although different values may exist for different purposes, it cannot be too strongly emphasized that a valuer can only arrive at one value for one purpose. Our choice of methodology of valuation has been arrived at using usual and conventional methodologies adopted for transactions of a similar nature and our reasonable judgment, in an independent and bona-fide manner, based on our previous experience of assignments of a similar nature.

Market Price (MP) Method

The market price of an equity share as quoted on a stock exchange is normally considered as the value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares. But there could be situations where the value of the share as quoted on the stock market would not be regarded as a proper index of the fair value of the share especially where the market values are fluctuating in a volatile capital market. Further, in the case of a merger, where there is a question of evaluating the shares of one company against those of another, the volume of transactions and the number of shares available for trading on the stock exchange over a reasonable period would have to be of a comparable standard.

Since Aircel, SAC and Deccan are not listed on any stock exchange, we have not considered this method.

Comparable Companies' Quoted Multiple (CCM) method

S.R. BATLIBOI & CO. LLP

Chartered Accountants

Recommendation of the fair equity exchange ratio/share entitlement for the proposed merger of Deccan and SAC in to Aircel

Under this method, value of the company is arrived at by using multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

For valuation of Aircel, we have considered the Enterprise Value (EV)/Sales multiple of listed comparable companies.

Considering Deccan and SAC do not have any business operations, we have not used this method.

Discounted Cash Flows (DCF) Method

Under the DCF method, the projected free cash flows to the firm are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm.

Using the DCF analysis involves determining the following:

Estimating future free cash flows:

Free cash flows are the cash flows expected to be generated by the company that are available to all providers of the company's capital – both debt and equity.

Appropriate discount rate to be applied to cash flows i.e. the cost of capital:

This discount rate, which is applied to the free cash flows, should reflect the opportunity cost to all the capital providers (namely shareholders and creditors), weighted by their relative contribution to the total capital of the company. The opportunity cost to the capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk.

The Management has not provided us the business plan of Aircel. Given the aforesaid, we have not undertaken a DCF analysis.

Considering Deccan and SAC do not have any business operations, we have not used this method.

Additionally, we have used a Sum-of-the-Parts (SOTP) approach for Aircel, where we have done our analysis by applying the aforesaid methods circle-wise.

Net Asset Value (NAV) Methodology

The asset based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. We have considered it appropriate to use NAV on a replacement cost basis in our analysis for valuation of Aircel considering that telecom spectrum is a significant intangible asset for which auction price benchmarks are available. Apart from spectrum and other select intangibles, the balance assets have been primarily considered at book values. While applying

S.R. BATLIBOI & Co. LLP

Chartered Accountants

Recommendation of the fair equity exchange ratio/share entitlement for the proposed merger of Deccan and SAC in to Aircel

this method, we have effectively done a Sum-of-the-Parts (SOTP) analysis circle by circle, where certain circles with potential intrinsic value/possible differential strategic options are valued based on NAV method (while others continue to be valued based on CCM method).

Considering Deccan and SAC do not have any business operations, we have used NAV (book value adjusted for value of underlying investments).

Recommendation of the fair equity exchange ratio/share entitlement for the proposed merger of Deccan and SAC in to Aircel

BASIS OF THE MERGER

The basis of valuation would have to be determined after taking into consideration all the factors and methodologies mentioned hereinabove.

Aircel has been valued using SOTP (circle wise NAV/CCM) and CCM methods. Deccan and SAC have been valued using NAV (book value adjusted for value of underlying investments).

In the ultimate analysis, valuation will have to be tempered by the exercise of judicious discretion by the Valuer and judgment taking into accounts all the relevant factors. This concept is also recognized in judicial decisions.

In light of the above, and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, we recommend:

- Share swap ratio for the proposed merger of Deccan in to Aircel should be 187 (One hundred eighty seven) equity shares of Aircel of ₹10/- each fully paid up to be issued for every 100 (One Hundred) equity shares of Deccan of ₹ 10/- each fully paid up.
- 24,49,999¹ equity shares of Aircel of ₹10/- each fully paid up to GCSH for its RPS held in SAC.
- As per our computation, no consideration is to be paid to the equity shares of SAC. However, the Management has represented to us that they would like to issue 1 (one) equity share of Aircel of ₹10/- fully paid up to GCSH for its equity shares held in SAC, as a token consideration. Considering that GCSH holds all shares in SAC, we believe this is not unfair.

The Management has informed us that the reduction of shareholder loans/RPS of Aircel and reduction of share capital of Aircel (such that debt in Aircel becomes ₹ 14,000 crores and number of shares of Aircel becomes 13,99,66,65,135 before the Proposed Merger in Aircel) is simultaneous with other steps in the Scheme but also condition precedents to other steps. Further, the capital reduction in Deccan is an independent step happening prior to other steps. Therefore our analysis/recommendation would change in case these condition precedents are not fulfilled, or capital reduction in Deccan does not materialize earlier.

¹ 24,50,000 (rounded off) equity shares of Aircel Less 1(one) equity share of Aircel to GCSH for its equity shares held in SAC

In addition to the above, we have also obtained such other information and explanations, which were considered relevant for the purpose of our analysis.

Our Recommendation:

As stated in the Valuation Report, S.R. Batliboi & Co. LLP have recommended the following Share Entitlement:

"Additional equity shares of 97% to 105% (rounded off) of pre-demerger share capital of Aircel (Post conversion of planned shareholder loans/preference shares into equity and reduction of capital) gets issued to RCom"

The aforesaid Arrangement shall be pursuant to the Draft Scheme of Arrangement and shall be subject to receipt of approval from the Jurisdictional High Court and other statutory approvals as may be required. The detailed terms and conditions of the demerger are more fully set forth in the Draft Scheme of Arrangement. Keynote has issued the fairness opinion with the understanding that Draft Scheme of Arrangement shall not be materially altered and the parties hereto agree that the Fairness Opinion would not stand good in case the final Scheme of Arrangement alters the transaction.

Based on the information, data made available to us, including the Valuation Report, to the best of our knowledge and belief, the share entitlement for the equity shareholders as suggested by S.R. Batliboi & Co. LLP proposed under the Scheme of Arrangement is fair in our opinion.

Dear Sirs,

Reg: Fairness Opinion on the recommendation of the fair equity exchange ratio/share entitlement for the proposed merger of Deccan Digital Networks Private Limited ("Deccan") and South Asia Communications Private Limited ("SAC") in to Aircel Limited ("Aircel").

Keynote Corporate Services Limited ("Keynote" or "we" or "us") is Category I Merchant Banker registered with Securities Exchange Board of India ("SEBI"). We have been requested to issue a report on fairness on the fair equity exchange ratio/share entitlement for the proposed merger of Deccan Digital Networks Private Limited and South Asia Communications Private Limited in to Aircel Limited. We have perused the documents/ information provided by you in respect of the said Arrangement and the Valuation Report as Issued by S.R. Batliboi & Co. LLP dated 14 September 2016 and state as follows:

Company Profile:

Aircel is a public company incorporated under the Companies Act 1956 provides GSM mobile services in India. Deccan is a private company holding 35% stake in Aircel in form of equity shares. Sindya Securities & Investments Private Limited ("SSIPL") owns 74.3% stake in Deccan, with the balance 25.7% owned by Global Communication Services Holdings ("GCSH", Mauritius). 1956 ("Scheme of Arrangement") and other applicable provisions of the Companies Act, 2013. As consideration for this Proposed Merger, Aircel proposed to issue equity shares to the shareholder of Deccan and SAC.

In this regard, we have been requested to suggest Fairness on the Share Entitlement for the Proposed Merger.

Sources of Information:

For arriving at the fairness opinion set forth below, we have relied upon the following sources of information:

- With respect to Aircel:
 - Consolidated Annual reports of Aircel for year ended March 31, 2015 and special purpose audited consolidated financials for the year ended December 31, 2015.
 - Un-audited quarterly financial statements ended March 31, 2015 to December 31, 2015
 - Historical circle-wise key operational parameters including revenue and subscriber
 - Details of Deferred Spectrum Liability
 - Details of circle wise spectrum holdings
- With respect to SAC :
 - Audited financial statements for year ended March 31, 2015
 - Unaudited financial statements of SAC for the year ended March 31, 2016 including balance sheet, statement of profit & loss, cash flow statement and notes to the financial statements.
- With respect to Deccan :
 - Audited financial statements for year ended March 31, 2015
 - Unaudited financial statements of SAC for the year ended March 31, 2016 including balance sheet, statement of profit & loss, cash flow statement and notes to the financial statements.
- Draft Scheme of Arrangement

In addition to the above, we have also obtained such other information and explanations, which were considered relevant for the purpose of our Analysis.

Our Recommendation:

As stated in the Valuation Report, S.R. Batliboi & Co. LLP have recommended the following Share Entitlement:

"

- Share swap ratio for the proposed merger of Deccan in to Aircel should be 187 (one hundred eighty seven) equity shares of Aircel of Rs10/- each fully paid up to be issued for every 100 (one hundred) equity shares of Deccan of Rs10 /- each fully paid up.
- 24,49,999 equity shares of Aircel of Rs 10 /- each fully paid up to GCSH for its RPS held in SAC.

KEYNOTE

- As per our computation, no consideration is to be paid to the equity shares of SAC. However, the Management has represented to us that they would like to issue 1 (one) equity share of Aircel of Rs.10/- fully paid up to GCSH for its equity shares held in SAC, as a token of consideration. Considering that GCSH holds all shares in SAC, we believe this is fair."

The aforesaid arrangement shall be pursuant to the Draft Scheme of Arrangement and shall be subject to receipt of approval from the Jurisdictional High Court and other statutory approvals as may be required. The detailed terms and conditions of the merger are more fully set forth in the Draft Scheme of Arrangement. Keynote has issued the fairness opinion with the understanding that Draft Scheme of Arrangement shall not be materially altered and the management has also informed us that the reduction of shareholders loans/RPS of Aircel and reduction of share capital (such that debt in Aircel becomes Rs.14000 crore and number of shares of Aircel becomes 1399,66,65,135 before the Proposed Merger in Aircel) is simultaneous with other steps in the Scheme but also conditions precedents to other steps; further, the capital reduction in Deccan is an independent step happening prior to the other steps. The parties hereto agree that the Fairness Opinion would not stand good in case the final Scheme of Arrangement alters the transaction or the conditions precedent are not fulfilled or capital reduction in Deccan does not materialize earlier.

Based on the information, data made available to us, including the Valuation Report, to the best of our knowledge and belief, the share entitlement for the equity shareholders as suggested by S.R. Batliboi & Co. LLP proposed under the Scheme of Arrangement is fair in our opinion.

Exclusions and Limitations:

1. Background:

- 1.1 A meeting of the Board of Directors ('Board') of Reliance Communications Limited was held on 14th September, 2016 to consider and recommend the proposed the Composite Scheme of Arrangement between Reliance Communications Limited ("the Company" or "the Demerged Company 1" or "RCom") and Reliance Telecom Limited ("the Demerged Company 2" or "RTL") and Aircel Limited ("Resulting Company 1" or "Transferee Company" or "AL") and Dishnet Wireless Limited ("Resulting Company 2" or "DWL") and Deccan Digital Networks Private Limited ("the Transferor Company 1" or "Deccan") and South Asia Communications Private Limited ("the Transferor Company 2" or "SACPL") and their respective shareholders and creditors ("Scheme").

Further the said report has to specify any special valuation difficulties, if any in the valuation. This report of the Board is made in order to comply with the requirements of Section 232(2)(c) of Companies Act, 2013.
- 1.3 While deliberating on the Scheme, the Board had, inter-alia, considered and took on record following necessary documents ('Documents'):
 - a. Draft Scheme of Arrangement among the Company, RTL, AL, DWL, Deccan, SACPL and their respective shareholders and creditors;

 - d. Report of the Audit Committee dated 14th September, 2016, recommending the Scheme to the Board for approval.

2. Background to the Proposed Scheme:

The Scheme, inter alia, provides for the following:

- a) transfer and vesting of the Demerged Undertakings(as defined in the Scheme) from the Demerged Companies (as defined in the Scheme) into the Resulting Companies(as defined in the Scheme), the manner of vesting of the Demerged Undertakings and the consideration thereof;
- b) Amalgamation of the Transferor Companies(as defined in the Scheme) with the Transferee Company (as defined in the Scheme) and the consideration thereof;

- d) Conversion of the Resulting Company 1 Shareholder Loans (as defined in the Scheme) into equity shares and the subsequent reduction and cancellation of a part of such equity shares;
- e) Reduction and cancellation of the Transferor Company 1 RPS(as defined in the Scheme).

Rationale of the Scheme

The demerger and vesting of the Demerged Undertakings of the Demerged Companies to the Resulting Companies pursuant to the Scheme shall, inter alia, result in following benefits:

- (i) consolidation of the wireless telecom business of the Demerged Companies with the Resulting Companies provides an opportunity to the Demerged Company 1 to acquire equity interest in the Resulting Company 1;
- (ii) further expanding the business of the Resulting Companies into growing markets of India, thereby creating greater value for the shareholders of the Resulting Companies;
- (iii) availability of increased resources and assets which can be utilised for strengthening the customer base of the Resulting Companies (including the customer base of the Demerged Companies) and servicing existing as well as new customers of the Resulting Companies innovatively and efficiently;
- (iv) augmenting the infrastructural capability of the Resulting Companies to effectively meet future challenges in the ever-evolving wireless telecom business;
- (v) the combination of the Demerged Undertakings and the Resulting Companies is a strategic fit for serving existing market and for catering to additional volume linked to new consumers;
- (vi) synergies in operational process and logistics alignment leading to economies of scale for the Resulting Companies and creation of efficiencies and benefitting customers as well as optimization of operation and capital expenditure;
- (vii) assisting the Resulting Companies and the Demerged Companies in strengthening their assets base while also enhancing their financial flexibility;
- (viii) enhance competitive strength, achieve cost reduction, efficiencies and productivity gains by pooling the financial, managerial and technical resources, personnel capabilities, skills, expertise and technologies of the Resulting Companies and the Demerged Companies thereby significantly contributing to future growth and maximizing shareholders value;
- (ix) reducing the direct and indirect foreign shareholding in the Resulting Company 1; and

- (x) to achieve an optimal capital structure which duly represents the intrinsic value of the Resulting Company 1, through a capital reorganization exercise which will also involve conversion of the Resulting Company 1 Shareholders Loans which are in the nature of long term shareholder funding for the Resulting Company 1 into equity shares and thereby strengthening the balance sheet of the Resulting Companies for future growth and expansion and to create a capital structure which is geared to take advantage of possible growth opportunities.

The amalgamation of the Transferor Companies with the Transferee Company pursuant to the Scheme will simplify and streamline the ownership structure of the Resulting Company 1. The proposed restructuring between the Transferor Companies and the Transferee Company is in the interest of the shareholders, creditors, employees and other stakeholders, of each of the companies, as it would enable a focused business approach for the maximization of benefits to all stakeholders.

3. Valuation

The Reports on valuation have been obtained from M/s. S.R. Batliboi & Co. LLP, Chartered Accountants, an independent valuer. The valuations have been arrived at based on the various methodologies explained in the Report and various qualitative factors relevant to the Business and the business dynamics and growth potentials of the business, having regard to information base, key underlying assumptions and limitations. The valuation has been reviewed for fairness by M/s. Keynote Corporate Services Limited, Category-I Merchant Banker.

As per the commercial understanding agreed between RCom Group and Aircel Group (herein referred to as "the Parties"), each of the Parties will hold 50% stake in the combined entity (i.e. AL) on fully diluted basis with equal representation on the Board of Directors and all Committees. It is also commercially agreed between the Parties to restrict the respective Party's debt in AL at pre-agreed amount.

The valuation report states that the fair entitlement, for the proposed of the Demerged Undertakings of the Demerged Companies to the Resulting Companies, should be such that additional equity shares in the range of 97% to 105% of pre demerger share capital of combined entity (i.e. AL) be issued to RCom. The range per valuation report of 97% to 105% signifies that the value of RCom's business being transferred and AL is virtually equal and therefore, the Audit Committee of RCom and the Board of directors of RTL, AL, DWL, Deccan and SACPL have concluded that it is fair and reasonable as also in the interest of RCom, RTL, AL, DWL, Deccan and SACPL and its shareholders that RCom and the existing shareholders of AL have equal ownership holding i.e. 50% of equity share capital in the combined entity (i.e. AL). Thus, Clause 19 "Consideration", provides that 1400,00,00,000 (Fourteen hundred crores) Equity Shares in AL, shall be issued to RCom, which shall be equal to estimated pre demerger capital of AL. This would ensure that both the Parties own 50% of equity share capital in the combined entity (i.e AL), post the Scheme coming into effect. Out of 1400,00,00,000 (Fourteen hundred crores) Equity Shares issued to RCom, 579,999,821 (five hundred and seventy nine million nine hundred and ninety nine thousand eight hundred and twenty one) equity shares is in respect of the undertaking demerged from the Company.

4. Impact on key stakeholders

There is expected to be no adverse effect of the said Scheme on the key managerial personnel, directors, promoters and non-promoter shareholders of the Company.

2. Background to the Proposed Scheme:

The Scheme, interalia, provides for the following:

- a) transfer and vesting of the Demerged Undertakings (as defined in the Scheme) from the Demerged Companies (as defined in the Scheme) into the Resulting Companies (as defined in the Scheme), the manner of vesting of the Demerged Undertakings and the consideration thereof;
- b) Amalgamation of the Transferor Companies (as defined in the Scheme) with the Transferee Company (as defined in the Scheme) and the consideration thereof;

- d) Conversion of the Resulting Company 1 Shareholder Loans (as defined in the Scheme) into equity shares and the subsequent reduction and cancellation of a part of such equity shares;
- e) Reduction and cancellation of the Transferor Company 1 RPS (as defined in the Scheme).

Rationale of the Scheme

The demerger and vesting of the Demerged Undertakings of the Demerged Companies to the Resulting Companies pursuant to the Scheme shall, inter alia, result in following benefits:

- (i) consolidation of the wireless telecom business of the Demerged Companies with the Resulting Companies provides an opportunity to the Demerged Company 1 to acquire equity interest in the Resulting Company 1;
- (ii) further expanding the business of the Resulting Companies into growing markets of India, thereby creating greater value for the shareholders of the Resulting Companies;
- (iii) availability of increased resources and assets which can be utilised for strengthening the customer base of the Resulting Companies (including the customer base of the Demerged Companies) and servicing existing as well as new customers of the Resulting Companies innovatively and efficiently;
- (iv) augmenting the infrastructural capability of the Resulting Companies to effectively meet future challenges in the ever-evolving wireless telecom business;
- (v) the combination of the Demerged Undertakings and the Resulting Companies is a strategic fit for serving existing market and for catering to additional volume linked to new consumers;
- (vi) synergies in operational process and logistics alignment leading to economies of scale for the Resulting Companies and creation of efficiencies and benefitting customers as well as optimization of operation and capital expenditure;
- (vii) assisting the Resulting Companies and the Demerged Companies in strengthening their assets base while also enhancing their financial flexibility;
- (viii) enhance competitive strength, achieve cost reduction, efficiencies and productivity gains by pooling the financial, managerial and technical resources, personnel capabilities, skills, expertise and technologies of the Resulting Companies and the Demerged Companies thereby significantly contributing to future growth and maximizing shareholders value;

- (ix) reducing the direct and indirect foreign shareholding in the Resulting Company 1; and
- (x) to achieve an optimal capital structure which duly represents the intrinsic value of the Resulting Company 1, through a capital reorganization exercise which will also involve conversion of the Resulting Company 1 Shareholders Loans which are in the nature of long term shareholder funding for the Resulting Company 1 into equity shares and thereby strengthening the balance sheet of the Resulting Companies for future growth and expansion and to create a capital structure which is geared to take advantage of possible growth opportunities.

The amalgamation of the Transferor Companies with the Transferee Company pursuant to the Scheme will simplify and streamline the ownership structure of the Resulting Company 1. The proposed restructuring between the Transferor Companies and the Transferee Company is in the interest of the shareholders, creditors, employees and other stakeholders, of each of the companies, as it would enable a focused business approach for the maximization of benefits to all stakeholders.

3. Valuation

The Reports on valuation have been obtained from M/s. S.R. Batliboi & Co. LLP, Chartered Accountants, an independent valuer. The valuations have been arrived at based on the various methodologies explained in the Report and various qualitative factors relevant to the Business and the business dynamics and growth potentials of the business, having regard to information base, key underlying assumptions and limitations. The valuation has been reviewed for fairness by M/s. Keynote Corporate Services Limited, Category-I Merchant Banker.

As per the commercial understanding agreed between RCom Group and Aircel Group (herein referred to as "the Parties"), each of the Parties will hold 50% stake in the combined entity (i.e. AL) on fully diluted basis with equal representation on the Board of Directors and all Committees. It is also commercially agreed between the Parties to restrict the respective Party's debt in AL at pre-agreed amount.

Demerger

The valuation report states that the fair entitlement, for the proposed of the Demerged Undertakings of the Demerged Companies to the Resulting Companies, should be such that additional equity shares in the range of 97% to 105% of pre demerger share capital of combined entity (i.e. AL) be issued to RCom. The range per valuation report of 97% to 105% signifies that the value of RCom's business being transferred and AL is virtually equal and therefore, the Audit Committee of RCom and the Board of directors of RCom, RTL, AL, DWL, Deccan and SACPL have concluded that it is fair and reasonable as also in the interest of RCom, RTL, AL, DWL, Deccan and SACPL and its shareholders that RCom and the existing shareholders of AL have equal ownership holding i.e. 50% of equity share capital in the combined entity (i.e. AL). Thus, Clause 19 "Consideration", provides that 1400,00,00,000 (Fourteen hundred crores) Equity Shares in AL, shall be issued to RCom, which shall be equal to estimated pre demerger capital of AL. This would ensure that both the Parties own 50% of equity share capital in the combined entity (i.e AL), post the Scheme coming into effect.

Merger of Deccan into AL

The valuation report states that the fair entitlement for the proposed merger of Deccan into AL should be 187 equity shares of Rs 10 each fully paid up for every 100 shares of Deccan of Rs 10 each fully paid up. The Management is of the view that the same is fair and reasonable and in the interest of the shareholders.

Merger of SACPL into AL

24,49,999 equity shares of AL of Rs 10 each fully paid up should be issued to Global Communications Services Holdings Limited ("GCSHL") for its holding in Redeemable Preference Shares of SACPL. As per their computation, no consideration is to be paid to the equity shares of SACPL. However, it was decided to issue 1 (One) equity share of AL of Rs.10 each to GCSHL for its holding in equity shares of SACPL as token consideration. The Management is of the view that the same is fair and reasonable and in the interest of the shareholders.

4. Impact on key stakeholders

There is expected to be no adverse effect of the said Scheme on the key managerial personnel, directors, promoters and non-promoter shareholders of the Company.
